

19, 2021). The output of this scaling, where appropriate, is incorporated into an adjusted total take estimate that is the basis for NMFS' small numbers determination, as depicted in Table 1.

This product is used by NMFS in making the necessary small numbers determination, through comparison with the best available abundance estimates (see discussion at 86 FR 5322, 5391; January 19, 2021). For this

comparison, NMFS' approach is to use the maximum theoretical population, determined through review of current stock assessment reports (SAR; www.fisheries.noaa.gov/national/marine-mammal-protection/marine-mammal-stock-assessments) and model-predicted abundance information (<https://seamap.env.duke.edu/models/Duke/GOM/>). For the latter, for taxa where a density surface model could be

produced, we use the maximum mean seasonal (*i.e.*, 3-month) abundance prediction for purposes of comparison as a precautionary smoothing of month-to-month fluctuations and in consideration of a corresponding lack of data in the literature regarding seasonal distribution of marine mammals in the GOM. Information supporting the small numbers determination is provided in Table 1.

TABLE 1—TAKE ANALYSIS

Species	Authorized take	Scaled take ¹	Abundance ²	Percent abundance
Rice's whale	0	n/a	51	n/a
Sperm whale	1,710	723.2	2,207	32.8
<i>Kogia</i> spp	³ 646	230.5	4,373	5.3
Beaked whales	7,546	762.1	3,768	20.2
Rough-toothed dolphin	1,297	372.4	4,853	7.7
Bottlenose dolphin	6,148	1,764.4	176,108	1.0
Clymene dolphin	3,651	1,047.8	11,895	8.8
Atlantic spotted dolphin	2,456	704.8	74,785	0.9
Pantropical spotted dolphin	16,568	4,755.0	102,361	4.6
Spinner dolphin	4,439	1,274.1	25,114	5.1
Striped dolphin	1,426	409.3	5,229	7.8
Fraser's dolphin	410	117.7	1,665	7.1
Risso's dolphin	1,073	316.4	3,764	8.4
Melon-headed whale	2,399	707.6	7,003	10.1
Pygmy killer whale	565	166.5	2,126	7.8
False killer whale	898	264.9	3,204	8.3
Killer whale	7	n/a	267	2.6
Short-finned pilot whale	694	204.7	1,981	10.3

¹ Scalar ratios were applied to "Authorized Take" values as described at 86 FR 5322, 5404 (January 19, 2021) to derive scaled take numbers shown here.

² Best abundance estimate. For most taxa, the best abundance estimate for purposes of comparison with take estimates is considered here to be the model-predicted abundance (Roberts *et al.*, 2016). For those taxa where a density surface model predicting abundance by month was produced, the maximum mean seasonal abundance was used. For those taxa where abundance is not predicted by month, only mean annual abundance is available. For the killer whale, the larger estimated SAR abundance estimate is used.

³ Includes 34 takes by Level A harassment and 612 takes by Level B harassment. Scalar ratio is applied to takes by Level B harassment only; small numbers determination made on basis of scaled Level B harassment take plus authorized Level A harassment take.

Based on the analysis contained herein of TotalEnergies' proposed survey activity described in its LOA application and the anticipated take of marine mammals, NMFS finds that small numbers of marine mammals will be taken relative to the affected species or stock sizes and therefore is of no more than small numbers.

Authorization

NMFS has determined that the level of taking for this LOA request is consistent with the findings made for the total taking allowable under the incidental take regulations and that the amount of take authorized under the LOA is of no more than small numbers. Accordingly, we have issued an LOA to TotalEnergies authorizing the take of marine mammals incidental to its geophysical survey activity, as described above.

Dated: January 26, 2022.
Kimberly Damon-Randall,
Director, Office of Protected Resources,
National Marine Fisheries Service.

[RTID 0648-XB668]

Pacific Fishery Management Council; Public Meetings and Hearings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of opportunities to submit public comments.

SUMMARY: The Pacific Fishery Management Council (Council) has begun its annual preseason management

process for the 2022 ocean salmon fisheries off the U.S. West Coast. This notice informs the public of opportunities to provide comments on the development of 2022 ocean salmon management measures.

DATES: Written comments on the salmon management alternatives adopted by the Council at its March 2022 meeting, as described in its Preseason Report II, received electronically or in hard copy by 5 p.m. Pacific Time, April 5, 2022, will be considered in the Council's final recommendation for the 2022 management measures.

ADDRESSES: Documents will be available from the Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384, and will be posted on the Council's website at <http://www.pcouncil.org>. You may submit comments by any one of the following methods:

- Written comments should be sent electronically to Mr. Marc Gorelnik, Chair, Pacific Fishery Management

Council, via the Council's e-Portal by visiting <https://pfmc.psmfc.org>.

