

organizations, and other interested persons.

Given the serious nature of the service issues reported to the Board, in addition to providing as much visibility as possible to all aspects of the current service issues, the Board expects the information provided at the hearing to inform any potential future Board actions to ameliorate the problems that have been reported.

The Board will hold a public hearing on April 26 and 27, 2022, beginning at 9:30 a.m. each day, at its offices in Washington, DC, to hear firsthand from senior officials of BNSF, CSXT, NSR, and UP, as well as affected shippers, shipper organizations, and labor organizations, about rail service and efforts to improve service. The Board will direct executive-level officials, including operating and human resources officials, of BNSF, CSXT, NSR, and UP to appear<sup>3</sup> at the hearing to discuss their recent rail service problems and their ongoing and planned efforts to improve service, including detailed plans outlining the steps needed to improve service.<sup>4</sup> The Board will also direct BNSF, CSXT, NSR, and UP to address the extent to which crew shortages, particularly in the context of past employment reductions and current hiring difficulties, may have contributed to these service problems, and their plans, if any, to change and improve their hiring and employee retention policies to alleviate the acute crew shortages that appear to be among the central causes of the current service issues. In addition to the required participation of BNSF, CSXT, NSR, and UP, because the above-discussed problems have also been occurring to some degree on an industry-wide basis, the Board invites

<sup>3</sup> The Board is directing BNSF, CSXT, NSR, and UP to appear because most recent service issues involve these four carriers. Additionally, other carriers and interested persons are invited to participate. The Board notes that it is prepared to address service problems with respect to any of the Class I carriers, as appropriate.

<sup>4</sup> In response to letters from Chairman Martin J. Oberman dated May 27, 2021, October 18, 2021, and November 23, 2021, Class I carriers have provided the Board with information about their service performance and workforce levels. Chairman Oberman's letters and Class I carriers' responsive letters are available on the Board's website at [www.stb.gov](http://www.stb.gov) (open tab "News & Communications" & select "Non-Docketed Public Correspondence"). While the Board appreciates the information that Class I carriers have provided thus far, the trends discussed above demonstrate that service has continued to deteriorate, and the ongoing service problems and crew shortages indicate that the Class I carriers need to take additional steps to ensure adequate service. Accordingly, BNSF, CSXT, NSR, and UP should prepare to discuss at the hearing, with specificity, their most recent efforts to improve service and their proposed timeline for recovery.

and will welcome the attendance of executive-level officials, including operating and human resources officials, of CN, KCS, and CP, and invites any other interested carriers to participate.

The Board also encourages affected rail customers, shipper organizations, labor organizations, and other interested parties to appear at the public hearing to discuss their service concerns and comment on carriers' efforts toward service recovery.<sup>5</sup>
