

submitted by Greater-Birmingham Alliance to Stop Pollution (Petitioner) objecting to a proposed Clean Air Act (CAA) title V operating permit issued to UOP LLC for its Mobile Plant located in Mobile County, Alabama. The Order responds to an April 2, 2021, petition requesting that EPA object to the final operating permit No. 503–8010. This permitting action was issued by the Alabama Department of Environmental Management (ADEM). The Order constitutes a final action on the petition addressed therein.

ADDRESSES: Copies of the Order, the petition, and all pertinent information relating thereto are on file at the following location: EPA Region 4; Air and Radiation Division; 61 Forsyth Street SW, Atlanta, Georgia 30303–8960. The Order is also available electronically at the following address: https://www.epa.gov/system/files/documents/2022-05/UOP%20Order_4-27-22.pdf.

SUPPLEMENTARY INFORMATION: The CAA affords EPA a 45-day period to review and, as appropriate, the authority to object to operating permits proposed by state permitting authorities under title V of the CAA, 42 U.S.C. 7661–7661f. Section 505(b)(2) of the CAA and 40 CFR 70.8(d) authorize any person to petition the EPA Administrator to object to a title V operating permit within 60 days after the expiration of EPA’s 45-day review period if the EPA has not objected on its own initiative. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the state, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or the grounds for the issues arose after this period. Pursuant to sections 307(b) and 505(b)(2) of the CAA, a petition for judicial review of those parts of the Order that deny issues in the petition may be filed in the United States Court of Appeals for the appropriate circuit within 60 days from the date this notice is published in the **Federal Register**.

Petitioner submitted a petition requesting that EPA object to the proposed CAA title V operating permit

no. 503–8010 issued by ADEM to the UOP Mobile Plant. Petitioner claims: The statement of basis lacks substantive information for adequate public review; ADEM failed to demonstrate that monitoring requirements are consistent with respect to applicable requirements; ADEM failed to demonstrate the source is entitled to a permit shield; the permit fails to include underlying citations of authority with respect to applicable permit conditions; the permit includes synthetic minor limits that are not practically enforceable; and ADEM failed to adequately respond to Petitioner’s comments.

On April 27, 2022, the Administrator issued an Order granting in part and denying in part the petition. The Order explains EPA’s bases for granting in part and denying in part the petition.

Dated: May 20, 2022.

Daniel Blackman,

Regional Administrator, Region 4.

Abstract: The manufacture, processing, and distribution in commerce of methylene chloride for consumer paint and coating removal is prohibited under EPA regulations in 40 CFR part 751, as promulgated under the TSCA, 15 U.S.C. 2601 *et seq.* Manufacturers, processors, or distributors in commerce for non-prohibited uses are required to notify companies to whom methylene chloride is shipped of the prohibitions under 40 CFR 751 through the Safety Data Sheet

(SDS). It also requires manufacturers, processors, or distributors in commerce (except for retailers) to retain methylene chloride in one location at the headquarters of the company, or the facility for which the records were generated, documentation showing: (i) The name, address, contact, and telephone number of companies to whom methylene chloride was shipped; (ii) a copy of the notification provided to companies to whom the methylene chloride was shipped; and (iii) the amount of methylene chloride shipped. This information must be retained for three years from the date of shipment. EPA established these requirements under TSCA Section 6(a) in response to a final determination that the consumer use of paint and coating removal presents an unreasonable risk of injury to health. This ICR consists of the downstream notification of the prohibitions and the recordkeeping requirement.

Form Numbers: None.

Respondents/affected Entities:

Respondents affected by this activity may include those that engage in the manufacture, processing and distribution in commerce of methylene chloride for consumer paint and coating removal. The ICR provides a list of the North American Industrial Classification System codes that might apply to entities that may be affected by the activities described in this ICR.

Respondent's obligation to respond: Mandatory per 40 CFR 751 and TSCA section 6(a).

Frequency of response: On occasion.

Estimated number of potential respondents: 14 (total).

Total Estimated burden: 7 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$298 (per year), which includes no annualized capital or operation & maintenance costs.

Changes in the estimates: There is a decrease in the estimated total annual burden and costs compared with that identified in the ICR currently approved by OMB. Burden decreased from 69 hours to 7 hours. This decrease is due a decrease in the number of respondents.

Director, Regulatory Support Division, Office of Mission Support.
