

Schedule of the Decision-Making Process

A draft EIS will be prepared and circulated for review and comment by agencies and the public as required by 40 CFR 1503.1, 1502.20, 1506.11, 1502.17, and 7 CFR 650.13. The draft EIS will be complete and available for public review within 14 months of publication of this NOI. Once the draft EIS is completed, a Notice of Availability (NOA) will be published in the **Federal Register** and a public review period of 45 days will be provided. Comments on the Draft EIS will be addressed in the Final EIS. A NOA will be published in the **Federal Register** concerning the availability of the Final EIS and a Draft Record of Decision (ROD). A 30-day review period from the day the NOA is published in the **Federal Register** will be provided. Afterwards, the final ROD will be signed by the decision maker and responsible federal official for the project, the NRCS Georgia State Conservationist, Mr. Terrance O. Rudolph.

Public Scoping Process

Three public scoping meetings were held during which NRCS presented the project and provided the opportunity for the public to ask questions and have input to the scope of the draft EA. The public scoping meetings were held on April 11, 2019, May 9, 2019, and June 27, 2019, at the Etowah Water and Sewer Authority in Dawsonville, GA. All interested parties and groups were invited. In addition, the public meetings were advertised in the local newspaper and notices posted on the EWSA website. Project team members were available for individual questions and discussions. Comments received, including the names and addresses of those who commented, will be part of the public record. In addition, Federal, State, and local governments provided input during the preparation of the Draft EA. Once the Draft EIS is published in the **Federal Register**, an additional scoping meeting will be held within 4 weeks of publication; meeting details will be published in the local paper, the website for the EWSA, and the NRCS-GA website.

Request for Identification of Potential Alternatives, Information, and Analyses
