## DEPARTMENT OF HOMELAND SECURITY

### Coast Guard

#### 33 CFR Part 165

[Docket No. USCG-2022-0276]

#### Safety Zone; San Francisco Giants Fireworks Display, San Francisco Bay, San Francisco, CA

**AGENCY:** Coast Guard, DHS.

**ACTION:** Notification of enforcement of regulation.

**SUMMARY:** The Coast Guard will enforce the safety zone for the San Francisco Giants Fireworks Display in the Captain of the Port, San Francisco area of responsibility during the dates and times noted below. This action is necessary to protect personnel, vessels, and the marine environment from the hazards associated with the fireworks display. During the enforcement period, unauthorized persons or vessels are prohibited from entering into, transiting through, or remaining in the safety zone, unless authorized by the Patrol Commander (PATCOM), any Official Patrol defined as other federal, state, or local law enforcement agencies on scene to assist the Coast Guard in enforcing the regulated area.

**DATES:** The regulations in 33 CFR 165.1191 will be enforced for the location identified in Table 1 to § 165.1191, Item number 1, from 10 a.m. until 11:30 p.m. on April 29, 2022.

**FOR FURTHER INFORMATION CONTACT:** If you have questions about this notification of enforcement, call or email MST1 Shannon Curtaz-Milian, Waterways Management, U.S. Coast

Guard Sector San Francisco; telephone (415) 399-7440, email [SFWaterways@uscg.mil](mailto:SFWaterways@uscg.mil).

**SUPPLEMENTARY INFORMATION:** The Coast Guard will enforce the safety zone in 33 CFR 165.1191 Table 1, Item number 1 for the San Francisco Giants Fireworks Display from 10 a.m. until 11:30 p.m. on April 29, 2022. The safety zone will extend to all navigable waters of the San Francisco Bay, from surface to bottom, within a circle formed by connecting all points 100 feet out from the fireworks barge during the loading, transit, and arrival of the fireworks barge from the loading location to the display location and until the start of the fireworks display. From 10 a.m. until 8 p.m. on April 29, 2022, the fireworks barge will be loading pyrotechnics from Pier 50 in San Francisco, CA. The fireworks barge will remain at the loading location until its transit to the display location. From 8:30 p.m. to 8:45 p.m. on April 29, 2022 the loaded fireworks barge will transit from Pier 50 to the launch site near Pier 48 in approximate position 37°46'36" N, 122°22'56" W (NAD 83) where it will remain until the conclusion of the fireworks display. Upon the commencement of the 10-minute fireworks display, scheduled to begin at the conclusion of the baseball game, between approximately 9:30 p.m. and 10:30 p.m. on April 29, 2022, the safety zone will increase in size and encompass all navigable waters of the San Francisco Bay, from surface to bottom, within a circle formed by connecting all points 700 feet out from the fireworks barge near Pier 48 in approximate position 37°46'36" N, 122°22'56" W (NAD 83). This safety zone will be in enforced from 10 a.m. until 11:30 p.m. on April 29, 2022, or as announced via Broadcast Notice to Mariners.

Under the provisions of 33 CFR 165.1191, unauthorized persons or vessels are prohibited from entering into, transiting through, or anchoring in the safety zone during all applicable effective dates and times, unless authorized to do so by the PATCOM or other Official Patrol, defined as a federal, state, or local law enforcement agency on scene to assist the Coast Guard in enforcing the safety zone. During the enforcement period, if you are the operator of a vessel in one of the safety zones you must comply with directions from the Patrol Commander or other Official Patrol. The PATCOM or Official Patrol may, upon request allow the transit of commercial vessels through regulated areas when it is safe to do so.

In addition to this notice of enforcement in the **Federal Register**, the Coast Guard plans to provide notification of this enforcement period via the Local Notice to Mariners.

If the Captain of the Port determines that the regulated area need not be enforced for the full duration stated in this notice, a Broadcast Notice to Mariners may be used to grant general permission to enter the regulated area.

