

**ADDRESSES:** Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

*Comments are invited on:* (1) Whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) if the information will be processed and used in a timely manner; (3) the accuracy of the agency’s estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (4) ways to enhance the quality, utility and clarity of the information collection; and (5) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

**FOR FURTHER INFORMATION CONTACT:** Nora Hernandez by telephone at 202–693–8633, or by email at [DOL\\_PRA\\_PUBLIC@dol.gov](mailto:DOL_PRA_PUBLIC@dol.gov).

**SUPPLEMENTARY INFORMATION:** In accordance with 29 CFR part 1915, subpart F, the standard on General Working Conditions in Shipyard Employment covers provisions that address conditions and operations in shipyard employment that may produce hazards for workers. The subpart is comprised of 14 sections that include housekeeping; lighting; utilities; working alone; vessel radar and communication systems; lifeboats; medical services and first aid; sanitation; control of hazardous energy; safety color code for marking physical hazards; accident prevention signs and tags; retention of DOT markings, placards, and labels; motor vehicle safety equipment, operation and maintenance; and servicing multi-piece and single-piece rim wheels. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on November 1, 2021 (86 FR 60297).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject

to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

*Agency:* DOL–OSHA.

*Title of Collection:* General Working Conditions in Shipyard Employment Standard.

*OMB Control Number:* 1218–0259.

*Affected Public:* Private Sector—Businesses or other for-profits.

*Total Estimated Number of Respondents:* 3,996.

*Total Estimated Number of Responses:* 260,025.

*Total Estimated Annual Time Burden:* 82,999 hours.

*Total Estimated Annual Other Costs Burden:* \$7,678.

(Authority: 44 U.S.C. 3507(a)(1)(D))

## DEPARTMENT OF LABOR

### Mine Safety and Health Administration

#### Petition for Modification of Application of an Existing Mandatory Safety Standard

**AGENCY:** Mine Safety and Health Administration, Labor.

**ACTION:** Notice.

**SUMMARY:** This notice includes the summary of a petition for modification submitted to the Mine Safety and Health Administration (MSHA) by the party listed below.

**DATES:** All comments on the petition must be received by MSHA’s Office of Standards, Regulations, and Variances on or before March 17, 2022.

**ADDRESSES:** You may submit your comments including the docket number of the petition by any of the following methods:

1. *Email:* [zzMSHA-comments@dol.gov](mailto:zzMSHA-comments@dol.gov). Include the docket number of the petition in the subject line of the message.

2. *Facsimile:* 202–693–9441.

3. *Regular Mail or Hand Delivery:* MSHA, Office of Standards, Regulations, and Variances, 201 12th

Street South, Suite 4E401, Arlington, Virginia 22202–5452.

*Attention:* Song-Ae A. Noe, Acting Director, Office of Standards, Regulations, and Variances. Persons delivering documents are required to check in at the receptionist’s desk in Suite 4E401. Individuals may inspect copies of the petition and comments during normal business hours at the address listed above. Before visiting MSHA in person, call 202–693–9455 to make an appointment, in keeping with the Department of Labor’s COVID–19 policy. Special health precautions may be required.

MSHA will consider only comments postmarked by the U.S. Postal Service or proof of delivery from another delivery service such as UPS or Federal Express on or before the deadline for comments.

**FOR FURTHER INFORMATION CONTACT:** S. Aromie Noe, Office of Standards, Regulations, and Variances at 202–693–9440 (voice), [Noe.Song-Ae@dol.gov](mailto:Noe.Song-Ae@dol.gov) (email), or 202–693–9441 (facsimile). [These are not toll-free numbers.]

**SUPPLEMENTARY INFORMATION:** Section 101(c) of the Federal Mine Safety and Health Act of 1977 and Title 30 of the Code of Federal Regulations (CFR) part 44 govern the application, processing, and disposition of petitions for modification.

#### I. Background

Section 101(c) of the Federal Mine Safety and Health Act of 1977 (Mine Act) allows the mine operator or representative of miners to file a petition to modify the application of any mandatory safety standard to a coal or other mine if the Secretary of Labor (Secretary) determines that:

1. An alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard; or

2. The application of such standard to such mine will result in a diminution of safety to the miners in such mine.

3. In addition, sections 44.10 and 44.11 of 30 CFR establish the requirements for filing petitions for modification.

#### II. Petition for Modification

*Docket Number:* M–2021–005–M.

*Petitioner:* U.S. Silica Company, Pacific Plant, 819 Osage Street, MO 63039.

*Mine:* Pacific Plant, MSHA ID No. 23–00544, located in Franklin County, Missouri.

*Regulation Affected:* 30 CFR 56.13020 (Use of compressed air).

**Modification Request:** The petitioner requests a modification of the existing standard, 30 CFR 56.13020, as it relates to the use of compressed air. The alternative method provides a direct reduction of a miner's exposure to respirable dust, thus reducing health risks while providing no less a degree of safety than that provided by the standard.

