POSTAL SERVICE

Privacy Act of 1974; System of Records

AGENCY: Postal Service®.

ACTION: Notice of a modified system of records; response to comments.

SUMMARY: The United States Postal Service® (USPS) is responding to public comments regarding revisions to a Customer Privacy Act Systems of Records (SOR). These revisions were made to support the migration of emails to a cloud-based platform. The response to the comments made herein warrant revision to the original system of records; as such, a new revision to USPS 820.300 Informed Delivery will be submitted adhering to the standard revision process to affect these changes.

DATES: The revisions to USPS 820.300, Informed Delivery, Document Citation 87 FR 15275, were originally scheduled to be effective on April 18, 2022, without further notice. After review and evaluation of comments received, the Postal Service has found that substantive changes to the system of records are required; however, these changes and only these changes will be reflected through publication of a new notice for changes to this system of records. The effective date for the implementation of the proposed revisions herein should proceed as scheduled, with revisions to the new publication subject to the dates appearing within that notice.

FOR FURTHER INFORMATION CONTACT: Janine Castorina, Chief Privacy and Records Management Officer, Privacy and Records Management Office, 202–268–3069 or privacy@usps.gov.

SUPPLEMENTARY INFORMATION:

1. *Comment 1:*¹ The Informed Delivery Service should have a retention period of seven (7) days versus fourteen (14) days.

Answer: The Postal Service's retention period of seven (7) days for the Informed Delivery Service was set with the publication of the original system of record, finalized December 9, 2016. See

81 FR 89157. No changes were made to this retention period in the current system of records update at issue. However, the Informed Delivery Program Office agrees to extend the retention period for mail piece images to fourteen (14) days when the application is migrated to a cloud-based infrastructure. In the interest of transparency, the Postal Service will submit an additional system of records notice to reflect this change. This new notice will supplement the existing submission for USPS 820.300 Informed Delivery by creating a new retention period specifically for mail images captured and stored within the cloud-based platform. However, no other provisions of this system of records will be affected and should be considered implemented as of the date listed above.

2. *Comment 2:*² Recommending changes to Purpose 9 and the creation of two new purposes that are directly related to the United States Inspection Service and the United States Office of Inspector General.

Answer: The Office of Inspector General requests that Purpose 9 be edited to include the word mail theft. Additionally, it is requested that Purposes 16 and 17 be created specifically for the Inspection Service and the Office of Inspector General so that both entities may use the records for respective investigations.

The Privacy Act requires that an agency only maintain records that are “relevant and necessary to accomplish a purpose of the agency.” See 5 U.S.C. 552a(e)(1). Individuals are notified of the purposes for which the information is collected and used. See 5 U.S.C. 552a(e)(3) and (4). The purposes for the system and the use of the information gathered by the Informed Delivery System is to support electronic notification of mail delivery and other mail delivery purposes. No information in this system can go so far as to show mail theft. The Informed Delivery Service provides the consumer with images of mail that would be delivered that day. If the mail is not delivered, the customer can check a box in the Informed Delivery dashboard and note to USPS that a particular piece has not been received. At best that provides evidence of missing or delayed mail. Showing and identifying mail theft would be a much later determination, with more information, most of which would not be within the Informed Delivery system. We understand that the

Office of Inspector General would like to use the information for that purpose. However, purposes one and two, that cover mail that customers should have received and associated reports of mail not received, suit that purpose. The Office of Inspector General may use the missing or delayed mail information to compile it with other information to determine if theft is an issue.

When requesting that additional purposes should be articulated for this system of records to allow Office of Inspector General and Inspection Service investigations, the Office of Inspector General misunderstands the Privacy Act's disclosure intent. The purpose of the Informed Delivery Service is not to allow investigations. What the Office of Inspector General seeks is, instead, to enable certain disclosures of the information within the system of records. Authorized disclosures are not found within the purposes for gathering or using the information. Instead, authorized disclosures are found in section b of the Privacy Act. 5 U.S.C. 552a(b) Conditions of Disclosure. The Privacy Act provides that “those officers and employees of the agency which maintains the record who have a need for the record in the performance of their duties” may have access. *Id.* In some instance, this provision may provide Inspection Service employees with access to records. In addition, other authorized disclosures already exist for this SOR that cover disclosure to the Office of Inspector General and/or the Inspection Service. The next applicable authorized disclosure of the Privacy Act allows for disclosures pursuant to routine uses. The Postal Service has a routine use to provide records for a law enforcement purpose. See AS–353, Guide to Privacy, the Freedom of Information Act, and Records Management, Appendix D.2.2. This disclosure includes customer systems because the Inspector General Act of 1978, as amended, requires certain disclosures. Another authorized disclosure of criminal or civil law enforcement activity exists within the Privacy Act. See 5 U.S.C. 552a(b)(7). Following a written request, certain information can be disclosed for law enforcement purposes. Because authorized disclosures apply to provide the information, new purposes are not necessary or appropriate in this instance.
