

Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of meetings of Wreckfish shareholders and the South Atlantic Fishery Management Council's Spiny Lobster Advisory Panel and Golden Crab Advisory Panel.

**SUMMARY:** The Council will hold a meeting of Wreckfish shareholders, and the Spiny Lobster Advisory Panel and Golden Crab Advisory Panel.

**DATES:** The Wreckfish shareholders meeting will be held June 28, 2022, from 1 p.m. until 5:30 p.m. EDT; the Spiny Lobster Advisory Panel meeting on June 29, 2022, from 8:30 a.m. until 5 p.m. EDT; and the Golden Crab Advisory Panel meeting June 30, 2022, from 8:30 a.m. until 12 p.m. EDT.

**ADDRESSES:**

*Meeting address:* The meetings will be held at the Reefhouse, Resort and Marina, 103800 Overseas Highway, Key Largo, FL 33037; phone: (305) 453-0000.

The meetings will also be available via webinar. Registration is required. Webinar registration, an online public comment form, and briefing book materials will be available two weeks prior to the meeting at: <https://safmc.net/safmc-meetings/>.

*Council address:* South Atlantic Fishery Management Council, 4055 Faber Place Drive, Suite 201, N Charleston, SC 29405.

**FOR FURTHER INFORMATION CONTACT:**

Christina Wiegand, Fishery Social Scientists, SAFMC; phone: (843) 571-4366 or toll free: (866) SAFMC-10; fax: (843) 769-4520; email: [christina.wiegand@safmc.net](mailto:christina.wiegand@safmc.net).

**SUPPLEMENTARY INFORMATION:** Wreckfish shareholders will meet to discuss Amendment 48 to the Fishery Management Plan for the Snapper Grouper Fishery of the South Atlantic, which addresses modernization of the Wreckfish Individual Transferable Quota Program and discuss other business as needed. The Spiny Lobster Advisory Panel will update their fishery performance report, discuss areas currently closed to lobster traps to protect threatened corals in federal waters off the Florida Keys, discuss the Florida Keys National Marine Sanctuary Restoration Blueprint, if available, and discuss other business as needed. The Golden Crab Advisory Panel will complete a fishery performance report and discuss other business as needed.

Fishery performance reports assemble information from the Council's fishery advisory panel members' experience and observations on the water and in the marketplace to complement

scientific and landings data and inform management decisions.

**Special Accommodations**

These meetings are physically accessible to people with disabilities. Requests for auxiliary aids should be directed to the Council office (see **ADDRESSES**) 5 days prior to the meeting.

**Note:** The times and sequence specified in this agenda are subject to change.

*Authority:* 16 U.S.C. 1801 *et seq.*

Dated: June 2, 2022.

**Tracey L. Thompson,**

*Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

**Space Weather Advisory Group Meeting**

**AGENCY:** National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of public meeting.

**SUMMARY:** The Space Weather Advisory Group (SWAG) will meet for 2 half-days on June 13-14, 2022.

**DATES:** The meeting is scheduled as follows: June 13-14, 2022 from 10 a.m.-2 p.m. Eastern Standard Time (EST).

**ADDRESSES:** The public meeting will be conducted virtually via webinar. For details on how to connect to the webinar or to submit comments, please visit [www.weather.gov/swag](http://www.weather.gov/swag) or contact Jennifer Meehan, National Weather Service; telephone: 301-427-9798; email: [jennifer.meehan@noaa.gov](mailto:jennifer.meehan@noaa.gov).

**FOR FURTHER INFORMATION CONTACT:**

Jennifer Meehan, National Weather Service, NOAA, 1325 East West Highway, Silver Spring, Maryland 20910; 301-427-9798 or [jennifer.meehan@noaa.gov](mailto:jennifer.meehan@noaa.gov); or visit the SWAG website: <https://www.weather.gov/swag>.

**SUPPLEMENTARY INFORMATION:** Pursuant to the Promoting Research and Observations of Space Weather to Improve the Forecasting of Tomorrow (PROSWIFT) Act, 51 U.S.C. 60601 *et seq.*, the Administrator of NOAA and the National Science and Technology Council's Space Weather Operations, Research, and Mitigation (SWORM) Subcommittee established the Space Weather Advisory Group (SWAG) on

April 21, 2021. The SWAG is the only Federal Advisory Committee that advises and informs the interest and work of the SWORM. The SWAG is to receive advice from the academic community, the commercial space weather sector, and nongovernmental space weather end users to carry out the responsibilities of the SWAG set forth in the PROSWIFT Act, 51 U.S.C. 60601 *et seq.*

The SWAG is directed to advise the SWORM on the following: Facilitating advances in the space weather enterprise of the United States; improving the ability of the United States to prepare for, mitigate, respond to, and recover from space weather phenomena; enabling the coordination and facilitation of research to operations and operations to research, as described in section 60604(d) of title 51, United States Code; and developing and implementing the integrated strategy under 51 U.S.C. 60601(c), including subsequent updates and reevaluations. The SWAG shall also conduct a comprehensive survey of the needs of users of space weather products to identify the space weather research, observations, forecasting, prediction, and modeling advances required to improve space weather products, as required by 51 U.S.C. 60601(d)(3).

**Matters To Be Considered**

The meeting will be open to the public. During the meeting, the Committee will discuss the PROSWIFT Act, 51 U.S.C. 60601 *et seq.*, directed duties of the SWAG including the required 51 U.S.C. 60601(d)(3) user survey. The full agenda will be published on the SWAG website. Meeting materials, including work products, will also be available on the SWAG website: <https://www.weather.gov/swag>.

