SUPPLEMENTARY INFORMATION:

I. Abstract

The Science Mission Directorate (SMD) within NASA is undertaking an Inclusion, Diversity, Equity, and Accessibility (IDEA) change effort. SMD seeks to advance these IDEA principles in all SMD programs and activities. This survey will be used as an evidence-building tool baselining SMD staff (civil servants and contractors) views on the SMD cultural climate. The survey will then be periodically (approximately annually) administered to determine whether cultural indicators are improving as IDEA efforts are implemented. Data obtained is intended for SMD internal use only and will not be publicly released. Data will be used to inform and substantiate IDEA strategy, initiatives, and design. This intelligence will be laser-focused on improving SMD’s internal environment. This survey will be open to both contractors and civil servants because contractors are integral to and

embedded within the SMD workforce. No other data collection mechanism exists to obtain opinions from the contractor portion of the workforce on this topic. The survey will be voluntary and anonymous (the identity of survey respondents will not be collected).
