

beginning at 1:00 p.m. and ending at 3:00 p.m. (EDT); SBA will adjourn early if all testimony has been delivered before the end time.

III. Registration

Participants must pre-register to attend either of the two virtual public forums on size standards by visiting SBA's size standards web page at <http://www.sba.gov/size> and registering at the link provided. On the registration form, participants may indicate whether they would like to testify at the forum. After registering, participants will receive an email with an access to link and call-in information which can be used to access the forum on the scheduled date and time. Additional information about the forum is provided on SBA's announcements about updating size standards web page, available at <https://www.sba.gov/article?sortBy=Authored%20on%20Date&search=&articleCategory=All&program=Contracting&page=1>, and in the invitation that participants receive upon registration. SBA will attempt to accommodate all interested parties that wish to present testimony. Based on the number of registrants it may be necessary to impose time limits to ensure that everyone who wishes to testify can do so.

We are soliciting public comments to permit the Department to:

- Evaluate whether the proposed information collection is necessary for the proper functions of the Department.

- Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used.

- Enhance the quality, utility, and clarity of the information to be collected.

- Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Please note that comments submitted in response to this Notice are public record. Before including any detailed personal information, you should be aware that your comments as submitted, including your personal information, will be available for public review.

Abstract of Proposed Collection

The DS-160 and DS-156 collect biographical and other information from individuals seeking a nonimmigrant visa or individuals seeking a boarding foil for purposes of traveling to the United States to seek parole from the Department of Homeland Security. The consular officer uses the information collected to elicit information necessary to determine an applicant's eligibility for a nonimmigrant visa. The consular officer uses the information collected on the form to screen individuals seeking a boarding foil for purposes of obtaining parole pursuant to an agreement between the Department of State and the Department of Homeland Security. Most respondents use the DS-160; however, posts may authorize an individual to use the paper-based DS-156 in limited circumstances as outlined below.

Methodology

Respondents submit the DS-160 electronically over an encrypted connection to the Department via the internet. The respondent will be instructed to print the confirmation page containing bar code record locators, which the consular officer will use to locate the form during processing.

The DS-156 is the paper-based version of the DS-160. In order to obtain a copy of the DS-156, an individual must contact the Embassy or consulate at which they are applying and request a copy. A consular officer may allow an individual to submit the DS-156 in the following limited circumstances when the DS-160 cannot be accessed and the:

- Respondent has an urgent medical or humanitarian travel need, and the consular officer has received explicit permission from the Visa Office to accept form DS-156.

- Respondent is a student or exchange visitor who must leave immediately in order to arrive on time for his/her course and the consular officer has explicit permission from the Visa Office to accept form DS-156.

- Respondent is a diplomatic or official traveler with urgent government business and form DS-160 has been unavailable for more than four hours; or

- Form DS-160 has been unavailable for more than three days and the officer receives explicit permission from the Visa Office.

Kevin E. Bryant,

Deputy Director, Office of Directives Management, Department of State.

SUPPLEMENTARY INFORMATION:

Title: Peer Exchange on Corrosion Prevention and Mitigation for Highway Bridges

OMB Control Number: (if applicable).

Summary: The Federal Highway Administration (FHWA) through their stewardship and oversight role provides support to State departments of transportation and other stakeholders in implementing the Federal-aid Highway Program (FAHP). In addition to overseeing the FAHP, FHWA supports State DOTs and other stakeholders in the development and construction of highway projects, including providing technical assistance in the implementation of preservation activities to maintain and improve the condition of their bridges. The FHWA also conducts research to develop tools, methods, and procedures to advance the practice in bridge preservation.

In September 2021, Government Accountability Office (GAO) in their report *Highway Bridges: Federal Highway Administration Could Better Assist States with Information on Corrosion Practices*, GA0-21-104249 made a recommendation to FHWA to include activities in ongoing bridge preservation efforts, such as peer exchanges and case studies that focus on addressing the challenges states face with determining the circumstances under which specific corrosion practices and materials are most effective. To implement GAO's recommendation from the report, FHWA plans to conduct two regional peer exchanges. First peer exchange will include 9 States in the mid-west and north-east States which have environments with arid conditions or that experience frequent freeze/thaw cycles and use de-icing chemicals on their highway bridges, and second will include 9 States in the south-east and west States which have environments that experience freeze/thaw cycles and/or have highway bridges that are exposed to saltwater environment. These peer exchanges will focus on States' practices and materials used that mitigate bridge corrosion. Based on these shared experiences and lessons learned, FHWA will publish case studies and/or communicate the findings to States to improve their bridge preservation programs.

Respondents: State Departments of Transportation Agencies responsible for designing and maintaining highway bridges.

Estimated Average Burden per Response: The estimated average reporting burden per response is 16 hours for each State.
