

the source to make a correction to the record. As stated above, this will allow applicants to gain confidence in the reliability and accuracy of the USPTO system when filing applications in DOCX format, and safeguard the applicant should any conversion discrepancies have taken place.

The applicant-generated PDF that accompanies a DOCX filing will not become part of the permanent record unless a petition is filed requesting the USPTO to correct the record in view of the applicant-generated PDF. In the absence of such a petition, the USPTO will dispose of the applicant-generated PDF, and all copies thereof, after a retention period of at least three years after the patent grant or abandonment of the application.

Applicants are strongly encouraged to review their applications, including the USPTO-generated PDF, shortly after filing the application to identify any errors or discrepancies in the record, as discussed above. The applicant should file any necessary petition to correct the record early in prosecution and promptly after discovering any errors or discrepancies.

As an alternative to filing a petition, applicants may be able to correct discrepancies resulting from filing an application in DOCX format by relying on a proper priority or benefit claim. A proper priority or benefit claim under 37 CFR 1.55 or 37 CFR 1.78 to a prior-filed application that is present on the filing date of the application is considered an incorporation by reference of the prior-filed application as to any inadvertently omitted portion of the specification or drawing(s), subject to the conditions and requirements of 37 CFR 1.57(b). Therefore, in some instances, discrepancies resulting from filing an application in DOCX format may be addressed by amending portions of the specification pursuant to the incorporation by reference provisions of 37 CFR 1.57(b), in lieu of a petition. The amendment should be identified as an amendment under 37 CFR 1.57(b), and it must comply with 37 CFR 1.57(b) and 37 CFR 1.121.

The USPTO continues to host training sessions on filing documents in DOCX. Information on filing application documents in DOCX, as well as information on how to submit an applicant-generated PDF and a link to

the DOCX training sessions, is available at www.uspto.gov/patents/docx.

SUPPLEMENTARY INFORMATION: Under the PRA, 44 U.S.C. 3501 *et seq.*, Federal agencies must obtain approval from the Office of Management and Budget (“OMB”) for each collection of information they conduct or sponsor. “Collection of Information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3 and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA, 44 U.S.C. 3506(c)(2)(A), requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, the Commission is publishing notice of the proposed extension of the existing collection of information listed below. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.¹

Title: Core Principles & Other Requirements for DCMs (OMB Control No. 3038-0052). This is a request for a revision and extension of a currently approved information collection.

Abstract: The regulations governing designated contract markets (“DCMs”) originally were adopted pursuant to the Commodity Futures Modernization Act of 2000, which amended section 5 of the Commodity Exchange Act (“CEA”) to impose requirements concerning the registration² and operation of DCMs.³ The DCM statutory framework subsequently was revised as a result of further amendments to the CEA under Title VII of the Dodd-Frank Wall Street Reform and Consumer Protection Act (“Dodd-Frank Act”).⁴ Part 38 of the Commission’s regulations governs the activities of DCMs. The information collected pursuant to Part 38 is

¹ The OMB control numbers for the CFTC regulations were published on December 30, 1981. See 46 FR 63035 (Dec. 30, 1981).

² The Commission notes that the terms “registered” and “designated” are used interchangeably and mean the same thing.

³ 7 U.S.C. 1 *et seq.*

⁴ See Dodd-Frank Wall Street Reform and Consumer Protection Act, Public Law 111-203, tit. VII, 124 Stat. 1376 (2010) (codified as amended in various sections of 7 U.S.C.), available at <https://www.cftc.gov/sites/default/files/idc/groups/public/@lrfederalregister/documents/file/2013-12242a.pdf>.

necessary for the Commission to evaluate whether entities operating as, or applying to become, DCMs comply with the Part 38 and other Commission requirements and the CEA's statutory requirements.

Collection 3038-0052 was created in response to the Part 38 regulatory requirements for DCMs. In general, OMB Control Number 3038-0052 covers all information collections in Part 38, including Subpart A and the DCM core principles (*i.e.*, Subparts B through X) as well as the related appendices thereto (*i.e.*, Appendix A—Form DCM; Appendix B—Guidance on, and Acceptable Practices in, Compliance with Core Principles; and Appendix C—Demonstration of Compliance That a Contract Is Not Readily Susceptible to Manipulation). Further, this OMB control number, 3038-0052, also includes all information collections related to Part 9 (“Rules Relating to Review of Exchange Disciplinary, Access Denial or Other Adverse Actions”) to the extent Part 9 is applicable to DCMs.⁵ This collection also includes the requirements under regulation 38.251(g) in connection with the reporting of specific market disruption events to the Commission.

This OMB control number, 3038-0052, also includes collections under regulation 1.52 regarding the Enhanced Protections Afforded Customer and Customer Funds Held by Futures Clearing Merchants and Derivatives Clearing Organizations. Commission regulation 1.52 imposes information collection burdens on DCMs.⁶

Additionally, this OMB control number, 3038-0052, also includes collections under regulation 38.1051(n) that relate to system safeguards and cybersecurity testing requirements and requires DCMs to provide the Commission with annual trading volume information.

For the majority of collections under OMB control number 3038-0052, the Commission notes that the number of registered, active DCMs has increased from 14 to 16. This increase in the

number of registered DCMs will increase the total information collection burdens for OMB control number 3038-0052 as shown below.⁷

With respect to the collection of information, the CFTC invites comments on:

- Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have a practical use;
- The accuracy of the Commission's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Ways to enhance the quality, usefulness, and clarity of the information to be collected; and
- Ways to minimize the burden of collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology; *e.g.*, permitting electronic submission of responses.

You should submit only information that you wish to make available publicly. If you wish for the Commission to consider information that you believe is exempt from disclosure under the Freedom of Information Act, a petition for confidential treatment of the exempt information may be submitted according to the procedures established in § 145.9 of the Commission's regulations.⁸

The Commission reserves the right, but shall have no obligation, to review, pre-screen, filter, redact, refuse or remove any or all of your submission from <https://www.cftc.gov> that it may deem to be inappropriate for publication, such as obscene language. All submissions that have been redacted or removed that contain comments on the merits of the Information Collection Request will be retained in the public comment file and will be considered as required under the Administrative Procedure Act and other applicable laws, and may be accessible under the Freedom of Information Act.

⁷ For the collections related to Commission regulation 38.251(g), the Commission notes that the number of registered, active DCMs has decreased from 17 to 16. This decrease is reflected below for collections related to Commission regulation 38.251(g). However, despite this decrease, the total information collection burdens for OMB control number 3038-0052 will increase.
