#### SUPPLEMENTARY INFORMATION:

##### Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This proposed rulemaking is promulgated under the authority described in Subtitle VII, part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend Class D airspace and Class E surface airspace, and remove Class E airspace designated as an extension to a Class D surface area for Hudson Valley Regional Airport (POU), Poughkeepsie, NY, to support IFR operations in the area.

##### Comments Invited

Interested persons are invited to comment on this rule by submitting such written data, views, or arguments, as they may desire. ##### Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order JO 7400.11F, Airspace Designations and Reporting Points, dated August 10, 2021, and effective September 15, 2021. FAA Order JO 7400.11F is publicly available as listed in the **ADDRESSES** section of this document. FAA Order JO 7400.11F lists

Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

### The Proposal

The FAA proposes an amendment to 14 CFR 71 to amend Class D airspace and Class E surface airspace, by increasing the radius to 4.4 miles (previously 4.0 miles), and amending the surface extensions. Also, this action would remove Class E airspace designated as an extension to a Class D surface area for Hudson Valley Regional Airport (POU), Poughkeepsie, NY, as the extensions will be included in the Class D description. This action would update the airport's name to Hudson Valley Regional Airport (formerly Dutchess County Airport), and remove Kingstons VORTAC from the Class E surface airspace description, as well as replace Airport/Facility Directory with Chart Supplement in the descriptions. In addition, the city name would be removed from the airport's header, as per FAA Order 7400.2. This action would enhance the safety and management of controlled airspace within the national airspace system.

Class D and Class E airspace designations are published in Paragraphs 5000, 6002, and 6004, respectively, of FAA Order JO 7400.11F, dated August 10, 2021, and effective September 15, 2021, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in FAA Order JO 7400.11.

FAA Order JO 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

### Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

### Environmental Review

This proposal would be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of proposed rulemaking (NPRM).

**SUMMARY:** This action proposes to amend Class E airspace extending upward from 700 feet above the surface at Greenwood County Airport (GRD) Greenwood, SC, due to the decommissioning of the Coronaca non-directional beacon (NDB) and cancellation of associated approaches, as well as updating the airport's geographic coordinates.
