Title of Collection: Charter School Community Impact Analysis and Management Contracts.

OMB Control Number: 1810–NEW.

Type of Review: A new information collection.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 365.

Total Estimated Number of Annual Burden Hours: 21,900.

Abstract: On March 14, 2022, The Department published in the **Federal Register** a Notice of Proposed Priorities, Requirements, Definitions, and Selection Criteria for the Charter School Programs' State Entities program, Charter School Management Organizations program, and Developer program (Vol. 87, No. 49, pages 14197–14210). Specifically, the Department proposed two new priorities and accompanying application requirements, definitions, and selection criteria for applicants proposing to create results-driven policies to help promote positive student outcomes, student and staff diversity, educator and community empowerment, promising practices, and accountability, including fiscal transparency and responsibility, in charter schools supported with CSP funds, which can serve as models for other charter schools. The Charter School Programs Office of the Department is requesting a new information collection through a community impact analysis and around contracts with for profit charter education organizations due to this rulemaking for the CSP program authorized under Title VI, Part C, Subpart 1, of the Elementary and Secondary Education Act, as amended by ESSA. The CSP Grants (CFDA 84.282 including SE 84.282A, CMO 84.282M, and Developer (84.282B and E)) program is a competitive discretionary grant program. The grant applications submitted for this program are evaluated based on how well an applicant addresses the selection criteria and are used to determine applicant eligibility and amount of award for projects selected for funding.
