

Overview of This Information Collection

(1) *Type of Information Collection:* Extension of a Currently Approved Collection.

(2) *Title of the Form/Collection:* Notice to Student or Exchange Visitor.

(3) *Agency form number, if any, and the applicable component of the Department of Homeland Security sponsoring the collection:* I-515A; U.S. Immigration and Customs Enforcement.

(4) Affected public who will be asked or required to respond, as well as a brief abstract: Primary: Individuals or Households. When an academic student (F-1), vocational student (M-1), exchange visitor (J-1), or dependent (F-2, M-2 or J-2) is admitted to the United States as a nonimmigrant alien under section 101(a)(15) of the Immigration and Nationality Act (Act), he or she is required to have certain documentation. If the student or exchange visitor or dependent is missing documentation, he or she is provided with the Form I-515A, Notice to Student or Exchange Visitor. The Form I-515A provides a list of the documentation the student or exchange visitor or dependent will need to provide to the Department of Homeland Security (DHS), Student and Exchange Visitor Program (SEVP) office within 30 days of admission.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* 1,459 responses at 25 minutes (.416 hours) per response.

(6) *An estimate of the total public burden (in hours) associated with the collection:* 608 annual burden hours.

Dated: April 18, 2022.

Scott Elmore,

PRA Clearance Officer.

BILLING CODE 9111-28-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[Docket No. FWS-R4-ES-2022-0048; FXES1113040000-223-FF04EF4000]

Receipt of Incidental Take Permit Application and Proposed Habitat Conservation Plan for the Sand Skink and Blue-Tailed Mole Skink; Polk County, FL; Categorical Exclusion

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments and information.

SUMMARY: We, the Fish and Wildlife Service (Service), announce receipt of

an application from the Polk County Board of Commissioners (applicant) for an incidental take permit (ITP) under the Endangered Species Act. The applicant requests the ITP to take the federally listed sand skink and blue-tailed mole skink incidental to the construction and operation of a fire rescue station in Polk County, Florida. We request public comment on the application, which includes the applicant's proposed habitat conservation plan (HCP), and on the Service's preliminary determination that this HCP qualifies as "low effect," categorically excluded under the National Environmental Policy Act. To make this determination, we used our environmental action statement and low-effect screening form, both of which are also available for public review.

DATES: We must receive your written comments on or before May 31, 2022.

ADDRESSES: *Obtaining Documents:* You may obtain copies of the documents online in Docket No. FWS-R4-ES-2022-0048; at <https://www.regulations.gov>.

Submitting Comments: If you wish to submit comments on any of the documents, you may do so in writing by one of the following methods:

- *Online:* <https://www.regulations.gov>. Follow the instructions for submitting comments on Docket No. FWS-R4-ES-2022-0048.

- *U.S. mail:* Public Comments Processing, Attn: Docket No. FWS-R4-ES-2022-0048; U.S. Fish and Wildlife Service, MS: PRB/3W, 5275 Leesburg Pike, Falls Church, VA 22041-3803.

FOR FURTHER INFORMATION CONTACT:

Alfredo Begazo, by U.S. mail (see **ADDRESSES**), or via phone at 772-469-4234. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: We, the Fish and Wildlife Service (Service), announce receipt of an application from the Polk County Board of Commissioners (applicant) for an incidental take permit (ITP) under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The applicant requests the ITP to take the federally listed sand skink (*Neoseps reynoldsi*) and blue-tailed mole-skink (*Eumeces egregius lividus*) (skinks) incidental to the construction and operation of a fire rescue station in Polk

County, Florida. We request public comment on the application, which includes the applicant's HCP, and on the Service's preliminary determination that this HCP qualifies as "low effect," categorically excluded under the National Environmental Policy Act (NEPA; 42 U.S.C. 4321 *et seq.*). To make this determination, we used our environmental action statement and low-effect screening form, both of which are also available for public review.

Project

The applicant requests a 5-year ITP to take skinks via the conversion of approximately 2.67 acres (ac) of occupied nesting, foraging, and sheltering skink habitat incidental to the construction and operation of a fire rescue station on a 5-ac parcel in Section 21, Township 28 South, Range 28 East, Polk County, Florida. The applicant proposes to mitigate for take of the skinks by purchasing credits equivalent to 5.34 ac of skink-occupied habitat from a Service-approved conservation bank. The Service would require the applicant to purchase the credits prior to engaging in any phase of the project.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment, including your personal identifying information, may be made available to the public. While you may request that we withhold your personal identifying information, we cannot guarantee that we will be able to do so.

