Records Governing Off-the-Record Communications; Public Notice

This constitutes notice, in accordance with 18 CFR 385.2201(b), of the receipt of prohibited and exempt off-the-record communications.

Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive a prohibited or exempt off-the-record communication relevant to the merits of a contested proceeding, to deliver to the Secretary of the Commission, a copy of the communication, if written, or a summary of the substance of any oral communication.

Prohibited communications are included in a public, non-decisional file associated with, but not a part of, the decisional record of the proceeding. Unless the Commission determines that the prohibited communication and any responses thereto should become a part

of the decisional record, the prohibited off-the-record communication will not be considered by the Commission in reaching its decision. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such a request only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication shall serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications are included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40 CFR 1501.6, made under 18 CFR 385.2201(e)(1)(v).

The following is a list of off-the-record communications recently received by the Secretary of the Commission. The communications listed are grouped by docket numbers in ascending order. Building for the Future Through Electric Regional Transmission Planning and Cost Allocation and Generator Interconnection; Notice on Requests or Extension of Time

On May 10, 2022, the ISO/RTO Council (IRC),¹ Edison Electric Institute, American Public Power Association, and the National Rural Electric Cooperative Association (together, Joint Movants) filed a motion requesting a 15-

¹ IRC is comprised of the following independent system operators (ISOs) and regional transmission organizations (RTOs): Alberta Electric System Operator (AESO); California Independent System Operator Corporation; Electric Reliability Council of Texas, Inc. (ERCOT); Independent Electricity System Operator of Ontario, Inc. (IESO); ISO New England Inc.; Midcontinent Independent System Operator, Inc.; New York Independent System Operator, Inc.; PJM Interconnection, L.L.C.; and Southwest Power Pool, Inc. IRC states that AESO, ERCOT, and IESO do not join its motion.

day extension of time to submit initial comments in response to the Notice of Proposed Rulemaking (NOPR) in this proceeding,² from July 18, 2022 to August 2, 2022, and an extension of the reply comment deadline from August 17, 2022 to September 8, 2022. Joint Movants state that the responses to the NOPR will require a great deal of internal consideration for each trade association and IRC member to provide quality responses to the Commission. Moreover, Joint Movants assert that the industry as a whole would benefit from a modest amount of additional time to provide thoughtful and constructive comments in response to the NOPR in order for the Commission to have an adequate record upon which to rule. The MISO South Regulators³ filed comments supporting Joint Movants' motion.

On May 19, 2022, the National Association of Regulatory Utility Commissioners (NARUC) filed a motion requesting a 30-day extension of time to submit initial comments in this proceeding, from July 18, 2022 to August 17, 2022. NARUC states that the current initial comment deadline of July 18, 2022 is at the beginning of NARUC's Summer Policy Summit, during which the Commission and NARUC will hold another meeting of the Joint Federal-State Task Force on Electric Transmission (Task Force). NARUC states that the state members of the Task Force spend a great deal of time preparing for the Task Force meetings, and it will be difficult for them to balance preparing for the Task Force meeting with developing comments in this proceeding, in addition to their primary responsibilities to their public utility commissions. Further, NARUC states that NARUC meetings serve as an opportunity for their members to discuss policy matters and develop their advocacy positions. Western State Regional Representatives⁴ filed comments supporting NARUC's motion and request that the Commission adjust the reply comment period accordingly.

Upon consideration, notice is hereby given that the deadline to submit initial
