

2022, for Topic I, the committee will meet in open session to hear an overview of the research programs in the Gene Transfer and Immunogenicity Branch, Division of Cellular and Gene Therapies, Office of Tissues and Advanced Therapies, Center for Biologics Research. After the Topic I open session, the meeting will be closed to the public for committee deliberations.

FDA intends to make background material available to the public no later than 2 business days before the meeting. If FDA is unable to post the background material on its website prior to the meeting, the background material will be made publicly available on FDA's website at the time of the advisory committee meeting. Background material and the link to the online teleconference meeting room will be available at <https://www.fda.gov/AdvisoryCommittees/Calendar/default.htm>. Scroll down to the appropriate advisory committee meeting link. The meeting will include slide presentations with audio components to allow the presentation of materials in a manner that most closely resembles an in-person advisory committee meeting.

Procedure: On March 10, 2022, from 10 a.m. to 12:40 p.m. Eastern Time, the meeting is open to the public for Topic I. Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Written submissions may be made to the contact person on or before March 3, 2022. Oral presentations from the public will be scheduled between approximately 11:40 a.m. and 12:40 p.m. Eastern Time. Those individuals interested in making formal oral presentations should notify the contact person and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time requested to make their presentation on or before February 23, 2022. Time allotted for each presentation may be limited. If the number of registrants requesting to speak is greater than can be reasonably accommodated during the scheduled open public hearing session, FDA may conduct a lottery to determine the speakers for the scheduled open public hearing session. The contact person will notify interested persons regarding their request to speak by February 24, 2022.

Closed Committee Deliberations: On March 10, 2022, from 12:40 p.m. to 1:30 p.m. Eastern Time for Topic I, the meeting will be closed to permit discussion where disclosure would constitute a clearly unwarranted

invasion of personal privacy (5 U.S.C. 552b(c)(6)). The recommendations of the advisory committee regarding the progress of the individual investigators' research programs, along with other information, will be discussed during this session. We believe that public discussion of these recommendations on individual scientists would constitute an unwarranted invasion of personal privacy.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

60-Day Report to Congress on Domestic Content Procurement Preferences Applicable to Federal Financial Assistance

AGENCY: Assistant Secretary for Financial Resources (ASFR), Health and Human Services (HHS or the Department).

ACTION: Notice.

SUMMARY: The Infrastructure Investment and Jobs Act (IIJA) requires Federal awarding agencies to identify and report to Congress each Federal financial assistance program for infrastructure administered by the Federal awarding agency.

FOR FURTHER INFORMATION CONTACT: Johanna Nestor at *Johanna.Nestor@hhs.gov* or (202) 631-0420.

SUPPLEMENTARY INFORMATION: Section 70913(b) of the IIJA requires that the report:

- Identify all domestic content procurement preferences applicable to the Federal financial assistance;
- Assess the applicability of the domestic content procurement preference requirements, including—(A) section 313 of title 23, United States Code; (B) section 5323(j) of title 49, United States Code; (C) section 22905(a) of title 49, United States Code; (D) section 50101 of title 49, United States Code; (E) section 603 of the Federal Water Pollution Control Act (33 U.S.C. 1388); (F) section 1452(a)(4) of the Safe Drinking Water Act (42 U.S.C. 300j-12(a)(4)); (G) section 5035 of the Water Infrastructure Finance and Innovation Act of 2014 (33 U.S.C. 3914); (H) any domestic content procurement preference included in an appropriations Act; and (I) any other domestic content procurement preference in Federal law (including regulations);
- Provide details on any applicable domestic content procurement preference requirement, including the purpose, scope, applicability, and any

exceptions and waivers issued under the requirement; and,

- Include a description of the type of infrastructure projects that receive funding under the program, including information relating to—
 - the number of entities that are participating in the program;
 - the amount of Federal funds that are made available for the program for each fiscal year; and,
 - any other information the head of the Federal agency determines to be relevant.

In accordance with the Office of Management and Budget (OMB) Memorandum M-22-08—“Identification of Federal Financial Assistance Infrastructure Programs Subject to the Build America, Buy America Provisions of the Infrastructure Investment and Jobs Act,” Federal awarding agencies must also include a separate notice to each appropriate congressional committee, including the Committee on Homeland Security and Governmental Affairs, the Committee on Commerce, Science, and Transportation, the Committee on Environment and Public Works, the Committee on Banking, Housing, and Urban Affairs, and the Committee on Armed Services of the Senate; and the Committee on Oversight and Reform, the Committee on Armed Services, and the Committee on Transportation and Infrastructure of the House of Representatives.

The following report provides the Department of Health and Human Services (HHS) initial analysis of its programs and the Build America, Buy America requirements.

Background: Title IX of the IIJA, entitled “Build America, Buy America” (BABA), requires that no later than May 14, 2022, each Federal awarding agency must ensure that none of the funds made available for a Federal financial assistance program for infrastructure may be obligated for a project, unless all of the iron, steel, manufactured products, and construction materials used in the project, are produced in the United States (absent a waiver authorized by statute). Section 70912(5) of the IIJA, defines “infrastructure” to include at a minimum, the structures, facilities, and equipment for, in the United States—roads, highways, and bridges; public transportation; dams, ports, harbors, and other maritime facilities; intercity passenger and freight railroads; freight and intermodal facilities; airports; water systems, including drinking water and wastewater systems; electrical transmission facilities and systems; utilities; broadband infrastructure; and buildings and real property.

Analysis: The financial assistance programs funded by HHS focus on medical research, health services, and essential human services. As part of this focus, HHS occasionally provides construction support for health centers, medical centers, and research facilities. The IIJA, through the BABA imposes requirements on Federal financial assistance for infrastructure projects, and focuses on sectors of domestic infrastructure beyond the scope of HHS’s programs. HHS has determined that such construction support is not subject to BABA requirements. If it is determined on a case-by-case basis that the BABA requirements apply to any particular Federal financial assistance provided by HHS, HHS will evaluate whether pursuing a waiver authorized by statute is appropriate.

Historically, most recently in May 2019, OMB has concurred with HHS’s characterization of HHS financial assistance programs. On December 20, 2021, OMB issued to Federal awarding agencies, Memorandum M-22-08—“Identification of Federal Financial Assistance Infrastructure Programs Subject to the Build America, Buy America Provisions of the Infrastructure Investment and Jobs Act.” The Memorandum provides additional implementation instructions, however, the Memorandum did not alter HHS’s current assessment. Should OMB issue additional guidance, HHS will re-evaluate the applicability of the BABA requirements to our financial assistance programs.

Deputy Assistant Secretary for Grants.