Our Preliminary Determination

The Service has made a preliminary determination that the applicant's project—including the construction of a building, driveway, parking space, green areas, storm water pond, and associated infrastructure (*e.g.*, electric, water, and sewer lines)—would individually and cumulatively have a minor or negligible effect on the skinks and the environment. Therefore, we have preliminarily concluded that the ITP for this project would qualify for categorical exclusion and that the HCP is low effect under our NEPA regulations at 43 CFR 46.205 and 46.210. A low-effect HCP is one that would result in (1) minor or negligible effects on federally listed, proposed, and candidate species and their habitats; (2) minor or negligible effects on other environmental values or resources; and (3) impacts that, when considered together with the impacts of other past, present, and reasonable foreseeable similarly situated projects,

would not result in significant cumulative effects to environmental values or resources over time.

Next Steps

The Service will evaluate the application and the comments to determine whether to issue the requested permit. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take. After considering the preceding and other matters, we will determine whether the permit issuance criteria of section 10(a)(1)(B) of the ESA have been met. If met, the Service will issue ITP number PER 0034609 to the Polk County Board of Commissioners.

Authority

The Service provides this notice under section 10(c) of the ESA (16 U.S.C. 1531 *et seq.*) and its implementing regulations (50 CFR 17.32) and NEPA (42 U.S.C. 4321 *et seq.*) and its implementing regulations (40 CFR 1506.6 and 43 CFR 46.305).

Robert L. Carey,

*Division Manager, Environmental Review,
Florida Ecological Services Office.*

BILLING CODE 4333–15–P

DEPARTMENT OF THE INTERIOR

Geological Survey

[GR22RB00TU77E00; OMB Control Number 1028–NEW]

Agency Information Collection Activities; Values Mapping for Planning in Regional Ecosystems (VaMPIRE) Public Participatory GIS Mapping Application

AGENCY: Interior.

ACTION: Notice of Information Collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), the U.S. Geological Survey (USGS) is proposing a new information collection.

DATES: Interested persons are invited to submit comments on or before June 27, 2022.

ADDRESSES: Send your comments on this information collection request (ICR) by mail to U.S. Geological Survey, Information Collections Officer, 12201 Sunrise Valley Drive MS 159, Reston, VA 20192; or by email to gs-info_collections@usgs.gov. Please reference OMB Control Number 1028–NEW in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Rudy Schuster by email at schusterr@usgs.gov, or by telephone at 970–226–9165. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the ICR at <http://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the PRA and 5 CFR 1320.8(d)(1), all information collections require approval under the PRA. We may not conduct or sponsor, nor are you required to respond to, a collection of information unless it displays a currently valid OMB control number.

As part of our continuing effort to reduce paperwork and respondent burdens, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

- (1) Is this collection necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How might the USGS minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personally identifiable information (PII) in your

comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: The USGS developed a Public Participatory GIS (PPGIS) mapping application to aid in gathering information from Bureau of Land Management (BLM) visitors about their values for public lands and waters for consideration during Federal planning, permitting, and management efforts. This tool is called the Values Mapping for Planning in Regional Ecosystems (VaMPIRE) PPGIS application. VaMPIRE is a partnership with the BLM and is designed to gather spatially referenced data on the values people attach to places and the activities they do on BLM lands. The spatially referenced data can be used to identify landscape values; how proposed management actions might affect use and value; where potential conflicts might occur; and high-performing areas where multiple values can co-exist. The mapping application incorporates a survey designed to assess behavioral changes by the public based on land use and explores if visitors would change locations, activities, or frequency of visits given possible land-use change scenarios. VaMPIRE also identifies if there is an overall change in the value received from public lands under specified management changes. Data will be collected entirely online by emailing a link to the application and survey to visitors who reserved BLM campgrounds or permits in certain locations where this data would be of interest for planning and management.

Title of Collection: Public Participatory GIS mapping application and visitor survey.

OMB Control Number: 1028–NEW.

Form Number: None.

Type of Review: New.

Respondents/Affected Public:

Individuals (Visitors to Bureau of Land Management lands).

Total Estimated Number of Annual Respondents: 770.

Total Estimated Number of Annual Responses: 770.

Estimated Completion Time per Response: 15 minutes on average.

Total Estimated Number of Annual Burden Hours: 192 hours.

Respondent's Obligation: Voluntary.

Frequency of Collection: Respondents will provide information one time.

Total Estimated Annual Nonhour Burden Cost: None.

An agency may not conduct or sponsor, nor is a person required to