- **Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to <https://www.regulations.gov> and enter NOAA-NMFS-2022-0001 in the Search box. Click on the "Comment" tab, complete the required fields, and enter or attach your comments. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS and the Council will accept anonymous comments (enter "N/A" in the required fields if you wish to remain anonymous).

FOR FURTHER INFORMATION CONTACT: Ms. Robin Ehlke, Pacific Fishery Management Council, telephone: 503-820-2280. For information on submitting comments via the Federal e-Rulemaking portal, contact Shannon Penna, NMFS West Coast Region, telephone: 562-676-2148; email: shannon.penna@noaa.gov.

SUPPLEMENTARY INFORMATION: The Council has announced the schedule of reports, public meetings, and hearings for the 2022 ocean salmon fisheries on its website (<http://www.pcouncil.org>) and in the **Federal Register** (86 FR 70114, December 9, 2021). The Council will adopt alternatives for 2022 ocean salmon fisheries at its March 8-14, 2022, meeting which is tentatively scheduled to occur in person, in San Jose, CA. Details of this meeting are available on the Council's website (<http://www.pcouncil.org>). On March 22, 2022, "Preseason Report II—Proposed Alternatives and Environmental Assessment Part 2 for 2022 Ocean Salmon Fishery Regulations" is scheduled to be posted on the Council's website at <http://www.pcouncil.org>. The report will include a description of the salmon management alternatives and a summary of their biological and economic impacts. Public hearings will be held to receive comments on the proposed ocean salmon fishery management alternatives adopted by the Council. Written comments received at the public hearings and a summary of oral comments at the hearings will be provided to the Council at its April meeting.

All public hearings begin at 7 p.m. Public hearings focusing on Washington and California salmon fisheries will occur simultaneously on March 22, 2022, and the public hearing for Oregon salmon fisheries will occur on March 23, 2022. A summary of oral comments

heard at the hearings will be provided to the Council at its April meeting. These public hearings are tentatively scheduled to occur in person, in the cities of Westport, Washington; Coos Bay, Oregon; and Eureka, California. Actual hearing venues or instructions for joining online hearings will be posted on the Council's website (<http://www.pcouncil.org>) in advance of the hearing dates.

Comments on the alternatives the Council adopts at its March 2022 meeting, and described in its Preseason Report II, may be submitted in writing or electronically as described under **ADDRESSES**, or verbally or in writing at any of the public hearings held on March 22-23, 2022, or at the Council's meeting, April 6-13, 2022, which is tentatively scheduled to occur in person, in Seattle, WA. Details of these meetings will be available on the Council's website (<http://www.pcouncil.org>) and will be published in the **Federal Register**. Written and electronically submitted comments must be received prior to the April 2022 Council meeting, in order to be included in the briefing book for the Council's April meeting, where they will be considered in the adoption of the Council's final recommendation for the 2022 salmon fishery management measures. All comments received accordingly will be reviewed and considered by the Pacific Council and NMFS.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: January 26, 2022.

Coastal Nonpoint Pollution Control Program: Proposal To Find That Louisiana Has Satisfied All Conditions of Approval Placed on Its Coastal Nonpoint Pollution Control Program

Correction

In notice document 2022-01586, appearing on pages 4226-4227, in the issue of Thursday, January 27, 2022, make the following correction:

On page 4227, in the third column, the signature block, lines 3 through 9, should read:

Nicole R. LeBoeuf,

Assistant Administrator for Ocean Services and Coastal Zone Management, National Oceanic and Atmospheric Administration.

Radhika Fox,

Assistant Administrator, Office of Water, Environmental Protection Agency.

COMMODITY FUTURES TRADING COMMISSION

Agency Information Collection Activities Under OMB Review

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 ("PRA"), this notice announces that the Information Collection Request ("ICR") abstracted below has been forwarded to the Office of Information and Regulatory Affairs ("OIRA"), of the Office of Management and Budget ("OMB"), for review and comment. The ICR describes the nature of the information collection and its expected costs and burden.

DATES: Comments must be submitted on or before March 2, 2022.

ADDRESSES: Written comments and recommendations for the proposed information collection should be submitted within 30 days of this notice's publication to OIRA, at <https://www.reginfo.gov/public/do/PRAMain>. Please find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the website's search function. Comments can be entered electronically by clicking on the "comment" button next to the information collection on the "OIRA Information Collections Under Review" page, or the "View ICR—Agency Submission" page. A copy of the supporting statement for the collection of information discussed herein may be obtained by visiting <https://www.reginfo.gov/public/do/PRAMain>.

In addition to the submission of comments to <https://Reginfo.gov> as indicated above, a copy of all comments submitted to OIRA may also be submitted to the Commodity Futures Trading Commission (the "Commission" or "CFTC") by clicking on the "Submit Comment" box next to the descriptive entry for OMB Control No. 3038-0074, at <https://>
