

laboratories. From the integrated waste management system R&D program, speakers from the national laboratories will describe the Hanford Lead Canister project and updated waste management system analysis tool requirements and enhancements. A speaker from DOE-NE will present the current functions and capabilities of DOE's Stakeholder Tool for Assessing Radioactive Transportation (START). The final speaker, from DOE-NE, will provide an update on consent-based siting. A detailed meeting agenda will be available on the Board's website at www.nwtrb.gov approximately one week before the meeting.

The meeting will be open to the public, and opportunities for public comment will be provided at the end of each day of the meeting. Details for viewing the meeting will be provided on the Board's website. Public comments may be submitted during the meeting via the online meeting viewing platform, using the "Comment for the Record" form. Comments submitted during each day of the meeting will be read into the record by Board staff during the public comment period just prior to adjournment. A limit may be set on the time allowed for the presentation of individual remarks. However, written comments of any length may be submitted to the Board staff by mail or electronic mail. All comments received in writing will be included in the meeting record, which will be posted on the Board's website after the meeting. An archived recording of the meeting will be available on the Board's website following the meeting. The transcript of the meeting will be available on the Board's website by May 3, 2022.

The Board was established in the Nuclear Waste Policy Amendments Act of 1987 as an independent federal agency in the Executive Branch to evaluate the technical and scientific validity of DOE activities related to the management and disposal of SNF and HLW, and to provide objective expert advice to Congress and the Secretary of Energy on these issues. Board members are experts in their fields and are appointed to the Board by the President from a list of candidates submitted by the National Academy of Sciences. The Board reports its findings, conclusions, and recommendations to Congress and the Secretary of Energy. All Board reports, correspondence, congressional testimony, and meeting transcripts and related materials are posted on the Board's website.
