

financially qualified to hold a lease, as set forth in 30 CFR 585.106–107. Qualification materials should be developed in accordance with the guidelines available at <https://www.boem.gov/Renewable-Energy-Qualification-Guidelines/>. Treatment of confidential information is addressed in Section 9, entitled “Protection of Privileged, Personal, or Confidential Information.” For examples of documentation appropriate for demonstrating your legal qualifications and related guidance, contact Gina Best, BOEM Office of Renewable Energy Programs, at gina.best@boem.gov or 703–787–1341.

9. Protection of Privileged, Personal, or Confidential Information

a. Freedom of Information Act

BOEM will protect privileged or confidential information that you submit when required by the Freedom of Information Act (FOIA). Exemption 4 of FOIA applies to trade secrets and commercial or financial information that is privileged or confidential. If you wish to protect the confidentiality of such information, clearly label it and request that BOEM treat it as confidential. BOEM will not disclose such information if BOEM determines under 30 CFR 585.113(b) that it qualifies for exemption from disclosure under FOIA. Please label privileged or confidential information “Contains Confidential Information” and consider submitting such information as a separate attachment.

BOEM will not treat as confidential any aggregate summaries of such information or comments not containing such privileged or confidential information. Additionally, BOEM will not treat as confidential the legal title of the nominating entity (for example, the name of your company) or the list of whole or partial blocks that you are nominating. Information that is not labeled as privileged or confidential may be regarded by BOEM as suitable for public release.

b. Personally Identifiable Information

BOEM does not consider anonymous comments; please include your name and address as part of your comment. You should be aware that your entire comment, including your name, address, and any personally identifiable information (PII) included in your comment, may be made publicly available. All submissions from identified individuals, businesses, and organizations will be available for public viewing on [regulations.gov](https://www.regulations.gov). For BOEM to withhold your PII from

disclosure, you must identify any information contained in your comments that, if released, would constitute a clearly unwarranted invasion of your personal privacy. You must also briefly describe any possible harmful consequences of the disclosure of information, such as embarrassment, injury, or other harm. Under the law, BOEM is unable to guarantee that all information in your request will be withheld.

c. Section 304 of the NHPA (54 U.S.C. 307103(a))

After consultation with the Secretary, BOEM is required to withhold the location, character, or ownership of historic resources if it determines that disclosure may, among other things, risk harm to the historic resources or impede the use of a traditional religious site by practitioners. Tribal entities should designate information that falls under section 304 of NHPA as confidential.

10. BOEM’s Environmental Review Process

Before deciding whether leases may be issued, BOEM will prepare an environmental assessment (EA) under NEPA (including public comment periods to determine the scope of the EA and to review and comment on the draft EA). The EA will analyze anticipated impacts from leasing within the WEAs resulting from this Call and from site characterization and assessment activities expected to take place after leases are issued. Site characterization activities include geophysical, geotechnical, archaeological, and biological surveys; and site assessment activities include installation and operation of meteorological buoys. BOEM also will conduct appropriate consultations with Federal agencies and Tribal, State, and local governments during the EA. These consultations include, but are not limited to, those required by the Coastal Zone Management Act, the Magnuson-Stevens Fishery Conservation and Management Act, Endangered Species Act, section 106 of the NHPA, and Executive Order 13175, “Consultation and Coordination with Indian Tribal Governments.”

Before BOEM allows a lessee to begin construction of a wind energy project in the Call Area, BOEM will consider the potential environmental effects of the construction and operation of any wind energy facility under a separate, project-specific analysis under NEPA. This analysis will include additional opportunities for public involvement

and likely will result in the publication of an environmental impact statement.

Director, Bureau of Ocean Energy Management.
