

102.01B(E) to reflect that the market value calculation of a company's shares would be based on a price per share equal to the lowest price of the price range established by the issuer in its registration statement, less an amount equal to 20% of the highest price included in such price range, is consistent with the protection of investors because it would not modify any other applicable listing requirements and would update the Manual to align with the proposed changes to the Price Range Limitation described herein.

Finally, the Exchange believes that its proposed changes with respect to the Price Range Limitation would remove impediments to and perfect the mechanism of a free and open market and a national market system because they would not change the existing process for a DMM-facilitated Direct Listing Auction for a Primary Direct Floor Listing, but would eliminate a potential impediment to companies considering a Primary Direct Floor Listing, thereby encouraging capital formation. In addition, the proposed changes are designed to protect investors and the public interest because they would provide an expanded opportunity for a Primary Direct Floor Listing to proceed so that the issuer's securities can be listed and begin trading on the secondary market.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change would impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Rather, the proposed change would increase competition by continuing to facilitate new pathways for companies to access the public markets.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve or disapprove the proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

Electronic Access

An electronic copy of this notice may be downloaded from the **Federal Register’s** home page at www.archives.gov. An electronic version of the application materials and proposed MOU may be downloaded by

accessing the DOT docket, as described above, at www.regulations.gov/.

Background

Section 327 of Title 23, United States Code (U.S.C.), allows the Secretary of the DOT to assign, and a State to assume, the responsibilities under the NEPA (42 U.S.C. 4321 *et seq.*) and all or part of the responsibilities for environmental review, consultation, or other actions required under certain Federal environmental laws with respect to one or more Federal-aid highway projects within the State. The FHWA is authorized to act on behalf of the Secretary with respect to these matters.

The UDOT entered the Program on January 17, 2017, after submitting its application to FHWA, obtaining FHWA’s approval, and entering into a MOU in accordance with 23 U.S.C. 327 and FHWA’s application regulations for the Program (the original 23 CFR part 773).

On November 16, 2016, FHWA published a notice of UDOT’s draft MOU in the **Federal Register** to solicit the view of the public and Federal agencies on FHWA’s preliminary decision to approve the application. Following the comment period, FHWA and UDOT considered comments and proceeded to execute the MOU (2017 MOU). Effective January 17, 2017, UDOT assumed FHWA’s responsibilities under NEPA, and the responsibilities for reviews under other Federal environmental requirements.

On July 21, 2021, after coordination with FHWA, UDOT submitted a renewal package in accordance with the renewal regulations in 23 CFR 773.115. On November 18, 2021, UDOT requested an extension to the 2017 MOU in order to allow further discussion between the parties on the new language for the renewal MOU. In a letter dated December 8, 2021, FHWA granted an extension of the MOU until April 29, 2022. Under the proposed renewal MOU, FHWA would assign to the State, through UDOT, the responsibility for making decisions on the following types of highway projects:

1. All Class I, or environmental impact statement projects, both on the State highway system (SHS) and Local Agency Program (LAP) projects off the SHS that are funded by FHWA or require FHWA approvals.

2. All Class II, or categorically excluded projects, both on the SHS and LAP projects off the SHS that are funded by FHWA or require FHWA approvals, and that do not qualify for assignment of responsibilities pursuant to the MOU for environmental reviews and
