BILLING CODE 2210-55-P

DEPARTMENT OF JUSTICE**Notice of Lodging of Proposed Modification to Consent Decree Under the Clean Water Act**

On April 25, 2022, the Department of Justice lodged a proposed fifth modification to the consent decree with the United States District Court for the Southern District of Indiana in *United States and the State of Indiana v. The City of Evansville, et al.*, Civil Action No. 3:09-cv-128 (S.D. Ind.).

The United States filed this lawsuit in 2009 under the Clean Water Act ("Act"). The complaint sought injunctive relief and civil penalties for violations of the Act in connection with the City of Evansville's operation of its municipal wastewater and sewer system. The allegations in the Complaint were resolved in a Consent Decree, entered on June 22, 2011, in which the City of Evansville agreed, among other things, to develop a long term Integrated Overflow Control Plan ("IOCP") that would remedy the deficiencies in the capacity, operation and maintenance of Evansville's East Plant and West Plant, combined sewer system, and sanitary sewer system. In 2016, the Court approved a consent decree modification adopting and incorporating Evansville's finalized IOCP, which included implementation of specific wastewater treatment and capacity upgrades and capital improvement projects over a 25-year period at an estimated cost of \$729

million. The proposed Fifth Modification to the Consent Decree extends interim deadlines for up to five years for bid and construction dates on four IOCP projects, including the installation of a wetland treatment system to replace Bee Slough, but does not extend the final completion deadline. The proposed modification also clarifies and replaces some design criteria and imposes some additional requirements on various other improvement projects under the decree.

The publication of this notice opens a period for public comment on the Fifth Modification to the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States and the State of Indiana v. The City of Evansville, et al.*, D.J. Ref. No. 90–5–1–1–08738. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

To submit comments:	Send them to:
By email	pubcomment-ees.enrd@usdoj.gov .
By mail	Assistant Attorney General, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044–7611.

During the public comment period, the proposed Fifth Modification to the Consent Decree may be examined and downloaded at this Justice Department website: <https://www.justice.gov/enrd/consent-decrees>.

We will provide a paper copy of the proposed Consent Decree upon written request and payment of reproduction costs. Please mail your request and payment to: Consent Decree Library, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044–7611.

Please enclose a check or money order for \$5.75 (25 cents per page reproduction cost) payable to the United States Treasury.

Patricia Mckenna,

Assistant Section Chief, Environmental Enforcement Section, Environment and Natural Resources Division.

BILLING CODE 4410–15–P

DEPARTMENT OF JUSTICE

Notice Lodging of Proposed Consent Decree Amendment Under the Clean Water Act

On April 19, 2022, the Department of Justice lodged a proposed Second Amendment to Consent Decree (“Second Amendment”) with the United States District Court for the Northern District of Ohio in the lawsuit entitled *United States and State of Ohio v. City of Toledo, Ohio*, Civil Action No. 3:91–7646.

The Court entered a consent decree in this case on December 16, 2002, which resolved violations the United States and State of Ohio alleged under the Clean Water Act and Toledo’s wastewater treatment discharge permit for the City of Toledo’s (the “City”) discharges from the City’s treatment plant and sewer system. The consent decree, as subsequently amended in 2011, required Toledo, pertinent to the Second Amendment to: (1) Expand treatment plant capacity to handle the greater amounts of sewage combined with storm water or snowmelt arriving at the treatment plant during such wet weather periods; (2) implement a Long Term Control Plan to reduce the discharges of combined stormwater and sanitary sewage from the portions of Toledo’s sewer system known as the City’s combined sewer system, which among other things, requires Toledo to construct extensions to tunnels that store such combined sewage during periods of rain or snowmelt for transport to the City’s wastewater treatment plant following such periods; and (3) study the effectiveness of pathogen removal in the wet weather system Toledo constructed at its wastewater treatment plant pursuant to the consent decree.

The proposed Second Amendment requires the City to construct separate storm sewers instead of the Swan Creek North Tunnel Extension. The storm sewer construction is intended to reduce congestion in Toledo’s combined sewer system more than the tunnel extension would, resulting in fewer combined sewage discharges and less total volume of sewer overflows into Swan Creek. Second, the Second Amendment authorizes changes in one of the discharge locations from the combined sewer system located near Jamie Farr Park after three combined sewer outfalls are combined into one. Both locations are at the Maumee River; they are about 0.4 miles apart. The original planned consolidated outfall was located southeast of the intersection of Summit Street and Galena Street,

while the location of the consolidated outfall under this amendment is located southeast of the intersection of Summit Street and Columbus Street. The original planned consolidated outfall was located southeast of the intersection of Summit Street and Galena Street, while the new one is located southeast of the intersection of Summit Street and Columbus Street. Third, the amendment allows the City to conclude the pathogen removal study early, after the parties realized that undertaking any additional study would not provide additional information pertinent to pathogen removal issues.

The publication of this notice opens a period for public comment on the Second Amendment. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States and State of Ohio v. City of Toledo*, D.J. Ref. No. 90–5–1–1–3554. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

To submit comments:	Send them to:
By email	pubcomment-ees.enrd@usdoj.gov .
By mail	Assistant Attorney General, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044–7611.

During the public comment period, the Second Amendment may be examined and downloaded at this Justice Department website: <http://www.justice.gov/enrd/consent-decrees>. We will provide a paper copy of the Second Amendment upon written request and payment of reproduction costs. Please mail your request and payment to: Consent Decree Library, U.S. DOJ—ENRD, P.O. Box 7611, Washington, DC 20044–7611.

Please enclose a check or money order for \$4 (25 cents per page reproduction cost) payable to the United States Treasury.

Patricia McKenna,

Assistant Section Chief, Environmental Enforcement Section, Environment and Natural Resources Division.
