**SUPPLEMENTARY INFORMATION:**

**Agenda**

The Scientific and Statistical Committee will meet to comment on the annual update to Council research priorities; give feedback on draft Monkfish fishery performance report prepared by the Monkfish Plan Development Team and Advisory Panel and receive an update on development of Acceptable Biological Catch control rule alternatives under consideration for the Northeast Multispecies Fishery Management Plan. They will consider other business as necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

**Special Accommodations**

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Thomas A. Nies, Executive Director, at (978) 465-0492, at least 5 days prior to the meeting date.

**Agenda**

The Groundfish Advisory Panel will meet to discuss development of draft specifications and measures: Status determination criteria, rebuilding plans for Gulf of Maine (GOM) cod and Southern New England/Mid-Atlantic (SNE/MA) winter flounder, FY2023-24 US/CA total allowable catches, FY2023-24 specifications: Georges Bank (GB) yellowtail flounder and GB cod (including a catch target for the recreational fishery), FY2023-25 specifications for 14 stocks, additional measures to promote stock rebuilding for GOM cod and SNE/MA winter flounder, and revised acceptable biological catch control rules, in consultation with the Scientific and Statistical Committee. They will discuss progress on development of metrics. The panel will also discuss a Council priority to develop a transition plan for Atlantic cod management from the current two management unit to up to five management units (multi-year priority). As a part of the transition plan, there will be a white paper on

potential approaches to allocate "Georges Bank cod" to the recreational fishery delivered in 2022 to inform the 2023 priorities discussion. They will review the current list of Council research priorities and suggest changes or additions to the list. Other business will be discussed, if necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. **SUPPLEMENTARY INFORMATION:**

**Agenda**

The joint SSC Subpanel, comprised of SSC members from both the New England and Mid-Atlantic Fishery Management Councils, will meet to review and provide input on initial work products related to the Northeast Regional Marine Fish Habitat Assessment (NRHA). The panel will review the workplan, methods used, and inferences made from the single species and community level function models under development. The subpanel will consider the overall utility of the NRHA including the use of specific products in stock assessment, habitat management and conservation (including Essential Fish Habitat and Habitat Area of Particular Concern designations), and ecosystem approaches for the Councils. Finally, the subpanel will provide input on how to present and communicate the data and analyses to various end users. The subpanel will provide a report summarizing their input. This input will be provided directly to the NRHA habitat assessment/modeling team as well as the New England and Mid-Atlantic Fishery Management Councils. There will be opportunities for public input and comment.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.