**Additional Information and Public Comments**

The meeting will be held over two half-days and will be conducted via webinar (for meeting details see **ADDRESSES**). Please register for the meeting through the website: <https://www.weather.gov/swag>.

This event is accessible to individuals with disabilities. For all other special accommodation requests, please contact [Jennifer.meehan@noaa.gov](mailto:Jennifer.meehan@noaa.gov). This webinar is a NOAA public meeting and will be recorded and transcribed. If you have a public comment, you acknowledge you will be recorded and are aware you can opt out of the meeting. Participation in the meeting constitutes consent to the recording. Both the meeting minutes and

presentations will be posted to the SWAG website (<https://www.weather.gov/swag>). The agenda, speakers and times are subject to change. For updates, please check the SWAG website (<https://www.weather.gov/swag>).

Public comments directed to the SWAG members and SWAG related topics are encouraged. Individuals or groups who would like to submit advance written comments, please email them to [jennifer.meehan@noaa.gov](mailto:jennifer.meehan@noaa.gov) by June 10, 2022 to provide sufficient time for SWAG review. Written comments received after these dates will be distributed to the SWAG but may not be reviewed prior to the meeting date. As time allows, public comments will be read into the public record during the meeting. Advance comments will be collated and posted to the meeting website.

Dated: June 1, 2022.

**Michael Farrar,**

Director, National Centers for Environmental Prediction, National Weather Service, National Oceanic and Atmospheric Administration.

#### Takes of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to the Punta Gorda Lighthouse Stabilization Project in Humboldt County, California

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice; issuance of an incidental harassment authorization (IHA).

**SUMMARY:** In accordance with the regulations implementing the Marine Mammal Protection Act (MMPA) as amended, notification is hereby given that NMFS has issued an IHA to the Bureau of Land Management (BLM) to incidentally harass marine mammals during construction activities associated with the Punta Gorda Lighthouse (PGL) Stabilization Project in Humboldt County, California. There are no changes from the proposed authorization in this final authorization.

**DATES:** This Authorization is effective from June 1, 2022 through October 1, 2022.

#### FOR FURTHER INFORMATION CONTACT:

Amy Fowler, Office of Protected Resources, NMFS, (301) 427-8401. Electronic copies of the application and supporting documents, as well as a list of the references cited in this document, may be obtained online at: <https://www.fisheries.noaa.gov/national/marine-mammal-protection/incidental-take-authorizations-construction-activities>. In case of problems accessing these documents, please call the contact listed above.

#### SUPPLEMENTARY INFORMATION:

##### Background

The MMPA prohibits the “take” of marine mammals, with certain exceptions. Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce (as delegated to NMFS) to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are proposed or, if the taking is limited to harassment, a notice of a proposed incidental harassment authorization is provided to the public for review.

Authorization for incidental takings shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s) and will not have an unmitigable adverse impact on the availability of the species or stock(s) for taking for subsistence uses (where relevant). Further, NMFS must prescribe the permissible methods of taking and other “means of effecting the least practicable adverse impact” on the affected species or stocks and their habitat, paying particular attention to rookeries, mating grounds, and areas of similar significance, and on the availability of the species or stocks for taking for certain subsistence uses (referred to in shorthand as “mitigation”); and requirements pertaining to the mitigation, monitoring and reporting of the takings are set forth.

##### Summary of Request

On August 30, 2021, NMFS received a request from the BLM for an IHA to take marine mammals incidental to the PGL Stabilization Project in Humboldt County, California. The application was deemed adequate and complete on February 15, 2022. The BLM’s request is for take of a small number of northern elephant seals (*Mirounga angustirostris*), Pacific harbor seals (*Phoca vitulina richardii*), California sea lions (*Zalophus californianus*), and Steller sea lions (*Eumetopias jubatus*) by Level

B harassment only. Neither the BLM nor NMFS expects serious injury or mortality to result from this activity and, therefore, an IHA is appropriate.

There are no changes from the proposed IHA to the final IHA.

#### Description of Planned Activity

##### Overview

The PGL was established as an aid to navigation in 1912 along the northern California coast. While in use, the lighthouse station included the lighthouse, oil house, three residences, and numerous other small buildings typical of small military outposts. Although the lighthouse is located on the mainland, maintaining the station in the remote and rugged location along the coast proved to be too difficult and the U.S. Coast Guard decommissioned the lighthouse in 1951. The BLM assumed management of the site following the PGL’s decommission but was unable to keep up with the maintenance and after the windy ocean environment took a toll on the site, the BLM intentionally burned down the wooden structures of the station. The concrete lighthouse and oil house were all that remained when the site was listed in the National Registry of Historic Places in 1976.

The BLM plans to stabilize the lighthouse site, repair the remaining structures, and rebuild former structures between June 1, 2022 and October 1, 2022 on up to 122 days of work. The lighthouse is located along the Lost Coast Trail, which extends from the Mattole River to Shelter Cove, California, covering approximately 40 kilometers (km) (24.8 miles (mi)). The BLM will access the PGL by traveling along the coast from the north, originating at either the Windy Point Trailhead or the Trailhead at the Mattole Campground.

A detailed description of the planned construction activities at the PGL is provided in the **Federal Register** notice of the proposed IHA (87 FR 24517; April 26, 2022). Since that time, no changes have been made to the project activities. Therefore, a detailed description is not provided here. Please refer to that **Federal Register** notice for the description of the specified activities. Mitigation, monitoring, and reporting measures are described in detail later in this document (please see Mitigation and Monitoring and Reporting sections).

#### Comments and Responses

A notice of NMFS’ proposal to issue an IHA to the BLM was published in the **Federal Register** on April 26, 2022 (87 FR 24517). That notice described, in
