Abstract: The U.S. Department of Agriculture (USDA) administers the Agricultural Marketing Act of 1946 (Title II of the Act of August 14, 1946). The final rule (National Bioengineered Food Disclosure Standard [7 CFR 66]) fulfills USDA's need to establish requirements and procedures to carry out the new standard. P.L. 114-216 also addressed Federal preemption of State and local genetic engineering labeling requirements and specifies that certification of food under USDA's National Organic Program (7 CFR 205) were considered sufficient to make claims about the absence of bioengineering in the food. AMS gathered industry input and conducted rulemaking on the National Bioengineered Food Disclosure Standards. In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520), AMS is publishing this a 60-day notice on reporting and recordkeeping requirements related to the National Bioengineered Food Disclosure Standard.
