EPA intends to grant the request at the close of the comment period for this announcement unless the Agency receives substantive comments within the comment period that would merit its further review of the request, or unless the registrant withdraws its request. If the request is granted, any sale, distribution, or use of the product listed in this notice will be permitted after the registration has been cancelled only if such sale, distribution, or use is consistent with the terms as described in the final order.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

B. What should I consider as I prepare my comments for EPA?

1. **Submitting CBI.** Do not submit this information to EPA through [Regulations.gov](https://www.epa.gov/regulations) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. **Tips for preparing your comments.** When preparing and submitting your comments, see the commenting tips at <https://www.epa.gov/dockets>.

II. What action is the Agency taking?

This notice announces receipt by the Agency of a request from a registrant to cancel a certain pesticide product registered under FIFRA section 3 (7 U.S.C. 136a) or 24(c) (7 U.S.C. 136v(c)). The registration is listed in sequence by registration number (or company number and 24(c) number) in Table 1 of this unit.

Unless the Agency determines that there are substantive comments that warrant further review of the request or the registrant withdraws their request, EPA intends to issue an order in the **Federal Register** canceling the affected registration.

TABLE 1—REGISTRATIONS WITH PENDING REQUESTS FOR CANCELLATION

Registration No.	Company No.	Product name	Active ingredients
432-1623	432	Storcide II Grain, Bin and Warehouse Insecticide	Deltamethrin & Chlorpyrifos-methyl.

Table 2 of this unit includes the name and address of record for the registrant of the product in Table 1 of this unit,

in sequence by EPA company number. This number corresponds to the first

part of the EPA registration number of the product listed in this unit.

TABLE 2—REGISTRANT REQUESTING VOLUNTARY CANCELLATION

EPA Company No.	Company name and address
432	Bayer Environmental Science, A Division of Bayer CropScience, LP, 700 Chesterfield Parkway West, Chesterfield, MO 63017.

III. What is the Agency’s authority for taking this action?

Section 6(f)(1) of FIFRA (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**.

Section 6(f)(1)(B) of FIFRA (7 U.S.C. 136d(f)(1)(B)) requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, FIFRA section 6(f)(1)(C) (7 U.S.C. 136d(f)(1)(C)) requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or

2. The EPA Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The registrant in Table 1 of Unit II has not requested that EPA waive the 180-day comment period. Accordingly, EPA will provide a 180-day comment period on the proposed requests.

IV. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation should submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. If the product has been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

V. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are

currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. For this voluntary cancellation request, the registrant indicates that the registrant has no existing stocks of the affected product listed in Table 1 of Unit II. Therefore, no existing stocks provision is needed for the registrant. The cancellation will be effective on the date of publication of the cancellation order in the **Federal Register**. Thereafter, registrants will be prohibited from selling or distributing the pesticide identified in Table 1 of Unit II, except for export consistent with FIFRA section 17 (7 U.S.C. 136o) or for proper disposal. Persons other than the registrant will generally be allowed to sell, distribute, or use existing stocks until such stocks are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled product.

Authority: 7 U.S.C. 136 *et seq.*

Dated: April 29, 2022.

Marietta Echeverria,
Acting Director, Registration Division, Office
of Pesticide Programs.

**Webinar Workshop To Obtain Input on
Initial Draft Materials for the Lead (Pb)
Integrated Science Assessment (ISA)**

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Notice of workshop.

SUMMARY: The Environmental Protection Agency (EPA) is preparing an Integrated Science Assessment (ISA) as part of the review of the primary and secondary National Ambient Air Quality Standards (NAAQS) for Lead (Pb). As part of the Pb review, EPA is announcing a public workshop to evaluate preliminary draft materials that will inform the development of the Pb ISA. The workshop is being organized by EPA’s Center for Public Health and Environmental Assessment (CPHEA) within the Office of Research and Development and will be held by webinar and teleconference on May 26, June 7, June 22, and June 29, 2022. The workshop will be open to attendance by interested public observers on a first-come, first-served basis and participation will be by webinar and teleconference only.

DATES: The workshop will be held on May 26, June 7, June 22, and June 29, 2022.

ADDRESSES: The workshop will be held by webinar and teleconference. The website information and call-in number for the webinar are available to registered participants. To register, visit <https://www.epa.gov/isa/integrated-science-assessment-isa-lead>.

FOR FURTHER INFORMATION CONTACT: Please direct questions regarding workshop registration or logistics to Camden Byrd; telephone: 919-293-1660; or email: EPA-Workshops@icf.com. For technical information, contact Evan Coffman; telephone: 919-541-0567; fax: 919-541-1818; or email: Coffman.Evan@epa.gov; or Meredith Lassiter; phone: 919-541-3200; fax: 919-541-1818; or email: Lassiter.Meredith@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Information About the Workshop

Section 108(a) of the Clean Air Act directs the Administrator to identify certain air pollutants which, among other things, “cause or contribute to air pollution which may reasonably be anticipated to endanger public health or welfare”; and to issue air quality criteria for them. The air quality criteria are to “accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare which may be expected from the presence of [a] pollutant in the ambient air. . . .”. Under section 109 of the Act, EPA is then to establish NAAQS for each pollutant for which EPA has issued criteria. Section 109(d)(1) of the Act subsequently requires periodic review and, if appropriate, revision of existing air quality criteria to reflect advances in scientific knowledge on the effects of the pollutant on public health or welfare. EPA is also required to review and, if appropriate, revise the NAAQS, based on the revised air quality criteria (for more information on the NAAQS review process, see <https://www.epa.gov/naaqs>).

CPHEA is holding a workshop to inform the Agency’s evaluation of the scientific evidence for the review of Pb. The purpose of the workshop is to obtain input on the scientific content of preliminary draft materials that will inform the development of the draft ISA. Workshop sessions will include discussion of preliminary draft materials from subject areas which may include exposure assessment,

toxicokinetics, toxicology, epidemiology, air quality/exposure, fate and transport, biogeochemistry, plant and animal physiology, ecotoxicology, and ecological population biology. These preliminary materials are not being released as an external draft, but will be provided to the panelists to guide discussions and inform the development of the draft ISA for Pb. This workshop is planned to help ensure that the ISA, once developed, is up-to-date and focuses on the key evidence necessary to inform the underlying scientific basis for the review of the Pb primary and secondary NAAQS. EPA is planning to release the first external review draft of the Pb ISA for review by the Clean Air Scientific Advisory Committee (CASAC) and the public in early 2023.

II. Workshop Information

Members of the public may attend the teleconference as observers. Space in the teleconference may be limited, and reservations will be accepted on a first-come, first-served basis. Registration for the workshop is available online at <https://www.epa.gov/isa/integrated-science-assessment-isa-lead>.
