Seamless Refined Copper Pipe and Tube From the People's Republic of China and Mexico: Continuation of Antidumping Duty Orders

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the U.S. Department of Commerce (Commerce) and the U.S. International Trade Commission (ITC) that revocation of the antidumping duty (AD) orders on seamless refined copper pipe and tube from the People's Republic of China (China) and Mexico would likely lead to continuation or recurrence of dumping and material injury to an industry in the United States, Commerce is publishing this notice of continuation of the orders.

DATES: Applicable May 23, 2022.

FOR FURTHER INFORMATION CONTACT:

Paola Aleman Ordaz or Thomas Martin, AD/CVD Operations, Office IV, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-4031 or (202) 482-3936, respectively.

SUPPLEMENTARY INFORMATION:

Background

On November 22, 2010, Commerce published in the **Federal Register** the AD orders on seamless refined copper pipe and tube from China and Mexico.¹

¹ See *Seamless Refined Copper Pipe and Tube from Mexico and the People's Republic of China: Antidumping Duty Orders and Amended Final Determination of Sales at Less Than Fair Value from Mexico*, 75 FR 71010 (November 22, 2010) (collectively, *Orders*).

On November 1, 2021, Commerce published the notice of initiation of the sunset reviews of the *Orders*, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).² Commerce conducted expedited sunset reviews of the *Orders*, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2). As a result of its reviews, Commerce determined, pursuant to sections 751(c)(1) and 752(c) of the Act, that revocation of the *Orders* would likely lead to continuation or recurrence of dumping.³ Commerce, therefore, notified the ITC of the magnitude of the dumping margins likely to prevail should the *Orders* be revoked.⁴ On May 17, 2022, the ITC published its determination, pursuant to section 751(c) of the Act, that revocation of the *Orders* would likely lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.⁵

Scope of the Orders

The merchandise covered by the scope of the *Orders* are all seamless refined copper pipes and tubes, including redraw hollows, greater than or equal to 6 inches (152.4 millimeters (mm)) in length and measuring less than 12.130 inches (308.12 mm) (actual) in outside diameter (OD), regardless of wall thickness, bore (e.g., smooth, enhanced with inner grooves or ridges), manufacturing process (e.g., hot finished, cold-drawn, annealed), outer surface (e.g., plain or enhanced with grooves, ridges, fins, or gills), end finish (e.g., plain end, swaged end, flared end, expanded end, crimped end, threaded), coating (e.g., plastic, paint), insulation, attachments (e.g., plain, capped, plugged, with compression or other fitting), or physical configuration (e.g., straight, coiled, bent, wound on spools).

The scope of the *Orders* covers, but it is not limited to, seamless refined copper pipe and tube produced or comparable to the American Society for Testing and Materials (ASTM) ASTM-B42, ASTM-B68, ASTM-B75, ASTM-B88, ASTM-B88M, ASTM-B188, ASTM-B251, ASTM-B251M, ASTM-B280, ASTM-B302, ASTM-B306, ASTM-B359, ASTM-B743, ASTM-B819, and ASTM-B903 specifications

² See *Initiation of Five-Year (Sunset) Review*, 86 FR 60201 (November 1, 2021).

³ See *Seamless Refined Copper Pipe and Tube from the People's Republic of China and Mexico: Final Results of the Expedited Sunset Reviews of the Antidumping Duty Orders*, 87 FR 12079 (March 3, 2022).

⁴ *Id.*

⁵ See *Seamless Refined Copper Pipe and Tube from China and Mexico*, 87 FR 29877 (May 17, 2022).

and meeting the physical parameters described therein. Also included within the scope of the *Orders* are all sets of covered products, including "line sets" of seamless refined copper tubes (with or without fitting or insulation) suitable for connecting an outdoor air conditioner or heat pump to an indoor evaporator unit. The phrase "all sets of covered products" denotes any combination of items put up for sale that is comprised of merchandise subject to the scope.

"Refined copper" is defined as: (1) Metal containing at least 99.85 percent by weight of copper; or (2) metal containing at least 97.5 percent by weight of copper, provided that the content by weight of any other element does not exceed the following limits:

Element	Limiting content percent by weight
Ag—Silver	0.25
As—Arsenic	0.5
Cd—Cadmium	1.3
Cr—Chromium	1.4
Mg—Magnesium	0.8
Pb—Lead	1.5
S—Sulfur	0.7
Sn—Tin	0.8
Te—Tellurium	0.8
Zn—Zinc	1.0
Zr—Zirconium	0.3
Other elements (each)	0.3

Excluded from the scope of the *Orders* are all seamless circular hollows of refined copper less than 12 inches in length whose OD (actual) exceeds its length. The products subject to the *Orders* are currently classifiable under subheadings 7411.10.1030 and 7411.10.1090 of the Harmonized Tariff Schedule of the United States (HTSUS). Products subject to the *Orders* may also enter under HTSUS subheadings 7407.10.1500, 7419.80.5050, 7419.99.5050, 8415.90.8065, and 8415.90.8085. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of the *Orders* is dispositive.

