##### Background

Under the Education Research Grants Program (ALN 84.305A), the Education Research and Development Center Program (ALN 84.305C), Research Grants focused on Systematic Replication (ALN 84.305R), the Special Education Research Grants Program (ALN 84.324A), and Research Grants Focused on Systematic Replication in Special Education (ALN 84.324R), IES supports research activities to improve the quality of U.S. education and thereby increase student academic achievement, advance teaching and learning for students with disabilities from birth through postsecondary education, reduce the achievement gap between high-performing and low-performing students, and increase access to and completion of postsecondary education. During this period, such projects have not received their annual continuation funding from their original grant awards.
