

Title: FERC–1000, Request for a Medical Exception to the COVID–19 Vaccination Requirement.

OMB Control No.: 1902–0320.

Abstract: The purpose of this three-year renewal of the information collection is to allow the Federal Energy Regulatory Commission to collect information from FERC employees (and their medical providers) applying for a medical exception to the COVID–19 Vaccination Requirement as specified in Part 2 of FERC Form No. 1000.¹

Consistent with guidance from the Centers for Disease Control and Prevention (CDC), guidance from the Safer Federal Workforce Task Force established pursuant to Executive Order 13991 of January 20, 2021, *Protecting the Federal Workforce and Requiring Mask-Wearing*, and Executive Order 14043 of September 9, 2021, *Requiring Coronavirus Disease 2019 Vaccination for Federal Employees*, the request for

this information collection is essential to implement the Commission’s health and safety measures regarding the federal employee medical exceptions to the COVID–19 mandatory vaccinations. In addition, the Rehabilitation Act of 1973, as amended, requires Federal Agencies to provide reasonable accommodations to qualified employees with disabilities unless that reasonable accommodation would impose an undue hardship on the employee’s Agency. See 29 U.S.C. 791 and 29 CFR part 1614; see also 20 CFR part 1630 and Executive Order 13164 of July 26, 2000, *Requiring Federal Agencies to Establish Procedures to Facilitate the Provision of Reasonable Accommodation*. Section 2 of E.O. 14043 mandates that each agency, “implement, to the extent consistent with applicable law, a program to require COVID–19 vaccination for all of its Federal

employees, with exceptions only as required by law.” This medical exception form (FERC Form No. 1000) is necessary for the Commission to determine whether to grant medical exceptions to the vaccine requirement under the Rehabilitation Act.

The information being requested helps promote the safety of the Federal workforce, Federal buildings, and others on site at FERC facilities. This collection is consistent with the COVID–19 Workplace Safety Agency Model Safety Principles established by the White House Safer Federal Workforce Task Force and guidance from the Centers for Disease Control and Prevention.

Type of Respondent: Medical Providers.

*Estimate of Annual Burden:*² The Commission estimates the annual public reporting burden for the information collection as:

FERC–1000: REQUEST FOR A MEDICAL EXCEPTION TO THE COVID–19 VACCINATION REQUIREMENT

	Number of respondents	Annual number of responses per respondent	Total number of responses	Average burden & cost per response ³	Total annual burden hours & total annual cost
	(1)	(2)	(1) * (2) = (3)	(4)	(3) * (4) = (5)
Medical Provider	24	1	24	30 minutes (½ hour); \$72 ..	720 minutes (12 hours); \$1,728.

Comments: Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Dated: March 11, 2022.
Kimberly D. Bose,
Secretary.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY
Federal Energy Regulatory Commission
[Project No. P–2376–052]
Eagle Creek Reusens Hydro, LLC;
Notice of Application Tendered for Filing With the Commission and Soliciting Additional Study Requests and Establishing Procedural Schedule for Relicensing and a Deadline for Submission of Final Amendments

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection.

a. *Type of Application:* New Major License.

¹ The vaccination requirement issued pursuant to E.O. 14043, is currently the subject of a nationwide injunction. While that injunction remains in place, the Federal Energy Regulatory Commission (FERC) will not process requests for a medical exception from the COVID–19 vaccination requirement pursuant to E.O. 14043. FERC will also not request the submission of any medical information related to a request for an exception from the vaccination requirement pursuant to E.O. 14043 while the injunction remains in place. But FERC may nevertheless receive information regarding a medical exception. That is because, if FERC were to receive a request for an exception from the COVID–19 vaccination requirement pursuant to

E.O. 14043 during the pendency of the injunction, FERC will accept the request, hold it in abeyance, and notify the employee who submitted the request that implementation and enforcement of the COVID–19 vaccination requirement pursuant to E.O. 14043 is currently enjoined and that an exception therefore is not necessary so long as the injunction is in place. In other words, during the pendency of the injunction, any information collection related to requests for medical exception from the COVID–19 vaccination requirement pursuant to E.O. 14043 is not undertaken to implement or enforce the COVID–19 vaccination requirement.

² “Burden” is the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, refer to Title 5 Code of Federal Regulations 1320.3.

