

6(b)(5) of the Act,<sup>14</sup> which requires, among other things, that the rules of a national securities exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest, and that the rules of a national securities exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

In the OIP, the Commission noted that the Exchange had separately proposed a different set of changes to its Closing Auction process,<sup>15</sup> and that the Commission was instituting proceedings to allow for additional analysis and input concerning the instant proposed rule change's consistency with requirements of the Act and to evaluate the proposal in light of other pending proposed changes to the Closing Auction.<sup>16</sup> In response to the OIP, the Exchange states that, because the two filings set forth independent proposed changes with distinct purposes, the Commission should approve the proposed rule change.<sup>17</sup> The Exchange states that, while the instant proposal addresses certain orders that participate in the NYSE Closing Auction, the instant proposal is otherwise unrelated to changes proposed under the Closing Auction Filing.<sup>18</sup> The Exchange further states that whereas the Closing Auction Filing proposed to modify how the Closing Auction Price would be determined and how Designated Market Makers would be able to participate in the Closing Auction, the proposed rule change in this instance proposes a discrete change pertaining only to the cancellation of MOC, LOC, and Closing IO Orders after the Auction Imbalance Freeze for the Closing Auction.<sup>19</sup> In addition, the Exchange has withdrawn the Closing Auction Filing.<sup>20</sup>

The Commission finds that the proposed rule change is consistent with Section 6(b)(5) of the Act, because it is reasonably designed to provide greater certainty regarding MOC, LOC, and

Closing IO Orders represented in the Exchange's auction imbalance information by requiring that any changes to those orders to correct a Legitimate Error be made by 10 minutes before the scheduled end of Regular Trading, which is the existing deadline for entering a MOC, LOC, or Closing IO Order, and because the restriction will apply equally to all users of MOC, LOC, or Closing IO Orders.

#### IV. Conclusion

*It is therefore ordered*, pursuant to Section 19(b)(2) of the Act,<sup>21</sup> that the proposed rule change (SR-NYSE-2021-74) be, and hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.<sup>22</sup>

**J. Matthew DeLesDernier**,

*Assistant Secretary*.
