

inferences, pursuant to section 776(b) of the Act.

Conclusion

Commerce will determine whether the merchandise subject to the inquiry (as described in the “Merchandise Subject to the Circumvention Inquiry” section above) is circumventing the *Order* such that it should be included within the scope of the *Order*, pursuant to section 781(c) of the Act and 19 CFR 351.225(i).

In accordance with 19 CFR 351.225(1)(2), if Commerce issues a preliminary affirmative determination, we will then instruct U.S. Customs and Border Protection to suspend liquidation and require a cash deposit of estimated duties, at the applicable rate, for each unliquidated entry of the merchandise at issue entered or withdrawn from warehouse for consumption on or after the date of initiation of the inquiry.

Commerce will establish a schedule for questionnaires and comments on the issues related to the inquiry. In accordance with section 781(f) of the Act, to the maximum extent practicable, Commerce intends to issue its final determination within 300 days of the date of publication of this initiation.

Notification to Interested Parties

This notice is published in accordance with sections 781(c) of the Act and 19 CFR 351.225(i).

Dated: January 26, 2022.

Lisa W. Wang,

Assistant Secretary for Enforcement and Compliance.

Appendix I—Scope of the Order

Stainless Steel Wire Rod, which comprises products that are hot-rolled or hot-rolled annealed and/or pickled and/or descaled rounds, squares, octagons, hexagons or other shapes, in coils, that may also be coated with a lubricant containing copper, lime or oxalate. SSWR is made of alloy steels containing, by weight, 1.2 percent or less of carbon and 10.5 percent or more of chromium, with or without other elements. These products are manufactured only by hot-rolling or hot-rolling, annealing, and/or pickling and/or descaling, are normally sold in coiled form, and are of solid cross-section. The majority of SSWR sold in the United States is round in cross-sectional shape, annealed and pickled, and later cold-finished into stainless steel wire or small-diameter bar.

The most common size for such products is 5.5 millimeters or 0.217 inches in diameter, which represents the smallest size that normally is produced on a rolling mill and is the size that most wire-drawing machines are set up to draw. The range of SSWR sizes normally sold in the United States is between 0.20 inches and 1.312

inches diameter. Two stainless steel grades, SF20T and K-M35FL, are excluded from the scope of the investigation. The chemical makeup for the excluded grades is as follows:

SF20T

Carbon—0.05 max
Manganese—2.00 max
Phosphorous—0.05 max
Sulfur—0.15 max
Silicon—1.00 max
Chromium—19.00/21.00
Molybdenum—1.50/2.50
Lead—added (0.10/0.30)
Tellurium—added (0.03 min)

K-M35FL

Carbon—0.015 max
Silicon—0.70/1.00
Manganese—0.40 max
Phosphorous—0.04 max
Sulfur—0.03 max
Nickel—0.30 max
Chromium—12.50/14.00
Lead—0.10/0.30
Aluminum—0.20/0.35

The products subject to this order are currently classifiable under subheadings 7221.00.0005, 7221.00.0015, 7221.00.0030, 7221.00.0045, and 7221.00.0075 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise is dispositive.

Advisory Committee Open Session on Management Strategy Evaluation for Atlantic Bluefin Tuna

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of meeting.

SUMMARY: NMFS is holding a public meeting via webinar for the Advisory Committee to the U.S. Section to the International Commission for the Conservation of Atlantic Tunas (ICCAT) and all interested stakeholders to receive an update and provide input on

the development of the management strategy evaluation for Atlantic bluefin tuna.

DATES: A virtual meeting that is open to the public will be held on February 25, 2022, from 1:30 p.m. to 3 p.m. EST.

ADDRESSES: Please register to attend the meeting at: <https://forms.gle/f8L6jxsmstXRC2b47>. Registration will close on February 24, 2022, at 5 p.m. EST. Instructions for accessing the virtual meeting will be emailed to registered participants.

FOR FURTHER INFORMATION CONTACT: Bryan Keller, Office of International Affairs and Seafood Inspection, (301) 427-7725 or at Bryan.Keller@noaa.gov.