³ Cost estimates are based on industry costs for general internal medicine physicians (29–1216) defined by the Bureau of Labor Statistics. The cost figure for the general internal medicine physicians in 2021 was an average annual salary plus benefits of \$300,076/year or \$144/hour.

b. *Project No.*: 2376–052.
 c. *Date Filed*: February 28, 2022.
 d. *Applicant*: Eagle Creek Reusens Hydro, LLC (Reusens Hydro).
 e. *Name of Project*: Reusens Hydroelectric Project (Reusens Project).
 f. *Location*: The project is located on the James River in Bedford and Amherst Counties, Virginia. The project does not occupy any federal land.
 g. *Filed Pursuant to*: Federal Power Act, 16 U.S.C. 791(a)–825(r).
 h. *Applicant Contacts*: Ms. Joyce Foster, Director, Licensing and Compliance Eagle Creek Renewable Energy, LLC, 7315 Wisconsin Avenue, Suite 1100W, Bethesda, MD 20814; Phone at (804) 338–5110 or email at Joyce.Foster@eaglecreekre.co; and Ms. Jody Smet, Vice President, Regulatory Affairs, Eagle Creek Renewable Energy, LLC, 7315 Wisconsin Ave., Suite 1100W, Bethesda, MD 20814; Phone at (240) 482–2700 or email at jody.smet@eaglecreekre.com.
 i. *FERC Contact*: Laurie Bauer at (202) 502–6519, or laurie.bauer@ferc.gov.
 j. *Cooperating agencies*: Federal, state, local, and tribal agencies with jurisdiction and/or special expertise with respect to environmental issues that wish to cooperate in the preparation of the environmental document should follow the instructions for filing such requests described in item l below. Cooperating agencies should note the Commission's policy that agencies that cooperate in the preparation of the environmental document cannot also intervene. See, 94 FERC ¶ 61,076 (2001).
 k. Pursuant to section 4.32(b)(7) of 18 CFR of the Commission's regulations, if any resource agency, Indian Tribe, or person believes that an additional scientific study should be conducted in order to form an adequate factual basis for a complete analysis of the application on its merit, the resource agency, Indian Tribe, or person must file a request for a study with the Commission not later than 60 days from the date of filing of the application, and serve a copy of the request on the applicant.

l. *Deadline for filing additional study requests and requests for cooperating agency status*: April 29, 2022.

The Commission strongly encourages electronic filing. Please file additional study requests and requests for cooperating agency status using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208–3676 (toll free), or (202) 502–8659 (TTY). In lieu of electronic filing, you may submit a

paper copy. Submissions sent via the U.S. Postal Service must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852. All filings must clearly identify the project name and docket number on the first page: Reusens Project (P–2376–052).

m. This application is not ready for environmental analysis at this time.

n. *The Reusens Project consists of*: (1) A 24-foot-high, 416-foot-long concrete dam and spillway containing eight 16.75-foot-high, 44-foot-wide floodgates; (2) a 25-foot-high concrete curved auxiliary spillway; (3) a 500-acre impoundment with a gross storage capacity of 6,869 acre-feet at the normal pool elevation of 550.7 feet National Geodetic Vertical Datum of 1929; (4) an intake section of Powerhouse A containing three 6.83-foot-wide, 17.92-foot-high steel, concrete, and timber gates and Powerhouse B containing two 6.67-foot-wide, 17.5-foot-high timber gates; (5) a 105.5-foot-long, 83-foot-wide, 86-foot-high steel frame, concrete and brick Powerhouse A containing three vertical Francis turbine-generator units with a total installed capacity of 7.5 megawatts (MW); (5) a 55-foot-long, 27-foot-wide, 84-foot-high steel frame, concrete and brick Powerhouse B containing two vertical Francis turbine-generator units with a total installed capacity of 5 MW; (6) a 100-foot-wide, 250-foot-long tailrace below Powerhouse A; (7) a 60-foot-wide, 50-foot-long tailrace below Powerhouse B; (8) a 280-foot-long transmission line to three 5,210 kilovolt-ampere 4/34.5 kilovolt step-up transformers which are connected to the grid via a 24-foot-long overhead line; and (9) appurtenant facilities.

The Reusens Project operates in a peaking mode with an average annual generation of 22,504 megawatt-hours between 2018 and 2021.

o. A copy of the application can be viewed on the Commission's website at <http://www.ferc.gov>, using the "eLibrary" link. Enter the docket number, excluding the last three digits in the docket number field, to access the document (P–2376). For assistance, contact FERC at FERCOnlineSupport@ferc.gov, or call toll-free, (866) 208–3676 or (202) 502–8659 (TTY).

You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances

related to this or other pending projects. For assistance, contact FERC Online Support.

p. *Procedural schedule*: The application will be processed according to the following preliminary schedule. Revisions to the schedule will be made as appropriate.

Issue Deficiency Letter (if necessary)—April 2022

Request Additional Information—April 2022

Issue Acceptance Letter—July 2022

Issue Scoping Document 1 for

comments—August 2022

Request Additional Information (if necessary)—September 2022

Issue Scoping Document 2—November 2022

Issue Notice of Ready for Environmental Analysis—November 2022

Final amendments to the application must be filed with the Commission no later than 30 days from the issuance date of the notice of ready for environmental analysis.

Dated: March 10, 2022.

Debbie-Anne A. Reese,

Deputy Secretary.
