**SUPPLEMENTARY INFORMATION:** Section 408(a) of the Employee Retirement Income Security Act of 1974 (ERISA) gives the Secretary of Labor the authority to “grant a conditional or unconditional exemption of any fiduciary or transaction, or class of fiduciaries or transactions, from all or part of the restrictions imposed by sections 406 and 407(a).” In order to grant an exemption under section 408, the Department must determine that the exemption is: (1) Administratively feasible; (2) in the interests of the plan and its participants and beneficiaries; and, (3) protective of the rights of the participants and beneficiaries of such plan. The three prohibited transaction class exemptions (PTEs) included in this ICR, (1) PTE 76-1, (2) PTE 77-10, and (3) PTE 78-6, exempt certain types of transactions commonly entered into by “multiemployer” plans from certain of the prohibitions contained in sections 406(a) and 407(a) of ERISA. The Department determined that, in the absence of these exemptions, the affected plans would not be able to operate efficiently or to enter into routine types of transactions necessary for their operations. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on December 13, 2021 (86 FR 70866).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

## NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[NOTICE: 22-034]

### Name of Information Collection: NASA Contractor Financial Management Records

**AGENCY:** National Aeronautics and Space Administration (NASA).

**ACTION:** Notice of information collection.

**SUMMARY:** The National Aeronautics and Space Administration, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections.

**DATES:** Comments are due by May 31, 2022.

**ADDRESSES:** Written comments and recommendations for this information collection should be sent within 30 days of publication of this notice to [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain).

Find this particular information collection by selecting “Currently under 30-day Review-Open for Public Comments” or by using the search function.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Claire Little, NASA Clearance Officer, NASA Headquarters, 300 E Street SW, JF0000, Washington, DC 20546, 202-358-2375 or email [claire.a.little@nasa.gov](mailto:claire.a.little@nasa.gov).

### SUPPLEMENTARY INFORMATION:

#### I. Abstract

The NASA Contractor Financial Management Reporting System is the basic financial medium for contractor reporting of estimated and incurred costs, providing essential data for projecting costs and hours to ensure that contractor performance is realistically planned and supported by dollar and labor resources. The data provided by these reports is an integral part of the Agency's accrual accounting and cost-based budgeting system. Respondents are reimbursed for associated cost to provide the information, per their negotiated contract price and associated terms of the contract. There are no “total capital and start-up” or “total operation and maintenance and purchase of services” costs associated since NASA policy requires that data reported is generated from the contractors' existing system. The contractors' internal management system shall be relied upon to the maximum extent possible.

#### II. Methods of Collection

NASA collects this information electronically and that is the preferred manner, however information may also be collected via mail or fax.

#### III. Data

*Title:* NASA Contractor Financial Management Reports.

*OMB Number:* 2700-0003.

*Type of review:* Renewal of a previously approved collection.

*Affected Public:* Business or other for profit or not-for-profit institutions.

*Estimated Annual Number of Activities:* 500.

*Estimated Number of Respondents per Activity:* 12.

*Annual Responses:* 6,000.

*Estimated Time per Response:* 9 hours.

*Estimated Total Annual Burden Hours:* 54,000 hours.

*Estimated Total Annual Cost:* \$9,100,000.

#### IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has

practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

## NATIONAL SCIENCE FOUNDATION

### Request for Recommendations for Membership on Directorate and Office Advisory Committees

**ACTION:** Notice.

**SUMMARY:** The National Science Foundation (NSF) requests recommendations for membership on its scientific and technical Federal advisory committees. Recommendations should consist of the name of the submitting individual, the organization or the

affiliation providing the member nomination, the name of the recommended individual, the recommended individual's curriculum vitae, an expression of the individual's interest in serving, and the following recommended individual's contact information: Employment address, telephone number, fax number, and email address. Self-recommendations are accepted. If you would like to make a membership recommendation for any of the NSF scientific and technical Federal advisory committees, please send your recommendation to the appropriate committee contact person listed in the chart below.

**ADDRESSES:** The mailing address for the National Science Foundation is 2415 Eisenhower Avenue, Alexandria, VA 22314.

Web links to individual committee information may be found on the NSF website: <https://www.nsf.gov/>, NSF Advisory Committees.

**SUPPLEMENTARY INFORMATION:** Each Directorate and Office has an external advisory committee that typically meets twice a year to review and provide advice on program management; discuss current issues; and review and provide advice on the impact of policies, programs, and activities in the disciplines and fields encompassed by the Directorate or Office. In addition to Directorate and Office advisory committees, NSF has several

committees that provide advice and recommendations on specific topics including astronomy and astrophysics; environmental research and education; equal opportunities in science and engineering; cyberinfrastructure; international science and engineering; and business and operations.

A primary consideration when formulating committee membership is recognized knowledge, expertise, or demonstrated ability.<sup>1</sup> Other factors that may be considered are balance among diverse institutions, regions, and groups underrepresented in science, technology, engineering, and mathematics. Committee members serve for varying term lengths, depending on the nature of the individual committee. Although we welcome the recommendations we receive, we regret that NSF will not be able to acknowledge or respond positively to each person who contacts NSF or has been recommended. NSF intends to publish a similar notice to this on an annual basis. NSF will keep recommendations active for 12 months from the date of receipt.

The chart below is a listing of the committees seeking recommendations for membership. Recommendations should be sent to the contact person identified below. The chart contains web addresses where additional information about individual committees is available.