The petitioner proposes the following alternative method:

1. The proposed alternative method has been developed jointly between Unimin Corporation and the National Institute for Occupational Safety and Health (NIOSH) and has been successfully tested by NIOSH. The system consists of four major components: A cleaning booth, an air spray manifold, an air reservoir, and an exhaust ventilation system.

2. The petitioner will use a clothes cleaning booth, CCB Elite I & II, serial number 5405, manufactured by S.K. Bowling, Inc.

3. Only miners trained in the operation of the clothes cleaning booth (booth) will be permitted to use the booth to clean their clothes.

4. The petitioner will incorporate the NIOSH Clothes Cleaning Process and manufacturer's instruction manuals into their MSHA Part 46 Training Plan and train affected miners in the process.

5. Miners entering the booth shall examine valves and nozzles for damage or malfunction and will close the door fully before opening the air valve. Any defects shall be repaired prior to the booth being used.

6. Miners entering the booth will wear eye protection, earplugs or muffs for hearing protection, and respiratory protection meaning a full-face or half-mask respirator that meets or exceeds the minimum requirements of an N95 filter to which the miner has been fit-tested. As an alternative, the use of a full-face respirator will also meet the requirement for eye protection. A conspicuously posted sign will announce the required personal protective equipment for entering the booth.

7. Airflow through the booth will be at least 2,000 cubic feet per minute (cfm) to maintain negative pressure during use of the cleaning system in order to prevent contamination of the environment outside the booth. Airflow will be in a downward direction, thus moving contaminants away from the miner's breathing zone.

8. Air pressure through the spray manifold will be limited to 30 pounds per square inch or less. A lock box with a single, plant manager-controlled key,

will be used to prevent tampering of the pressure regulator.

9. The air spray manifold will consist of schedule 80, steel pipe that has a failure pressure of 1,300 pounds per square inch. It will be capped at the base and actuated by an electrically controlled ball valve at the top.

10. Air nozzles must not exceed 30 pound(s) per square inch gauge.

11. The uppermost spray of the spray manifold will be located below the booth user's breathing zone. A mechanical device can be used to cover the upper air nozzles to meet the specific height of the user.

12. Air nozzles shall be guarded to eliminate the possibility of incidental contact, which could create mechanical damage to the air nozzles during the clothes cleaning process.

13. The petitioner shall conduct periodic maintenance checks of the booth in accordance with the recommendations contained in the manufacturer's instruction manual.

14. The air receiver tank supplying air to the manifold system will be of sufficient volume to permit no less than 20 seconds of continuous cleaning time.

15. An appropriate hazard warning sign will be posted on the booth to state, at a minimum, "Compressed Air" and "Respirable Dust."

16. A pressure relief valve design for the booth's air reservoir will be installed.

17. The mine will exhaust dust-laden air from the booth into a local exhaust ventilation system or duct outside the facility while ensuring there is no reentrainment back into the structure.

The petitioner asserts that the alternate method proposed will at all times guarantee no less than the same measure of protection afforded the miners under the mandatory standard.

## DEPARTMENT OF LABOR

### Occupational Safety and Health Administration

[Docket No. OSHA-2011-0195]

#### Acrylonitrile Standard; Extension of the Office of Management and Budget's (OMB) Approval of Information Collection (Paperwork) Requirements

**AGENCY:** Occupational Safety and Health Administration (OSHA), Labor.

**ACTION:** Request for public comments.

**SUMMARY:** OSHA solicits public comments concerning its proposal to extend OMB approval of the information collection requirements specified by the Acrylonitrile Standard.

**DATES:** Comments must be submitted (postmarked, sent, or received) by April 18, 2022.

**ADDRESSES:**

*Electronically:* You may submit comments and attachments electronically at <https://www.regulations.gov>, which is the Federal eRulemaking Portal. Follow the instructions online for submitting comments.

*Docket:* To read or download comments or other material in the docket, go to <https://www.regulations.gov> Documents in the docket are listed in the <https://www.regulations.gov> index; however, some information (e.g., copyrighted material) is not publicly available to read or download through the website. All submissions, including copyrighted material, are available for inspection through the OSHA Docket Office. Contact the OSHA Docket Office at (202) 693-2350 (TTY (877) 889-5627) for assistance in locating docket submissions.

*Instructions:* All submissions must include the agency name and OSHA docket number (OSHA-2011-0195) for the Information Collection Request (ICR). OSHA will place all comments and requests to speak, including personal information in the public docket, which may be available online. Therefore, OSHA cautions interested parties about submitting personal information such as social security numbers and birthdates. For further information on submitting comments, see the "Public Participation" heading in the section of this notice titled **SUPPLEMENTARY INFORMATION.**

**FOR FURTHER INFORMATION CONTACT:** Seleda Perryman or Theda Kenney, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor; telephone (202) 693-2222.

**SUPPLEMENTARY INFORMATION:**

#### I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program
