

Response—Office of Strategy, Policy, Planning, and Requirements.

Abstract

The Department of Health and Human Services, HHS, Assistant Secretary for Preparedness and Response, within Office of Strategy, Policy, Planning, and Requirements is seeking approval by OMB on a new Generic clearance. HHS, is working with the White House and across the federal interagency to launch a multiyear implementation involving the identification and coordination of measurable activities across the U.S. government, SLTT (State, Local, Tribal, and Territorial) jurisdictions, and

private sector partners. Cross-sectoral engagement is the underpinning of many of the interdependent implementation activities. For example, one such activity involves information collection from SLTT partners on facility, local, and state stockpiling plans to ensure coordinated plans are in place for a future public health emergency. Potential engagements include surveys, stakeholder meetings, RFI's, town hall meetings, and workshops. With each of these different mechanisms of engagement, there is a varied frequency ranging from single engagements to regularly recurring meetings.

In July 2021, the White House published the National Strategy for a Resilient Public Health Supply Chain. The strategy calls out strategic goals and recommendations for building immediate and long-term resilience through increased visibility, agility, and robustness in the public health supply chain to prepare for and mitigate future public health emergencies.

HHS is requesting a 3-year PRA clearance and will engage with SLTT, trade groups, mixed cross-sector audiences, non-governmental organizations, manufacturers, academia, healthcare providers and facilities, and local communities.