SUPPLEMENTARY INFORMATION: Management strategy evaluation (MSE) is a process that allows fishery managers and stakeholders (*e.g.*, industry, scientists, and non-governmental organizations) to assess how well different strategies achieve specified management objectives for a fishery. After several years of work, ICCAT expects to finalize its bluefin tuna MSE in 2022 and anticipates adopting a management procedure in November 2022 to set Total Allowable Catch (TACs) for 2023 and future years for both the western Atlantic and eastern Atlantic and Mediterranean stocks of bluefin tuna. NMFS and the United States more broadly participate in this MSE development process and have been engaging stakeholders and considering their input throughout the process through various means, including consultation with the Advisory Committee to the U.S. Section to ICCAT. The United States also participates in the development of the bluefin tuna MSE through active engagement by U.S. scientists in ICCAT’s Standing Committee on Research and Statistics (SCRS).

The February 25 meeting is intended to update stakeholders and solicit their input on the MSE approach being developed by ICCAT. This includes SCRS progress in developing initial candidate management procedures (CMPs) illustrating potential management tradeoffs and the related process by ICCAT to refine management objectives to assist the SCRS in further refining and narrowing those CMPs. This open session Advisory Committee meeting is primarily informational in nature and intended to increase the opportunity for stakeholder awareness and input on the bluefin tuna MSE process. Discussions at the meeting will help to inform U.S. scientists who are participating in work of the SCRS. In addition, while no binding decisions or formal, consensus-based

recommendations will be made, input provided during the meeting will be considered by the United States to assist its preparations for a March 2022 meeting of ICCAT's Panel 2 and other ICCAT bluefin tuna MSE meetings planned for 2022.

[RTID 0648-XB732]

Fisheries of the South Atlantic; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 78 South Atlantic Spanish Mackerel Assessment Webinar 4.

SUMMARY: The SEDAR 78 assessment of the South Atlantic Stock of Spanish mackerel will consist of a series of assessment webinars. A SEDAR 78 Assessment Webinar 4 is scheduled for February 18, 2022. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 78 South Atlantic Spanish Mackerel Assessment Webinar 4 has been scheduled for February 18, 2022, from 9 a.m. until 12 p.m. Eastern. The established times may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being extended from or completed prior to the time established by this notice.

ADDRESSES:

Meeting address: The meeting will be held via webinar. The webinar is open to members of the public. Registration for the webinar is available by contacting the SEDAR coordinator via email at Kathleen.Howington@safmc.net.

SEDAR address: South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N Charleston, SC 29405; www.sedarweb.org.

FOR FURTHER INFORMATION CONTACT:

Kathleen Howington, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; phone: (843) 571-4371; email: Kathleen.Howington@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: Data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion at the SEDAR 78 South Atlantic Spanish Mackerel Assessment Webinar 4 are as follows:

Finalize any data issues as needed; continue the discussion on base model configuration and discuss proposed changes to the model, sensitivity runs, and projections; and finalize the base model configuration if possible.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal

action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the South Atlantic Fishery Management Council office (see **ADDRESSES**) at least 5 business days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

(Authority: 16 U.S.C. 1801 *et seq.*)

Dated: January 26, 2022.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF DEFENSE

Office of the Secretary

Charter Amendment of Department of Defense Federal Advisory Committees—Defense Science Board

AGENCY: Department of Defense (DoD).

ACTION: Charter amendment of Federal Advisory Committee.

SUMMARY: The DoD is publishing this notice to announce that it is amending the charter for the Defense Science Board (DSB).

FOR FURTHER INFORMATION CONTACT: Jim Freeman, DoD Advisory Committee Management Officer, 703-692-5952.

SUPPLEMENTARY INFORMATION: The DSB's charter is being amended in accordance with the Federal Advisory Committee Act (FACA) (5 U.S.C., appendix) and 41 CFR 102-3.50(d). The charter and contact information for the DSB's Designated Federal Officer (DFO) are found at <https://www.facadatabase.gov/FACA/apex/FACAPublicAgencyNavigation>.

The DSB provides the Secretary of Defense and Deputy Secretary of Defense with independent advice on matters supporting the DoD's scientific and technical enterprise. The DSB shall focus on matters concerning science, technology, manufacturing, acquisition process, and other topics of special interest to the Department in response