Continuation of the Orders

As a result of the determinations by Commerce and the ITC that revocation of the *Orders* would likely lead to continuation or recurrence of dumping and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act and 19 CFR 351.218(a), Commerce hereby orders the continuation of the *Orders*. U.S. Customs and Border Protection will continue to collect AD cash deposits at the rates in effect at the time of entry for all imports of subject merchandise. The

effective date of the continuation of the orders will be the date of publication in the **Federal Register** of this notice of continuation. Pursuant to section 751(c)(2) of the Act and 19 CFR 351.218(c)(2), Commerce intends to initiate the next sunset review of the *Orders* not later than 30 days prior to the fifth anniversary of the effective date of continuation.

Notification to Interested Parties

This five-year sunset review and this notice are in accordance with sections 751(c) and 751(d)(2) of the Act and this notice is published pursuant to section 777(i)(1) of the Act and 19 CFR 351.218(f)(4).

Dated: May 17, 2022.

Lisa W. Wang,

Assistant Secretary for Enforcement and Compliance.

Marine Mammals; File No. 25754

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that the NMFS Pacific Islands Fisheries Science Center, 1845 Wasp Boulevard, Building 176, Honolulu, HI 96818 (Responsible Party: Erin Oleson, Ph.D.), has applied in due form for a permit to conduct research on cetaceans.

DATES: Written, telefaxed, or email comments must be received on or before June 22, 2022.

ADDRESSES: The application and related documents are available for review by selecting “Records Open for Public Comment” from the “Features” box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 25754 from the list of available applications. These documents are also available upon written request via email to NMFS.Pr1Comments@noaa.gov.

Written comments on this application should be submitted via email to NMFS.Pr1Comments@noaa.gov. Please include File No. 25754 in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request

via email to NMFS.Pr1Comments@noaa.gov. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Carrie Hubbard or Sara Young, (301) 427–8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226).

The applicant proposes to conduct research on 34 cetacean species in U.S. and international waters of the Pacific Islands region, including the Hawaiian archipelago, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, Kingman Reef, Palmyra Atoll, Johnston Atoll, Wake Atoll, Howland Island, Baker Island, and Jarvis Island. The following endangered or threatened species may be taken during research activities: Blue whale (*Balaenoptera musculus*), false killer whale (*Pseudorca crassidens*), fin whale (*B. physalus*), humpback whale (*Megaptera novaengliae*), North Pacific right whale (*Eubalaena japonica*), sei whale (*B. borealis*), and sperm whale (*Physeter macrocephalus*). The objectives of the research are to determine the abundance, stock structure, distribution, movement patterns, and ecological relationships of cetaceans in the study area. Research activities include aerial surveys using manned and unmanned aircraft systems, vessel surveys, behavioral observations, photo-identification, passive acoustic recordings, underwater photography, biological sample collection (skin and blubber biopsies, exhaled air, feces, and sloughed skin), and tagging (suction-cup and dart/barb). Marine mammal parts would also be imported, exported, salvaged, or received for analysis and curation. See the application for complete numbers of animals requested by species, life stage, and procedure. The permit is requested for five years.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: May 18, 2022.

Amy Sloan,

Acting Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

Notice of Intent To Prepare a Programmatic Environmental Impact Statement for Identification of One or More Aquaculture Opportunity Area(s) in Southern California

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce.

ACTION: Notice of intent to prepare a Programmatic Environmental Impact Statement; notice of public scoping.

SUMMARY: The NMFS West Coast Region is publishing this Notice of Intent (NOI) to prepare a Programmatic Environmental Impact Statement (PEIS) under the National Environmental Policy Act (NEPA) for the proposed identification of one or more Aquaculture Opportunity Areas (AOAs) to be located in Federal waters off the coast of Southern California. An AOA is considered to be a defined geographic area that has been evaluated to determine its potential suitability for commercial aquaculture. The proposed action is a planning initiative only and does not propose any aquaculture facilities or permits. The United States Army Corps of Engineers (USACE) Los Angeles District, the United States Coast Guard (USCG) District Eleven, and the Environmental Protection Agency (EPA) Region 9 will act as cooperating agencies for the purposes of the PEIS.

DATES: NMFS requests comments concerning the scope of the proposed action, its potential impacts to the natural and human environment, means for avoiding, minimizing, or mitigating potential impacts, the range of preliminary alternatives proposed in this notification, and any additional reasonable alternatives that should be considered within the Southern
