**Proposed Amendment of Class D
Airspace, and Revocation of Class E
Airspace; Fort Pierce, FL**

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking
(NPRM).

SUMMARY: This action proposes to amend Class D airspace and remove Class E airspace area designated as an extension to Class D airspace in Fort Pierce, FL, as the Fort Pierce non-directional beacon (NDB) has been decommissioned and associated approaches into Treasure Coast International Airport cancelled. This action would also update the airport's name and geographic coordinates. Controlled airspace is necessary for the safety and management of instrument flight rules (IFR) operations in the area.

SUPPLEMENTARY INFORMATION:**Authority for This Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in

Title 49 of the United States Code. Subtitle I, Section 106, describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority, as it would amend airspace in Fort Pierce, FL, to support IFR operations in the area.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order JO 7400.11F, Airspace Designations and Reporting Points, dated August 10, 2021, and effective September 15, 2021. FAA Order JO 7400.11F is publicly available as listed in the **ADDRESSES** section of this document. FAA Order JO 7400.11F lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA proposes an amendment to Title 14 CFR part 71 to amend Class D airspace and remove Class E airspace designated as an extension to a Class D surface area for Treasure Coast International Airport (formerly St. Lucie County International Airport), Fort Pierce, FL, due to the decommissioning of the Fort Pierce NDB. The Class D airspace would be increased to a 4.6-mile radius (formerly 4.2 miles) and the surface extensions eliminated, as the NDB approaches have been cancelled. Additionally, this action would update the airport's name, and the airport's geographic coordinates to coincide with the FAA's database, as well as remove the city from the airport descriptor. Also, this action would replace the term Airport/Facility Directory with the term Chart Supplement in the Class D description.

Class D and Class E airspace designations are published in Paragraphs 5000, and 6004, respectively, of FAA Order JO 7400.11F, dated August 10, 2021, and effective September 15, 2021, which is incorporated by reference in 14 CFR 71.1. The Class D and E airspace

designations listed in this document will be published subsequently in FAA Order JO 7400.11F.

FAA Order JO 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” prior to any FAA final regulatory action.
