**SUPPLEMENTARY INFORMATION:**

*Title; Associated Form; and OMB Number:* U.S. Army Corps of Engineers Navigation Improvement Surveys; OMB Control Number 0710-NAVS.

*Needs and Uses:* The U.S. Army Corps of Engineers (USACE) operates, maintains, and improves much of the nation's navigation infrastructure. This includes inland navigation infrastructure (locks, dams and channels) and coastal infrastructure (major ports and ship channels). USACE conducts periodic navigation improvement studies to ensure continuity of operations now and into the future. To fully evaluate these studies, USACE needs data on the use of the Nation's waterways, the extent of navigation inefficiencies, and anticipated changes in vessel operations and sizes. This information is used in planning studies to formulate and

evaluate the projected benefits and impacts of alternatives. Navigation improvement studies conducted by USACE typically use empirical data provided by the USACE Waterborne Commerce Statistics Center; however, the impacts on waterway traffic of alternative capital and operations and maintenance investment strategies collected by these surveys complements the empirical data.

*Affected Public:* Businesses or other for-profit.

*Annual Burden Hours:* 666.67.

*Number of Respondents:* 1,000.

*Responses per Respondent:* 1.

*Annual Responses:* 1,000.

*Average Burden per Response:* 40 minutes.

*Frequency:* As required.

The surveys will be administered to shippers, carriers, liner service providers, and commercial fishers who rely on the navigation infrastructure. They will be conducted in-person, by phone, or by mail. The surveys will not be administered electronically. USACE staff or contractors working on navigation feasibility studies will administer the survey by contacting shippers, carriers, liner service providers, and commercial fishers directly by traveling to the study area and meeting workers on site. Phone and mail surveys will also be used sparingly as needed. Respondents of mailed surveys will complete the survey on paper and mail their responses back to USACE or the contractor acting on behalf of USACE.

Dated: June 2, 2022.
