BILLING CODE 6717-01-P

**DEPARTMENT OF HEALTH AND HUMAN SERVICES**

**Food and Drug Administration**

**21 CFR Part 886**

[Docket No. FDA-2021-N-0993]

**Medical Devices; Ophthalmic Devices; Classification of the Retinal Diagnostic Software Device**

**AGENCY:** Food and Drug Administration, Department of Health and Human Services (HHS).

**ACTION:** Final amendment; final order.

**SUMMARY:** The Food and Drug Administration (FDA, Agency, or we) is classifying the retinal diagnostic software device into class II (special controls). The special controls that apply to the device type are identified in this order and will be part of the codified language for the retinal diagnostic software device's classification. We are taking this action because we have determined that classifying the device into class II (special controls) will provide a reasonable assurance of safety and effectiveness of the device. We believe this action will also enhance patients' access to beneficial innovative devices.

**DATES:** This order is effective January 21, 2022. The classification was applicable on April 11, 2018.

**FOR FURTHER INFORMATION CONTACT:** Elvin Ng, Center for Devices and Radiological Health, Food and Drug Administration, 10903 New Hampshire Ave., Bldg. 66, Rm. 1304, Silver Spring, MD 20993-0002, 240-402-4662, [Elvin.Ng@fda.hhs.gov](mailto:Elvin.Ng@fda.hhs.gov).

**SUPPLEMENTARY INFORMATION:**

**I. Background**

Upon request, FDA has classified the retinal diagnostic software device as class II (special controls), which we have determined will provide a reasonable assurance of safety and effectiveness. In addition, we believe this action will enhance patients' access to beneficial innovation, by placing the device into a lower device class than the automatic class III assignment.
