DEPARTMENT OF HOMELAND SECURITY

Coast Guard

[Docket Number USCG-2021-0191]

Final Programmatic Environmental Impact Statement Waterways Commerce Cutter Acquisition Program

AGENCY: Coast Guard, DHS.

ACTION: Notice of availability; request for comments.

SUMMARY: The U.S. Coast Guard announces the availability of the Final Programmatic Environmental Impact Statement (PEIS) for the Waterways Commerce Cutter (WCC) Program's acquisition and operation of a planned 30 WCCs. In accordance with National Environmental Policy Act (NEPA) and the Council on Environmental Quality (CEQ) NEPA implementing regulations, the Final PEIS analyzes the potential environmental and socioeconomic impacts, and identifies related mitigation measures, associated with acquisition and operation of a planned 30 WCCs to replace the capabilities of the existing inland tender fleet (Proposed Action).

DATES: Comments and related material must be post-marked or received by the Coast Guard on or before April 18, 2022. No decision will be made until at least 30 days after publication of the Notice of Availability (NOA) in the **Federal Register** by the U.S. Environmental Protection Agency, at which time the Coast Guard may execute a Record of Decision (ROD).

ADDRESSES: The Final PEIS is available in the docket which can be found by searching the docket number USCG-2021-0191 using the Federal Decision Making Portal at <https://www.regulations.gov> and for download on the project website at <https://www.dcms.uscg.mil/Our-Organization/Assistant-Commandant-for-Engineering-Logistics-CG-4-/Program-Offices/Environmental-Management/Environmental-Planning-and-Historic-Preservation/>. Requests for additional information should be sent to U.S. Coast Guard Headquarters, ATTN: LCDR S. Krolman (CG-9327), 2703 Martin Luther King Jr. Ave. SE, Stop 7800, Washington, DC 20593.

We encourage you to submit comments and related material on the Final PEIS. We will consider all submissions and may adjust our final action based on your comments. If you submit a comment, please include the docket number for this notice, indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation.

Submitting Comments: You may submit comments on the Final PEIS by one of the following methods:

- **Via the Web:** You may submit comments identified by docket number USCG-2021-0191 using the Federal eRulemaking Portal at <https://www.regulations.gov>.

- **Via U.S. Mail:** U.S. Coast Guard Headquarters, ATTN: LCDR S. Krolman (CG-9327), 2703 Martin Luther King Jr. Ave. SE, Stop 7800, Washington, DC 20593. Please note that mailed comments must be postmarked on or before the comment deadline of 30 days following publication of this notice to be considered.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

FOR FURTHER INFORMATION CONTACT:

Please contact Lieutenant Commander S. Krolman, Waterways Commerce Cutter Program, U.S. Coast Guard; phone 202-475-3104; email HQS-SMB-CG-WaterwaysCommerceCutter@uscg.mil.

SUPPLEMENTARY INFORMATION: The Coast Guard has a statutory mission to establish, maintain, and operate aids to navigation (ATON) in the Inland Waterways and Western Rivers (IW&WR). The IW&WR includes the Gulf and Atlantic Intracoastal Waterway; the Mississippi, Missouri, Alabama, Tennessee, Columbia, and Ohio Rivers, their associated tributaries and other connecting waterways; portions of the Alaska Inside Passage; portions of the Great Lakes; and several other navigable waterways around the United States. The 35 cutters and associated 27 barges that comprise the existing inland tender fleet servicing the IW&WR are, on average, more than 54 years old and all have significantly exceeded their design service life of 30 years. There is no redundant vessel

capability within the Coast Guard, Department of Homeland Security (DHS), or other government agencies. Without replacement of the existing inland tender fleet, the Coast Guard could face an increasing risk of failure to maintain the capability to execute its ATON mission and provide timely ATON services in the IW&WR and other navigable waters around the United States. The Proposed Action would enable the continued safe navigation of waters that support the nation's economy through maritime commerce throughout the Marine Transportation System.

Similar to the existing inland tender fleet's operations, the Proposed Action would include vessel operations to establish, operate, and maintain the lighted and unlighted buoys and beacons to maintain the United States Visual ATON System. This mission contributes to protecting national interests by ensuring safe and efficient flow of commercial vessel traffic through our nation's waters.

Full operational capability would be achieved when all planned WCCs have been produced and are operational. Coast Guard WCC operations and training would occur after delivery of each WCC from the shipbuilder to the Coast Guard. For example, the first WCC delivery to the Coast Guard is expected in 2024 and the cutter would then be operational in 2025. The last WCC is expected to be delivered and operational approximately by 2030.

The Proposed Action would include WCC operation, maintenance, and commissioning of a planned 11 WCC construction class (WLIC) tenders to replace the existing capabilities of 13 inland construction tenders; a planned 16 River Buoy class (WLR) tenders to replace the capabilities of the river buoy tenders; and a planned three Inland Buoy class (WLI) tenders to replace the capabilities of the inland buoy tenders. Although there are three classes proposed and design specifications are not final, the design would maximize commonality between the three classes to reduce sustainment costs, training needs, and other associated requirements.

The Final PEIS analyzes the potential environmental and socioeconomic impacts associated with the Proposed Action, including direct, indirect, and cumulative effects, and mitigation measure to minimize impacts.

The Coast Guard completed an Endangered Species Act (ESA) Section 7 and Essential Fish Habitat consultation with the National Marine Fisheries Service (NMFS) on U.S. Coast Guard Federal Aids to Navigation Program on
