

Government and is available for licensing to achieve expeditious commercialization of results of federally funded research and development. Foreign patent applications are filed on selected inventions to extend market coverage for companies and may also be available for licensing.

FOR FURTHER INFORMATION CONTACT: Yogikala Prabhu, Ph.D., 301-761-7789; prabhuyo@niaid.nih.gov. Licensing information may be obtained by communicating with the Technology Transfer and Intellectual Property Office, National Institute of Allergy and Infectious Diseases, 5601 Fishers Lane, Rockville, MD 20852; tel. 301-496-2644. A signed Confidential Disclosure Agreement will be required to receive copies of unpublished information related to the invention.

SUPPLEMENTARY INFORMATION: Technology description follows:

Methods for Using Modulators of Extracellular Adenosine or an Adenosine Receptor To Enhance Immune Response and Inflammation

Description of Technology

Local inflammation processes are crucially important in the host defense against pathogens and for successful immunization because proinflammatory cytokines are necessary for initiation and propagation of an immune response. However, normal inflammatory responses are eventually terminated by physiological termination mechanisms, thereby limiting the strength and duration of immune responses, especially to weak antigens. The inventors have shown that adenosine A2a and A3a receptors play a critical role in down-regulation of inflammation in vivo. They act as the physiological termination mechanism that can limit the immune response. Thus, a method was developed for inhibiting signaling through the adenosine receptor to prolong and intensify the immune response. The method involves administering either an adenosine-degrading drug or an adenosine receptor agonist. These compounds can be also used as vaccine adjuvants and treatments for accomplishing targeted tissue damage such as for tumor destruction.

This technology is available for licensing for commercial development in accordance with 35 U.S.C. 209 and 37 CFR part 404, as well as for further development and evaluation under a research collaboration.

Potential Commercial Applications

- Anti-tumor therapy
- Vaccine adjuvants for tumors

- Immunotherapy

Competitive Advantages

- Use of adenosine receptor agonist or adenosine-degrading drug to inhibit signaling through the adenosine receptor to prolong and intensify the immune response.

- Use of adenosine receptor agonists or adenosine-degrading drugs as vaccine adjuvants for tumor destruction.

Development Stage

- Pre-clinical

Inventors: Michail V. Sitkovsky, M.D. (previously at NIAID), Akio Ohta (previously at NIAID).

Intellectual Property: HHS Reference No. E-051-2002-0.

- U.S. Divisional Application No. 16/391,423- filed April 23, 2019, entitled "Methods for Using Modulators of Extracellular Adenosine or an Adenosine Receptor to Enhance Immune Response and Inflammation" [HHS Reference No. E-051-2002/0-US-19].

All issued and active U.S. patents (claiming priority to U.S. Provisional Application Nos 60/340,772 filed December 12, 2011, and 60/342,585 filed December 19, 2001) related to the above-referenced technology:

- U.S. Patent 8,080,554, issued December 20, 2011 (application 10/498,416 filed on 06/10/2004)
- U.S. Patent 8,716,301, issued May 06, 2014 (application 13/310,264 filed on 12/02/2001)
- U.S. Patent 9,415,105, issued August 16, 2016 (application 14/067,005 filed on 10/30/2013)
- U.S. Patent 10,314,908, issued June 11, 2019 (application 15/237,316 filed on 08/15/2016)

Licensing Contact: To license this technology, please contact Yogikala Prabhu, Ph.D., 301-761-7789; prabhuyo@niaid.nih.gov, and reference E-051-2002-0.

Collaborative Research Opportunity: The National Institute of Allergy and Infectious Diseases is seeking statements of capability or interest from parties interested in collaborative research to further develop, evaluate or commercialize this technology. For collaboration opportunities, please contact Yogikala Prabhu, Ph.D., 301-761-7789; prabhuyo@niaid.nih.gov.

Dated: June 10, 2022.

Surekha Vathyam,

Deputy Director, Technology Transfer and Intellectual Property Office, National Institute of Allergy and Infectious Diseases.

BILLING CODE 4140-01-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Institute of General Medical Sciences; Notice of Closed Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, notice is hereby given of the following meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Institute of General Medical Sciences Special Emphasis Panel; Maximizing Opportunities for Scientific and Academic Independent Careers (MOSAIC) Postdoctoral Career Transition Award to Promote Diversity (K99/R00).

Date: July 26, 2022.

Time: 10:00 a.m. to 5:00 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institute of General Medical Sciences, Natcher Building, 45 Center Drive, Bethesda, MD 20892 (Virtual Meeting).

Contact Person: Lisa A. Dunbar, Ph.D., Scientific Review Officer, Office of Scientific Review, National Institute of General Medical Sciences, National Institutes of Health, 45 Center Drive, Room 3AN12, Bethesda, MD 20892, 301-594-2849, dunbarl@mail.nih.gov. (Catalogue of Federal Domestic Assistance Program Nos. 93.375, Minority Biomedical Research Support; 93.821, Cell Biology and Biophysics Research; 93.859, Pharmacology, Physiology, and Biological Chemistry Research; 93.862, Genetics and Developmental Biology Research; 93.88, Minority Access to Research Careers; 93.96, Special Minority Initiatives; 93.859, Biomedical Research and Research Training, National Institutes of Health, HHS)

Dated: June 10, 2022.

Miguelina Perez,

Program Analyst, Office of Federal Advisory Committee Policy.
