#### SUPPLEMENTARY INFORMATION:

*Title:* Land Exchanges.

*OMB Number:* 0596-0105.

*Expiration Date of Approval:* November 30, 2022.

*Type of Request:* Extension without revision of a currently approved information collection.

*Abstract:* Land exchanges are discretionary, voluntary real estate transactions between the Secretary of Agriculture (acting by and through the Forest Service) and a non-Federal exchange party (or parties). Land

exchanges can be initiated by a non-Federal party (or parties), an agent of a landowner, a broker, a third party, or a non-Federal public agency.

Each land exchange requires preparation of an Agreement to Initiate as required by title 36 Code of Federal Regulations (CFR), part 254, subpart A—section 254.4—Agreement to Initiate. The Agreement to Initiate document specifies the preliminary and non-binding intentions of the non-Federal land exchange party and the Forest Service in pursuing a land exchange. The Agreement to Initiate can contain such information as the description of properties being considered in the land exchange, an implementation schedule of action items, identification of the party responsible for each action item, as well as target dates for completion of each action item.

As the exchange proposal develops, the Forest Service and the non-Federal land exchange party may enter into a binding Exchange Agreement, pursuant to Title 36 CFR part 254, subpart A, section 254.14—Exchange Agreement. The Exchange Agreement documents the conditions that must be met to complete the exchange. The Exchange Agreement can contain information such as identification of parties, description of lands and interests to be exchanged, identification of all reserved and outstanding interest, and all other terms and conditions necessary to complete the exchange.

The Forest Service collects the information from the non-Federal party (or parties) necessary to complete the Agreement to Initiate and the Exchange Agreement. The information is collected by Forest Service personnel from parties involved in the exchange via telephone, email or in person. Data from this information collection is unique to each land exchange and is not available from other sources. No standardized forms are associated with this information collection.

**SUPPLEMENTARY INFORMATION:**

*Title:* Fire & Aviation Management Medical Qualifications Program.

*OMB Number:* 0596–0164.

*Expiration Date of Approval:* November 30, 2022.

*Type of Request:* Renewal with revisions of a currently approved information collection.

*Abstract:* The Protection Act of 1922 (16 U.S.C. 594) authorizes the Forest Service to fight fires on National Forest System lands. This information collection is an approved Forest Service collection. The collection covers the USDA Forest Service and the Department of the Interior and contains the information collection activities and burden hours for both agencies.

Wildland firefighters perform long hours of arduous labor in adverse environmental conditions. It is imperative that these firefighters be in sufficient physical condition to avoid injury to themselves or their coworkers. Federal employees and private individuals seeking employment as a firefighter with the Forest Service, or the Department of Interior complete the health capability forms. This information collection covers the forms and burden hours associated with the private individuals who apply for firefighter positions with the aforementioned agencies.

Form FS–5100–30, *Work Capacity Test—Informed Consent*. The form is signed by those deemed to be in sufficient health to undergo a Work Capacity Test. The Work Capacity Test determines the level of an individual's aerobic fitness, level of muscular strength, and muscle endurance. The consent form is necessary to ensure the individual taking the test is aware of the various testing levels (arduous, moderate, and light) and the risks involved. The individual indicates the following:

- They have read the information on the form, the brochure “Work Capacity Test” and understand the purpose, instructions, and risks of the test;

• They have read the information, understood, and truthfully answered the Health Screen Questionnaire; and

- Test to be taken—pack test (arduous), field test (moderate), or walk test (light).

Failure to collect this data could result in injuries or deaths during the “Work Capacity Test” and while working on wildland fires. The information provided by an applicant for Federal employment is stored in secured electronic official files, maintained according to Agency regulations. The information gathered is not available from other sources.

*Estimate of Annual Burden:* 5.5 Minutes.

*Type of Respondents:* Individuals.

*Estimated Annual Number of*

*Respondents:* 20,504.

*Estimated Annual Number of*

*Responses per Respondents:* 1.

*Estimated Total Annual Burden on Respondents:* 1,845 hours.

Form FS–5100–31, *Health Screening Questionnaire*. Prospective fire personnel must complete this form when seeking employment as new fire personnel with the Forest Service or Department of the Interior. This form collects the following information:

- Name and Unit;
- Medical history;
- Current medical symptoms;
- Other health history and issues; and
- Cardiovascular risk factors.

The information collected pertains to an individual's health status and health history in an effort to determine if any physical conditions exist that might result in injury or death during fitness testing or when fighting a wildfire. If Federal Agency officials determine, based on the collected information, that an individual may not be physically able to train for or take a Work Capacity Test; the agency will require the individual to undergo a physical examination by a physician.

Failure to collect this data could result in injuries or deaths during the “Work Capacity Test” and while working on wildland fires. The information provided by an applicant for Federal employment is stored in secured electronic official files, maintained according to Agency regulations. The information gathered is not available from other sources.
