

Nutrition Monitoring and Related Research Act of 1990, Title III) the Secretaries of USDA and HHS are directed to publish the *Dietary Guidelines for Americans* jointly at least every five years. The law instructs that this publication shall contain nutritional and dietary information and guidelines for the general public, shall be based on the preponderance of scientific and medical knowledge current at the time of publication, and shall be promoted by each Federal agency in carrying out any Federal food, nutrition, or health program. Recent editions of the *Dietary Guidelines* provide dietary advice for Americans across the lifespan. By translating the *Dietary Guidelines* into consumer friendly nutrition education communication materials, CNPP and partnering agencies are able to help Americans make better or healthier food

and beverage choices that can help improve health. One of the primary ways CNPP helps Americans apply the nutrition guidance in their daily lives is by developing and maintaining interactive, digital tools. CNPP's digital resources and tools provide hands-on learning opportunities that empower Americans to think critically about their food and health choices. Maintaining and enhancing CNPP's digital resources and tools are key in reversing the trend of childhood obesity and building a healthier next generation.

USDA's *MyPlate* icon is supported by a robust consumer nutrition education program to assist Americans in selecting foods for a dietary pattern that is consistent with the *Dietary Guidelines*.

Ensuring that *MyPlate* resources and related tools are useful to intended audiences is critical to CNPP's work and is a major activity included in its 5-year

strategic plan in fulfillment of the Government Performance and Results Act of 1993 (31 U.S.C. 9701).
