k. *Description of Request*: N.E.W. Hydro, LLC., licensee for the Oconto Falls Upper Project No. 2523 and the Oconto Falls Lower Project No. 2689, filed a request with the Commission for a 5-year, 3-month extension of the 30-year licenses for the projects, currently expiring on October 31, 2027. The new expiration date for the two projects would be January 31, 2033. The licensee requests the extensions to align the license expiration dates of the two projects with that of the Stiles Hydroelectric Project located approximately six river miles downstream on the Oconto River. The licensee states that aligning the expiration dates for the projects would allow a more synchronized approach to the relicensing process and a more comprehensive analysis of the projects' cumulative environmental impacts. In addition, the licensee states that relicensing the projects concurrently would also reduce administrative burdens and promote regulatory efficiencies for the benefit of regulatory agencies, the licensees, and other relicensing stakeholders.
