

reasonably be anticipated to enter the environment in substantial quantities or there is or may be significant or substantial human exposure to the substance; or

- The chemical substance or significant new use is not likely to present an unreasonable risk of injury to health or the environment.

Unreasonable risk findings must be made without consideration of costs or other non-risk factors, including an unreasonable risk to a potentially exposed or susceptible subpopulation identified as relevant under the conditions of use. The term “conditions of use” is defined in TSCA section 3 to mean “the circumstances, as determined by the Administrator, under which a chemical substance is intended, known, or reasonably foreseen to be manufactured, processed, distributed in commerce, used, or disposed of.”

EPA is required under TSCA section 5(g) to publish in the **Federal Register** a statement of its findings after its review of a TSCA section 5(a) notice

when EPA makes a finding that a new chemical substance or significant new use is not likely to present an unreasonable risk of injury to health or the environment. Such statements apply to PMNs, MCANs, and SNUNs submitted to EPA under TSCA section 5.

Anyone who plans to manufacture (which includes import) a new chemical substance for a non-exempt commercial purpose and any manufacturer or processor wishing to engage in a use of a chemical substance designated by EPA as a significant new use must submit a notice to EPA at least 90 days before commencing manufacture of the new chemical substance or before engaging in the significant new use.

The submitter of a notice to EPA for which EPA has made a finding of “not likely to present an unreasonable risk of injury to health or the environment” may commence manufacture of the chemical substance or manufacture or processing for the significant new use

notwithstanding any remaining portion of the applicable review period.

IV. Statements of Administrator Findings Under TSCA Section 5(a)(3)(C)

Title: Inmate Calling Services (ICS)

Provider Annual Reporting, Certification, Consumer Disclosure, and Waiver Request Requirements.

Form Number(s): FCC Form 2301(a) and FCC Form 2301(b).

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents and Responses: 20 respondents; 23 responses.

Total Annual Burden: 3,740 hours.

Total Annual Cost: No cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: The Protective Order in the Commission's inmate calling services (ICS) proceeding, WC Docket 12-375, 28 FCC Rcd 16954 (WCB 2013), provides confidential treatment for the proprietary information submitted by (ICS providers in response to the Commission's directives. The Commission will treat as presumptively confidential any particular information identified as confidential by the provider in accordance with the Freedom of Information Act and Commission rules. Each confidential document should be stamped and

submitted to the Secretary's Office with an accompanying cover letter, as specified by the Protective Order.

Needs and Uses: Section 201 of the Communications Act of 1934, as amended (Act), 47 U.S.C 201, requires that ICS providers' interstate and international rates and practices be just and reasonable. Section 276 of the Act, 47 U.S.C. 276, requires that payphone service providers (including ICS providers), be fairly compensated for completed calls.

In 2015, the Commission released the Second Report and Order and Third Notice of Further Proposed Rulemaking, WC Docket No. 12-375, 30 FCC Rcd 12763 (*2015 ICS Order*), in which the Commission required that ICS providers file Annual Reports providing data and other information on their ICS operations, as well as Annual Certifications that reported data are complete and accurate and comply with the Commission's ICS rules. Pursuant to the authority delegated it by the Commission in the *2015 ICS Order*, the Wireline Competition Bureau (Bureau) created standardized reporting templates (FCC Form No. 2301(a)) and a related certification of accuracy (FCC Form No. 2301(b)), as well as instructions to guide providers through the reporting process. The instructions explain the reporting and certification requirements and reduce the burden of the data collection. (ICS Annual Reporting Form (2017-2019), available at <https://www.fcc.gov/general/ics-data-collections>; ICS Annual Reporting Certification Form, available at <https://www.fcc.gov/general/ics-data-collections>).

In 2021, the Commission released the Third Report and Order, Order on Reconsideration, and Fifth Further Notice of Proposed Rulemaking WC Docket No. 12-375, 36 FCC Rcd (2021) (*2021 ICS Order*), which continued the Commission's reform of its ICS rules. The Commission revised its rules by adopting, among other things, lower interim rate caps for interstate calls, new interim rate caps for international calls, and a new rate cap structure that requires ICS providers to differentiate between legally mandated and contractually required site commissions.

On December 15, 2021, the Bureau issued a Public Notice seeking comment on its proposed revisions to the instructions and templates for the Annual Reports and Certifications submitted by ICS providers. The Bureau proposed to revise the instructions and templates for the Annual Reports, Certifications, and Instructions to be consistent with the Commission's rules and to reflect improvements based on
