**Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Benzene Waste Operations (Renewal)****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Benzene Waste Operations (EPA ICR Number 1541.13, OMB Control Number 2060-0183), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through March 31, 2022. Public comments were previously requested, via the **Federal Register**, on April 13, 2021 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

**DATES:** Additional comments may be submitted on or before May 2, 2022.

**ADDRESSES:** Submit your comments, referencing Docket ID Number EPA-HQ-OAR-2021-0087, online using [www.regulations.gov](http://www.regulations.gov) (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 2821T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

**FOR FURTHER INFORMATION CONTACT:**

Muntasir Ali, Sector Policies and Program Division (D243-05), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina, 27711; telephone number: (919) 541-0833; email address: [ali.muntasir@epa.gov](mailto:ali.muntasir@epa.gov).

**SUPPLEMENTARY INFORMATION:**

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at <https://www.regulations.gov>, or in person at the EPA Docket Center, WJC West Building, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

**Abstract:** The National Emission Standards for Hazardous Air Pollutants (NESHAP) for Benzene Waste Operations (40 CFR part 61, subpart FF) apply to existing facilities and new facilities that generate waste containing benzene, such as chemical manufacturing plants, coke by-product recovery plants, petroleum refineries, and those owners and operators of hazardous waste treatment, storage, and disposal facilities (TSDF) that receive wastes from the above facilities. In general, all NESHAP standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance with 40 CFR part 61, subpart FF.

**Form Numbers:** None.

**Respondents/affected entities:**

Owners and operators of benzene waste facilities.

**Respondent's obligation to respond:**

Mandatory (40 CFR part 61, subpart FF).

**Estimated number of respondents:**

270 (total).

**Frequency of response:** Quarterly and annually.

**Total estimated burden:** 19,500 hours (per year). Burden is defined at 5 CFR 1320.3(b).

**Total estimated cost:** \$2,310,000 (per year), which includes \$0 in annualized capital/startup and/or operation & maintenance costs.

**Changes in the Estimates:** There is no change in burden from the most-

recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. This situation is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) based on a review of EPA's Toxics Release Inventory that supports the existing estimated number of respondents, the growth rate for this industry is very low or non-existent. Since there are no changes in the regulatory requirements and there is no significant industry growth, there is no significant change in the overall burden and there are also no changes in the capital/startup and/or operation and maintenance (O&M) costs. There is a slight increase in costs, which is wholly due to the use of updated labor rates. This ICR uses labor rates from the most-recent Bureau of Labor Statistics report (September 2020) to calculate respondent burden costs.

**Notice of Availability of Draft NPDES General Permit for Small Municipal Separate Storm Sewer Systems in the Commonwealth of Puerto Rico and Federal Facilities Within the Commonwealth of Puerto Rico**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of draft NPDES general permit.

**SUMMARY:** The Director of the Caribbean Environmental Protection Division (CEPD), Environmental Protection Agency—Region 2 (EPA), is issuing this Notice of a Draft National Pollutant Discharge Elimination System (NPDES) general permit, PRR040000/PRR04000F, for discharges from small municipal separate storm sewer systems (small MS4s) from urbanized areas within the Commonwealth of Puerto Rico to waters of the United States. This draft NPDES general permit establishes Notice of Intent (NOI) requirements, standards, prohibitions and management practices for discharges of stormwater from small MS4 urbanized areas. A prior Notice of Availability of a draft general permit was issued by EPA on June 11, 2014. EPA has substantially modified the draft
