

this notice titled **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT: Seleda Perryman or Theda Kenney, Directorate of Standards and Guidance, OSHA, U.S. Department of Labor, telephone (202) 693-2222.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of the continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of effort in obtaining information (29 U.S.C. 657).

Falls are a leading cause of death for employees. According to 2019 Bureau of Labor Statistics (BLS) data, falls accounted for 418 of the 1,061 construction fatalities, and 880 of the 5,333 fatalities in all recorded industries. The National Fall Safety Stand-Down to Prevent Falls in Construction raises fall hazard awareness across the country in an effort to stop fall fatalities and injuries. The Stand-Down is the biggest safety outreach event ever conducted by the agency. OSHA has collaborated with countless industry leaders and employers over the last eight years to reach over 10 million workers during Stand-Downs.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

Whether the proposed information collection requirements are necessary for the proper performance of the

agency's functions, including whether the information is useful;

The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;

The quality, utility, and clarity of the information collected; and

Ways to minimize the burden on employers who must comply. For example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB approve the information collection requirements contained in the National Fall Safety Stand-Down to Prevent Falls in Construction (29 U.S.C. 669). In this information collection request, there are 4,500 respondents for an Occupational Health and Safety Specialists with 750 total burden hours.

Type of Review: Extension of currently approved collection.