Dated: April 15, 2022.

**Taylor Q. Lam,**

*Captain, U.S. Coast Guard, Captain of the Port, San Francisco.*

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 52

[EPA-R07-OAR-2021-0913; FRL-9351-02-R7]

#### Air Plan Approval; Air Plan Approval; State of Missouri; Revised Plan for 1978 and 2008 Lead NAAQS

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is taking final action to approve the State of Missouri's request to remove its State Implementation Plan (SIP) for maintaining the 1978 Lead National Ambient Air Quality Standards (NAAQS) in portions of Iron County, Missouri, surrounding the former Glover smelter, and replace the maintenance plan with a plan for continued attainment of the 2008 Lead NAAQS regardless of ownership and/or operational status of the Glover facility.

**DATES:** This final rule is effective on May 27, 2022.

**ADDRESSES:** The EPA has established a docket for this action under Docket ID No. EPA-R07-OAR-2021-0913. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, *i.e.*, CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available through <https://www.regulations.gov> or please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section for additional information.

**FOR FURTHER INFORMATION CONTACT:**

Stephanie Doolan, Environmental Protection Agency, Region 7 Office, Air Quality Planning Branch, 11201 Renner Boulevard, Lenexa, Kansas 66219; telephone number: (913) 551-7719; email address: [doolan.stephanie@epa.gov](mailto:doolan.stephanie@epa.gov).

**SUPPLEMENTARY INFORMATION:**

Throughout this document “we,” “us,” and “our” refer to EPA.

**Table of Contents**

- I. What is Being Addressed in this Document?
- II. Have the Requirements for Approval of a SIP Revision Been Met?
- III. Environmental Justice Concerns
- IV. What Action is the EPA Taking?
- V. Incorporation by Reference
- VI. Statutory and Executive Order Reviews

**I. What is being addressed in this document?**

The EPA is taking final action pursuant to section 110(l) of the CAA, to amend the Missouri SIP to approve Missouri’s SIP revision request as submitted to the EPA on October 7, 2020. The EPA’s final approval is based on its review of the state’s submittal which is described in detail in the proposal (87 FR 5761, February 2, 2022).

For the reasons described in detail in the EPA’s February 2, 2022 proposed approval, the EPA finds that Missouri’s 2020 plan and 2020 Consent Agreement, as submitted to the EPA on October 7, 2020, as a replacement to the 2004 plan and 2003 Settlement Agreement, does not interfere with attainment or maintenance of the NAAQS, and thus satisfies CAA section 110(l). If future activities include demolition or deconstruction of any of the remaining structures, the 2020 Plan and 2020 Consent Agreement provide for re-instating air monitors to ensure that deconstruction or demolition of the facility, activities that are known to re-entrain lead dust, do not lead to violations of the 2008 Lead NAAQS, and thereby protect human health and the environment. All the requirements of the 2020 Consent Agreement are also imposed on Doe Run’s successors in the event of a future property transaction.

Upon the effective date of this final rule Doe Run may cease operating its ambient air monitors at the Glover facility. For the reasons discussed in detail in the EPA’s proposal, lead emissions from the facility are not expected to increase provided that activities remain the same and Doe Run (and any future owner) complies with the requirements of the state and federally enforceable 2020 Consent Agreement. In the event that activities at

the facility do change, the 2020 Consent Agreement provides a process for resuming monitoring should certain lead-emitting activities occur at the facility. This requirement to resume monitoring provides an additional measure to ensure continued attainment of both the 1978 NAAQS and the 2008 NAAQS.

**II. Have the requirements for approval of a SIP revision been met?**

The State’s submission met the public notice requirements for SIP submissions in accordance with 40 CFR 51.102. The submission also satisfied the completeness criteria of 40 CFR part 51, appendix V. In addition, as explained in the February 2, 2022 proposal, the revision meets the substantive SIP requirements of the CAA, including section 110 and implementing regulations.

