

reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) is the collection necessary to the proper functions of the USGS; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the USGS enhance the quality, utility, and clarity of the information to be collected; and (5) how might the USGS minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: We will collect information from stakeholders of the Arctic Rivers Project, which include representatives of Indigenous communities in Alaska, representatives of Indigenous organizations, and others regarding the effectiveness of participatory methods and achievement of overall project goals. Evaluation information will be collected via semi-structured interviews, surveys, and polls. Questions will focus on the relevancy of the project to participants, methods used to engage with participants, feedback about project components, input for the direction of the project, preferred communication methods, current and future use of project products. This information will allow for a greater understanding of the effectiveness of community engagement, the co-production process, and participation in the direction of the project. This information will help guide the project through its various phases, and it will help enhance communication and product development.

Title of Collection: Evaluation of the Arctic Rivers Project.

Notice of Proposed Withdrawal and Public Meeting; Montana

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of proposed withdrawal.

SUMMARY: The Secretary of the Interior proposes to withdraw 912.33 acres of public lands in Phillips County, Montana, from appropriation under the public land laws, including location and entry under the United States mining laws, but not from the mineral leasing or the mineral materials disposal laws for up to 20 years, subject to valid existing rights, to protect the Zortman-Landusky Mine reclamation site. Publication of this notice segregates the lands from the laws specified for up to 2 years, subject to valid existing rights. This notice initiates a 90-day public comment period and announces an opportunity to participate in a virtual public meeting.

DATES: Comments must be received by September 6, 2022.

A virtual (online) public meeting in connection with the withdrawal application and segregation will be held on June 21, 2022, at 4:00 p.m. Mountain Time.

ADDRESSES: All comments should be sent to: Malta Field Office, Attn: Field Manager, 501 South 2nd St East, Malta, Montana 59538; or sent by email to mrlee@blm.gov. The Bureau of Land Management (BLM) will not consider comments received via telephone.

The virtual meeting will be held via Zoom at <https://blm.zoomgov.com/j/1616502018?pwd=d1hHenZNdnk2ZmhqY0tPaFUxMUFAUT09>. Meeting ID: 161 650 2018. Passcode: 544914. Or call 833–568–8864 US Toll-free.

FOR FURTHER INFORMATION CONTACT:

Micah Lee, Realty Specialist, Havre Field Office, BLM Montana/Dakotas, telephone: (406) 262–2851, email: mrlee@blm.gov; or you may contact the BLM office at the address noted earlier. Persons in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 7–1–1 (TTY, TDD, or Tele Braille) to access telecommunications relay services to contact Ms. Lee. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: The applicant is the BLM and its petition/application requests the Secretary of the Interior to withdraw the following-described public lands from appropriation under the public land laws, including location and entry under the United States mining laws, but not from leasing under the mineral leasing and mineral materials disposal laws, subject to valid existing rights, to protect the Zortman-Landusky Mine area and to facilitate reclamation and stabilization for a 20-year term.

The areas described aggregate 912.33 acres.

The BLM petition/application has been approved by the Secretary of the Interior and therefore it constitutes a withdrawal proposal of the Secretary of the Interior (43 CFR 2310.1–3(e)).

The use of a right-of-way, interagency agreement, or cooperative agreement would not provide adequate protection of the Federal investment in the mine reclamation work located on the lands.

No additional water rights will be needed to fulfill the purpose of this new withdrawal.

There are no suitable alternative sites to facilitate mining reclamation since the location of the mines and necessary reclamation materials are fixed.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

For a period until June 6, 2024 including location and entry under the United States mining laws, but not from leasing under the mineral leasing and mineral materials disposal laws, subject to valid existing rights, unless the application is denied or canceled, or the withdrawal is approved prior to that date. The BLM is preparing an environmental assessment evaluating the environmental consequences of a similar withdrawal of 2,688.13 acres proposed to protect the Zortman-Landusky Mine reclamation site, announced in the **Federal Register** on October 7, 2020 (85 FR 63289), and is including evaluation of the withdrawal proposed here in that analysis. Information regarding both proposed withdrawals, including environmental and other reviews, will be available at the Montana/Dakotas State Office and on the BLM's ePlanning site at <https://eplanning.blm.gov/eplanning-ui/project/2003949/510>.

Licenses, permits, cooperative agreements, or discretionary land use authorizations of a temporary nature that will not significantly impact the values to be protected by the withdrawal may be allowed with the approval of the authorized officer of the BLM during the temporary segregation period.

The application will be processed in accordance with the regulations set forth in 43 CFR 2300.

Theresa M. Hanley,

Acting Montana/Dakotas State Director.

Notice of Intent To Repatriate Cultural Items: Tennessee Valley Authority, Knoxville, TN

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: The Tennessee Valley Authority (TVA), in consultation with the appropriate Indian Tribes or Native Hawaiian organizations, has determined that the cultural items listed in this notice meet the definition of sacred objects. Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to claim these cultural items should submit a written request to the TVA. If no additional claimants come forward, transfer of control of the cultural items to the lineal descendants, Indian Tribes, or Native Hawaiian organizations stated in this notice may proceed.

DATES: Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to claim these cultural items should submit a written request with information in support of the claim to the TVA at the address in this notice by July 6, 2022.

FOR FURTHER INFORMATION CONTACT: Ms. Marianne Shuler, Tennessee Valley Authority, 400 West Summit Hill Drive, WT11C, Knoxville, TN 37902–1401, telephone (865) 253–1265, email mmshuler@tva.gov.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3005, of the intent to repatriate cultural items under the control of the Tennessee Valley Authority, Knoxville, TN, that meet the definition of sacred objects under 25 U.S.C. 3001.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of

the museum, institution, or Federal agency that has control of the Native American cultural items. The National Park Service is not responsible for the determinations in this notice.

History and Description of the Cultural Items

Between 1989 and November of 1990, cultural items were removed from Dust Cave, site 1LU496, in Lauderdale County, AL. Dust Cave is situated on a bluff adjacent to the right descending bank of the Tennessee River inside TVA's Pickwick Reservoir. The cave was recorded in the 1980s by Richard Cobb following exploration by local speleologists. A subsequent evaluation of caves adjacent to Pickwick Reservoir verified that Dust Cave had a human habitation of considerable antiquity. Dust Cave was the focus of excavations by the University of Alabama from 1989 to 2002. The two sacred objects are one lot of dog remains and one lot of lithics.

Based on oral traditional information provided during consultation with The Chickasaw Nation about the role of the white dog Ofi' Tohbi Ishto' in the Chickasaw Migration story and the need of The Chickasaw Nation to venerate these animals alongside ancestral remains in current day reburial practices, TVA has determined that the dog remains and the lithics are sacred objects.

Determinations Made by the Tennessee Valley Authority

Officials of the Tennessee Valley Authority have determined that:

- Pursuant to 25 U.S.C. 3001(3)(C), the two cultural items described above are specific ceremonial objects needed by traditional Native American religious leaders for the practice of traditional Native American religions by their present-day adherents.

- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the sacred objects and the Cherokee Nation; Eastern Band of Cherokee Indians, and The Chickasaw Nation (hereafter referred to as "The Tribes").

Additional Requestors and Disposition

Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to claim these cultural items should submit a written request with information in support of the claim to Ms. Marianne Shuler, Tennessee Valley Authority, 400 West Summit Hill Drive, WT11C, Knoxville, TN 37902–1401, telephone (865) 253–1265, email mmshuler@tva.gov, by July 6, 2022.
