

e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: EPA tips and complaints web form is intended to provide an easy and convenient means by which members of the public can supply information to EPA regarding suspected violations of environmental law. The decision to provide a tip or complaint is entirely voluntary and use of the webform when supplying a tip or complaint is also entirely voluntary. Tipsters need not supply contact information or other personal identifiers. Those who do supply such information, however, should know that this information may be shared by EPA with appropriate administrative, law enforcement, and judicial entities engaged in investigating or adjudicating the tip or complaint.

Form Numbers: None.

Respondents/affected entities:

Respondents are expected to be members of the general public as well as employees of any company subject to federal environmental regulation. There is no specific industry or group of industries about which EPA expects tips or complaints.

Respondent's obligation to respond: voluntary.

Estimated number of respondents:

1,585 per month (total).

Frequency of response: generally, a one-time response.

Total estimated burden: 9,510 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$487,673 (per year), includes no annualized capital or operation & maintenance costs.

Changes in Estimates: There is an increase of 924 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase reflects the fact that tips and complaints are being filed at a higher rate as the website becomes more widely known, a strong indication of the continued success of this program. There has been no change in the information being reported or the estimated burden per respondent.