The EPA’s proposed approval and supporting information contained in the docket were made available for public review and comment from February 2, 2022 to March 4, 2022. No comments were received.

**III. Environmental justice concerns**

This action addresses a plan for continued attainment of the 2008 Lead NAAQS for the Glover, Missouri area. In its SIP revision request, Missouri has demonstrated that the air quality in the Glover area is attaining the 2008 Lead NAAQS and will ensure continued attainment of the NAAQS as the benchmark for protection of human health. Replacing the 2004 maintenance plan and 2003 Settlement Agreement with the 2020 Plan and 2020 Consent Agreement provides broader provisions for the activities, including deconstruction and demolition, that are most likely to cause a future NAAQS violation. For these reasons, EPA believes final approval does not result in disproportionately high and adverse human health or environmental effects on minority populations, low-income populations and/or indigenous peoples.

**IV. What action is the EPA taking?**

The EPA is approving Missouri’s request to strengthen the State Implementation Plan (SIP) by removing its maintenance plan and associated Consent Agreement for the 1978 Lead NAAQS for the former Doe Run Glover lead smelter in Iron County, Missouri, and replacing it with a plan for continued attainment of the 2008 Lead NAAQS and a new Consent Agreement.

**V. Incorporation by Reference**

In this document, the EPA is finalizing regulatory text that includes

incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the Missouri Source-Specific Orders described in the amendments to 40 CFR part 52 set forth below. The EPA has made, and will continue to make, these materials generally available through [www.regulations.gov](http://www.regulations.gov) and at the EPA Region 7 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

Therefore, these materials have been approved by the EPA for inclusion in the State implementation plan, have been incorporated by reference by EPA into that plan, and are fully federally enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of the EPA’s approval, and will be incorporated by reference in the next update to the SIP compilation.<sup>1</sup>

Also, in this document, as described in the amendments to 40 CFR part 52 set forth below, the EPA is removing provisions of the EPA-Approved Missouri Source-Specific Permits and Orders from the Missouri State Implementation Plan, which is incorporated by reference in accordance with the requirements of 1 CFR part 51.

**VI. Statutory and Executive Order Reviews**

Under the Clean Air Act (CAA), the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely

<sup>1</sup> 62 FR 27968 (May 22, 1997).

affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);

- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- Is not subject to requirements of the National Technology Transfer and Advancement Act (NTTA) because this rulemaking does not involve technical standards; and

- This action does not have disproportionately high and adverse human health or environmental effects on minority populations, low-income populations and/or indigenous peoples, as specified in Executive Order 12898 (59 FR 7629, February 16, 1994). The basis for this determination is contained in section III of this action, “Environmental Justice Concerns.”

- In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of

Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

- This action is subject to the Congressional Review Act, and the EPA will submit a rule report to each House of the Congress and to the Comptroller General of the United States. This action is not a “major rule” as defined by 5

- Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 27, 2022. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements (see section 307(b)(2)).

**List of Subjects in 40 CFR Part 52**

Environmental protection, Air pollution control, Incorporation by reference, and Lead.

Dated: April 21, 2022.

**Meghan A. McCollister,**  
Regional Administrator, Region 7.

For the reasons stated in the preamble, the EPA amends 40 CFR part 52 as set forth below:

**PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS**

■ 1. The authority citation for part 52 continues to read as follows:

**Authority:** 42 U.S.C. 7401 *et seq.*

**Subpart AA—Missouri**

■ 2. In § 52.1320:

■ a. In the table in paragraph (d):

■ i. Remove and reserve paragraph (d)(22) and add paragraph (d)(36).

■ b. In the table in paragraph (e):

■ i. Remove and reserve paragraph (e)(49) and add paragraph (e)(83).

The additions read as follows:

**§ 52.1230 Identification of plan.**

\* \* \* \* \*
