**SUPPLEMENTARY INFORMATION:** Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires federal agencies to publish a 30-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice that summarizes the following proposed collection(s) of information for public comment:

1. *Type of Information Collection Request:* Extension without change of a currently approved collection; *Title of Information Collection:* Bid Pricing Tool (BPT) for Medicare Advantage (MA) Plans and Prescription Drug Plans (PDP); *Use:* This collection dates back to 2005. MAOs and PDPs use the Bid

Pricing Tool (BPT) software to develop their actuarial pricing bid. The competitive bidding process defined by the "The Medicare Prescription Drug, Improvement, and Modernization Act" (MMA) applies to both the MA and Part D programs. It is an annual process that encompasses the release of the MA rate book in April, the bid's that plans submit to CMS in June, and the release of the Part D and RPPD benchmarks, which typically occurs in August. *Form Number:* CMS-10142 (OMB control number: 0938-0944); *Frequency:* Yearly; *Affected Public:* State, Local, or Tribal Governments; *Number of Respondents:* 555; *Total Annual Responses:* 4,995; *Total Annual Hours:* 149,850. **SUPPLEMENTARY INFORMATION:**

*Information Collection Request Title:* Family-to-Family Health Information Center Feedback Surveys OMB No. 0906-0040—Extension

*Abstract:* The Family-to-Family Health Information Center (F2F HIC or Center) program is authorized by the Social Security Act, Title V, § 501(c) (42 U.S.C. 701(c)), as amended by the Medicare Access and CHIP

Reauthorization Act of 2015 (Pub. L. 114-10), § 216, the Bipartisan Budget Act of 2018 (Pub. L. 115-123), § 50501, and the Sustaining Excellence in Medicaid Act of 2019 (Pub. L. 116-39), § 5. The goal of the F2F HIC program is to promote optimal health for children and youth with special health care needs (CYSHCN) by facilitating their access to an effective health delivery system and by meeting the health information and support needs of families of CYSHCN and the professionals who serve them. HRSA’s

Maternal and Child Health Bureau funds 59 F2F HICs in each of the 50 United States and the District of Columbia, five U.S. Territories (Puerto Rico, Guam, American Samoa, the U.S. Virgin Islands and the Northern Mariana Islands); and three F2F HICs who serve American Indians/Alaska Natives. On average, these Centers provide information, education, technical assistance, and peer support to approximately 200,000 families of CYSHCN and approximately 100,000 health professionals each year. F2F HICs are staffed by families of CYSHCN who are uniquely positioned to provide such services, and by health professionals. F2F HIC staff also assist in ensuring families and health professionals are partners in decision making at all levels of care and service delivery.

In order to evaluate the F2F HIC program, HRSA developed two Family-to-Family Health Information Center Feedback Surveys for family members of CYSHCN and health professionals who serve such families. Each F2F HIC administers the surveys and reports data back to HRSA. Survey respondents will be asked to answer questions about how useful they found the information, assistance, or resources received from the F2F HICs. The purpose of this notice is to solicit comments regarding the continuation of previously approved feedback surveys; no changes will be made to the survey instruments.

A 60-day notice published in the **Federal Register**, 86, FR 60260

(November 1, 2021). There were no public comments.

*Need and Proposed Use of the Information:* Data from the feedback surveys will provide mechanisms to capture consistent performance data from F2F HIC grant recipients. The data will also allow F2F HICs to evaluate the effectiveness of their interventions and improve services provided to families and the providers who serve CYSHCN families.

*Likely Respondents:* Likely respondents are users of F2F HIC services, which include family members of CYSHCN and health professionals who serve such families.

*Burden Statement:* Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

**TOTAL ESTIMATED ANNUALIZED BURDEN HOURS**

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours
F2F HIC Feedback Survey .....	4,000	1	4,000	0.15	600
F2F HIC Grant Recipient Activity .....	59	1	59	89.00	5,251
Total .....	4,059	.....	4,059	.....	5,851

HRSA specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency’s functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.
