**I. Funding Opportunity Description**

*Purpose of Program:* The Equity Assistance Centers (EAC) program is authorized under title IV of the Civil Rights Act of 1964, 42 U.S.C. 2000c—2000c-2, 2000c-5, and the implementing regulations in 34 CFR part 270. This program awards grants through cooperative agreements “to operate regional EACs that provide technical assistance (including training) at the request of school boards and other responsible governmental agencies in the preparation, adoption, and implementation of plans for the desegregation of public schools”—which in this context means plans for equity (including desegregation based on race, national origin, sex, and religion)—“and in the development of effective methods of coping with special educational problems occasioned by desegregation” (34 CFR 270.1).

*Background:* 42 U.S.C. 2000c SEC. 403 establishes the EAC program to provide technical assistance at the request of eligible entities with regard to “special educational problems

occasioned by desegregation.” This term is defined in 34 CFR 270.7 to mean “those issues that arise in classrooms, schools, and communities in the course of desegregation efforts based on race, national origin, sex, or religion.” 34 CFR 270 additionally creates the term “Desegregation assistance”, defined as “the provision of technical assistance (including training) in the areas of race, sex, national origin, and religion desegregation of public elementary and secondary schools” to describe the technical assistance services provided under this program. Desegregation assistance, per 34 CFR 270.4, “may include, among other activities: (1) Dissemination of information regarding effective methods of coping with special educational problems occasioned by desegregation; (2) assistance and advice in coping with these problems; and (3) training designed to improve the ability of teachers, supervisors, counselors, parents, community members, community organizations, and other elementary or secondary school personnel to deal effectively with special educational problems occasioned by desegregation.” A project must provide technical assistance in all four of the desegregation assistance areas: Race, sex, national origin, and religion desegregation (34 CFR 270.4). For example, EACs provide critical support to public schools, upon request by school boards and other responsible governmental entities in their geographic region, in developing effective strategies to ensure all students have a full opportunity to participate in educational programs. This may include assisting schools in fostering positive and safe learning environments that meet all students' needs, and that are free of bullying and violence related to race, color, national origin, sex, or religion. When requested, EACs may provide technical assistance only to students enrolled in public schools, parents of those students, public school personnel, community organizations, and other community members (34 CFR 270.3).

Previously known as the Desegregation Assistance Centers program, the EAC program is authorized under the Civil Rights Act of 1964 and has provided comprehensive training and advisory services on desegregation issues to States, school districts, and schools since the mid-1960s. Through the grants funded through this notice, the EAC program will continue to advance the Department's priorities to promote equity in student access to educational resources and opportunities.
