

V. What is the Agency's authority for taking this action?

Section 6(f)(1) of FIFRA (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the EPA Administrator may approve such a request. The notice of receipt for this action was published for comment in the **Federal Register** of February 24, 2022 (87 FR 10360) (FRL-9600-01-OCSPP). The comment period closed on March 28, 2022.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States, and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. For this voluntary cancellation request, the registrant indicates that the products listed in Table 1 of Unit II are not in the channels of trade because they were never commercialized in the United States. Therefore, no existing stocks provision is needed.

Abstract: This Information Collection Request (ICR) estimates the recordkeeping and third-party response burden of paperwork activities that covers the information collection requirements contained in the Worker Protection Standard (WPS) regulations at 40 CFR part 170. Agricultural employers and commercial pesticide handling establishments (CPHEs) are responsible for providing required training, notifications and information to their employees to ensure worker and handler safety. The WPS regulation includes training for workers and handlers, posting of pesticide-treated areas, providing additional information for workers before they enter a pesticide-treated area while a restricted entry interval (REI) is in effect, access to more general and application-specific information about pesticides used on the establishment, and recordkeeping of training.

Form Numbers: None.

Respondents/affected entities:

Employers of agricultural establishments, including employers in farms, nursery, forestry, and greenhouse establishments.

Respondent's obligation to respond: Mandatory under 40 CFR 170.

Estimated number of respondents: 865,555 (total).

Frequency of response: Annually or on occasion, depending on the activity.

Total estimated burden: 10,188,669 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$480,131,806 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the estimates: There is a decrease of 259,491 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to a decline in the number of respondents (farms and employees) since the last Census of Agriculture. This change is an adjustment.

Courtney Kerwin,

Director, Regulatory Support Division.
