SUPPLEMENTARY INFORMATION:

Agenda

The Committee plans a discussion to designate a Habitat Area of Particular Concern in Southern New England: Articulate the problem and rationale for action, discuss potential objectives, and identify information sources to consider. Potentially recommend that the Council initiate a framework adjustment at their next meeting. Also on the agenda is the Northern Edge habitat management: Discuss a white paper documenting new information to consider should the Council wish to revise habitat management areas and restrictions on fishing in this region. The Committee can request additional information or analysis that would support future Council decision making on this issue. Because this action is not a 2022 work priority, the next Council decision on Northern Edge habitat management would be related to future prioritization of this work.

The committee will also review a draft letter expressing Council concerns about the Amite telecommunications cable project. Other business may be discussed as necessary.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

ACTION: Notice; proposed incidental harassment authorizations; request for comments on proposed authorizations and possible renewals.

SUMMARY: NMFS has received a request from the United States Department of the Air Force (DAF) for authorization to take marine mammals incidental to 2 years of activity related to testing of the Extended Range Cannon Artillery II (ERCA II) system at Vandenberg Air Force Base (VAFB), California. NMFS is also requesting comments on a possible one-time, one-year renewal for each IHA that could be issued under certain circumstances and if all requirements are met, as described in Request for Public Comments at the end of this notice. NMFS will consider public comments prior to making any final decision on the issuance of the requested MMPA authorizations and agency responses will be summarized in the final notice of our decision. The DAF's activities are considered military readiness activities pursuant to the MMPA, as amended by the National Defense Authorization Act for Fiscal Year 2004 (2004 NDAA).
