

SUPPLEMENTARY INFORMATION: In accordance with the PRA (44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), we invite the public and other Federal agencies to comment on new, proposed, revised and continuing collections of information. This helps the BLM assess impacts of its information collection requirements and minimize the public's reporting burden. It also helps the public understand BLM information collection requirements and ensure requested data are provided in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on October 28, 2021 (86 FR 59746). No comments were received.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again inviting the public and other Federal agencies to comment on the proposed ICR described below. The BLM is especially interested in public comment addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility.

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used.

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How might the agency minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments submitted in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The General Mining Law (30 U.S.C. 29, 30, and 39) authorizes a holder of an unpatented claim for hardrock minerals to apply for fee title (patent) to the federal land (as well as minerals) embraced in the claim.

Division G, Title I of the Consolidated Appropriations Act, 2021 (Pub. L. 116–260), annual appropriation bill for the Department of the Interior, has prevented the BLM from processing mineral patent applications unless the applications were grandfathered under the initial legislation. While grandfathered applications are rare at present, the approval to collect the information continues to be necessary because of the possibility that the moratorium will be lifted and applicable regulations that contain the information are still part of the Code of Federal Regulations.

There are no proposed program or other policy changes requested. The BLM will be adjusting the non-hour cost burden from \$255,375 to \$256,425, an increase of \$1,050. The adjustment results from updating costs estimates.

OMB control number 1004–0025 is scheduled to expire on February 28, 2022. This request is for OMB to renew this OMB control number for an additional three (3) years.

Title of Collection: Mineral Surveys, Mineral Patent Applications, Adverse Claims, Protests, and Contests (43 CFR parts 3860 and 3870).

OMB Control Number: 1004–0025.

Form Numbers: 3860–2 and 3860–5.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: Owners of unpatented mining claims and mill sites upon the public lands, and of reserved mineral lands of the United States, National Forests, and National Parks.

Total Estimated Number of Annual Respondents: 1.

Total Estimated Number of Annual Responses: 10.

Estimated Completion Time per Response: Varies from 1–100 hours, depending on activity.

Total Estimated Number of Annual Burden Hours: 559.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion.

Total Estimated Annual Non-hour Burden Cost: \$256,425.

An agency may not conduct or sponsor and, notwithstanding any other provision of law, a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the PRA of 1995 (44 U.S.C. 3501 *et seq.*).

Darrin King,

Information Collection Clearance Officer.

U.S. Nomination to the World Heritage List: Moravian Church Settlements (Historic Moravian Bethlehem District)

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: This notice announces the decision to request that the Historic Moravian Bethlehem District in Bethlehem, Pennsylvania, contribute to a serial transnational (multi-country) draft nomination of Moravian Church Settlements for inclusion on the United Nations Educational, Scientific and Cultural Organization (UNESCO) World Heritage List. The decision is the result of consultation with the Federal Interagency Panel for World Heritage and the review of public comments submitted in response to an earlier notice. This notice complies with applicable World Heritage Program regulations.

ADDRESSES: To request paper copies of documents discussed in this notice, contact April Brooks, Office of International Affairs, National Park

Service, 1849 C St. NW, Room 2415, Washington, DC 20240 (202) 354-1808, or sending electronic mail (Email) to: april_brooks@nps.gov.

SUPPLEMENTARY INFORMATION:

Background

The World Heritage List is an international list of cultural and natural properties nominated by the signatories to the World Heritage Convention (1972). The United States was the prime architect of the Convention, an international treaty for preservation of natural and cultural heritage sites of global significance. The World Heritage Committee, composed of representatives of 21 nations periodically elected as the governing body of the World Heritage Convention, makes the final decisions on which nominations to accept on the World Heritage List. There are 1,154 sites in 167 countries. Currently there are 24 World Heritage Sites in the United States. U.S. participation and the roles of the Department of the Interior (Department) and the National Park Service (NPS) are authorized by Title IV of the Historic Preservation Act Amendments of 1980 and conducted in accordance with 36 CFR part 73—World Heritage Convention. Each State Party to the Convention maintains a Tentative List, periodically updated, of properties that are considered suitable for nomination. Only properties on the Tentative List are eligible to officially prepare nominations that the Department may consider for submission. The Historic Moravian Bethlehem District was included on the U.S. Tentative List on April 11, 2017. Neither inclusion in the list nor inscription as a World Heritage Site imposes legal restrictions on owners or neighbors of sites, nor does it give the United Nations any management authority or ownership rights in U.S. World Heritage Sites, which continue to be subject only to U.S. law.

The Department's Assistant Secretary for Fish and Wildlife and Parks (Assistant Secretary) initiates the process to nominate U.S. sites to the World Heritage List by publishing a notice in the **Federal Register** seeking public comment regarding which properties on the U.S. Tentative List should be nominated next by the United States. The first notice (81 FR 89143, as required by 36 CFR 73.7(c)) was published on January 11, 2021.

Following the publication of the first notice, the Assistant Secretary convened the Federal Interagency Panel to review the public comments submitted and make a recommendation. The Federal Interagency Panel for World Heritage is chaired by the Assistant Secretary and assists the Department in implementing the Convention by making recommendations on U.S. World Heritage policy, procedures, and nominations. If the Panel recommends that a property be nominated and the recommendation is accepted by the Assistant Secretary, a second notice is issued. This is the second notice as required by 36 CFR 73.7(f) on the proposed nomination.

Decision To Request the Preparation of a New U.S. World Heritage Nomination

The Department received more than 80 comments in response to the first notice, including 63 concerning the Historic Moravian Bethlehem District, all of which were expressions of support from the property owners, elected representatives at local, State, and Federal levels, individuals, institutions, and museums. There were no comments against nominating any property. Most of the other comments were in support of or discussions of other properties, including Okefenokee National Wildlife Refuge in Georgia.

The Department considered all comments received as well as the advice of the Federal Interagency Panel for World Heritage, which met on June 15, 2021. The Panel agreed by consensus to recommend authorization at this time for the Historic Moravian Bethlehem District to contribute as a component to a serial transnational nomination of Moravian Church Settlements.

The Department has selected the Historic Moravian Bethlehem District as a proposed U.S. component of a serial transnational nomination of Moravian Church Settlements to the World Heritage List. With the assistance of the Department, including the completion of appropriate consultation with Native American Tribal governments, the owners of property in this district are encouraged to contribute to a complete nomination, in coordination with other participating countries, in accordance with 36 CFR part 73 and the nomination format required by the World Heritage Committee.

The Historic Moravian District in Bethlehem, Pennsylvania, a National Historic Landmark, is a mid- and late-18th century planned community created in conjunction with the larger Moravian congregation in Herrnhut, Germany. Bethlehem, Pennsylvania, became the religious and administrative
