Proposed Collection Title: Center for Cancer Training (CCT) Application Form for electronic Individual Development Plan (eIDP), 0925–0762, Expiration Date 07/31/2022, REVISION, National Cancer Institute (NCI), National Institutes of Health (NIH).

Need and Use of Information Collection: This information collection request is for a revision of the electronic Individual Development Plan (eIDP) for three years. The National Cancer Institute's (NCI) Center for Cancer Training (CCT) supports NCI's goal of

training cancer researchers with various educational levels (postbaccalaureate, graduate students, postdoctoral fellows) and for varying periods of time (3 months to 5 years). The eIDP is an online, detailed questionnaire focused on responses to career and professional goals and expectations while the trainee works at the NIH. The eIDP ensures the trainees are receiving proper career and professional guidance, making appropriate progress, and determining activities to achieve their goals. The eIDP is also used to track trainees' career and professional goals and to ensure trainees receive the tools needed to achieve those goals. It is expected the trainees will complete the eIDP annually and that the eIDP process could be improved by their responses. The effectiveness of training could also be enhanced by the reports received by the trainees completing the eIDP. Individual Development Plans have been collected by paper and pencil from trainees since 2001.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden are 2,009 hours.

ESTIMATED ANNUALIZED BURDEN HOURS

Category of respondents	Number of respondents	Number of responses per respondent	Average time per response (in hours)	Total annual burden hours
Individuals—eIDP	1,800 500 500	1 1 1	1 5/60 20/60	1,800 42 167
Totals		2,800		2,009
