This list of scope ruling applications is not an identification of scope inquiries that have been initiated. In accordance with 19 CFR 351.225(d)(1), if Commerce has not rejected a scope ruling application nor initiated the scope inquiry within 30 days after the filing of the application, the application will be deemed accepted and a scope inquiry will be deemed initiated the following day—day 31.⁷ Commerce's practice generally dictates that where a deadline falls on a weekend, Federal holiday, or other non-business day, the appropriate deadline is the next business day.⁸ Accordingly, if the 30th day after the filing of the application

⁵ The products subject to Dorman's request are Loaded Knuckles. A rear loaded knuckle consists of a suspension knuckle that has been pre-assembled with multiple attached components, which contributes to a vehicle's steering, suspension, drivetrain, and braking systems by holding the vehicle wheel in a relative position to the vehicle's frame, while permitting controlled degrees of freedom required for steering and suspension jounce. ⁶ The products subject to Elysium's request are composite marble tiles made up of multiple layers of material. The tile is produced in six sizes—300 by 300 mm, 300 by 600 mm, 600 by 600 mm, 800 by 400 mm, 800 by 800 mm, and 1200 by 600 mm. The tile is approximately 12 to 15 mm thick. The base, or bottom, layer is made from porcelain, a vitrified ceramic, which if imported by itself, would be subject to the scope of the order. The second, or middle, layer consists of an aviation grade epoxy glue which is used to permanently bind the base layer and the top layer. The third layer consists of top facing material made from nature stone, primarily marble. Once installed, the end user only sees the top facing natural stone. The product is produced in and exported from China. The declared country of origin is China. The composite marble tile is classified on entry under HTSUS code 6907.40.90.51.

⁷ In accordance with 19 CFR 351.225(d)(2), within 30 days after the filing of a scope ruling application, if Commerce determines that it intends to address the scope issue raised in the application in another segment of the proceeding (such as a circumvention inquiry under 19 CFR 351.226 or a covered merchandise inquiry under 19 CFR 351.227), it will notify the applicant that it will not initiate a scope inquiry, but will instead determine if the product is covered by the scope at issue in that alternative segment.

⁸ See *Notice of Clarification: Application of "Next Business Day" Rule for Administrative Determination Deadlines Pursuant to the Tariff Act of 1930, As Amended*, 70 FR 24533 (May 10, 2005).

falls on a non-business day, the next business day will be considered the "updated" 30th day, and if the application is not rejected or a scope inquiry initiated by or on that particular business day, the application will be deemed accepted and a scope inquiry will be deemed initiated on the next business day which follows the "updated" 30th day.⁹

In accordance with 19 CFR 351.225(m)(2), if there are companion AD and CVD orders covering the same merchandise from the same country of origin, the scope inquiry will be conducted on the record of the AD proceeding. Further, please note that pursuant to 19 CFR 351.225(m)(1), Commerce may either apply a scope ruling to all products from the same country with the same relevant physical characteristics, (including chemical, dimensional, and technical characteristics) as the product at issue, on a country-wide basis, regardless of the producer, exporter, or importer of those products, or on a company-specific basis.

For further information on procedures for filing information with Commerce through ACCESS and participating in scope inquiries, please refer to the Filing Instructions section of the Scope Ruling Application Guide, at https://access.trade.gov/help/Scope_Ruling_Guidance.pdf. Interested parties, apart from the scope ruling applicant, who wish to participate in a scope inquiry and be added to the public service list for that segment of the proceeding must file an entry of appearance in accordance with 19 CFR 351.103(d)(1) and 19 CFR 351.225(n)(4). Interested parties are advised to refer to the case segment in ACCESS as well as 19 CFR 351.225(f) for further information on the scope inquiry procedures, including the timelines for the submission of comments.

Please note that this notice of scope ruling applications filed in AD and CVD proceedings may be published before any potential initiation, or after the initiation, of a given scope inquiry based on a scope ruling application identified in this notice. Therefore, please refer to the case segment on ACCESS to determine whether a scope ruling application has been accepted or rejected and whether a scope inquiry has been initiated.

SUPPLEMENTARY INFORMATION:

Background

On February 2, 2022, Commerce published the *Preliminary*

Determination.¹ On March 8, 2022, Commerce published the *Amended Preliminary Determination*.² A summary of the events that occurred since Commerce published the *Preliminary Determination*, as well as a full discussion of the issues raised by parties for this final determination, may be found in the Issues and Decision Memorandum.³

Period of Investigation

The period of investigation is April 1, 2020, through March 31, 2021.

Scope of the Investigation

The products covered by this investigation are UAN from Trinidad and Tobago. For a complete description of the scope of this investigation, see Appendix I.

Scope Comments

No interested party commented on the scope of the investigation as it appeared in the *Preliminary Determination*. Therefore, no changes were made to the scope of the investigation.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs submitted by interested parties in this proceeding are discussed in the Issues and Decision Memorandum. A list of the issues raised by parties and responded to by Commerce in the Issues and Decision Memorandum is attached to this notice as Appendix II. The Issues and Decision Memorandum is a public document and is available electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). Verification

Commerce was unable to conduct on-site verification of the information relied upon in making its final determination in this investigation. However, we took additional steps in lieu of an on-site verification to verify the information relied upon in making this final determination, in accordance with section 782(i) of the Tariff Act of 1930, as amended (the Act).⁴

Changes Since the Amended Preliminary Determination

Based on our analysis of the comments received and additional information obtained since our *Amended Preliminary Findings*, we made a certain change to the margin calculation for Methanol Holdings (Trinidad) Ltd. (MHTL) after the *Amended Preliminary Determination*. For a discussion of this change, see the Issues and Decision Memorandum.

All-Others Rate

Section 735(c)(5)(A) of the Act provides that the estimated weighted-average dumping margin for all other producers and exporters not individually investigated shall be equal to the weighted average of the estimated weighted-average dumping margins established for individually investigated exporters and producers, excluding any margins that are zero, *de minimis*, or any margins determined entirely under section 776 of the Act.

In this investigation, Commerce calculated an estimated weighted-average dumping margin for the sole mandatory respondent, MHTL, that is not zero, *de minimis*, or based entirely on facts otherwise available. Because the only individually calculated dumping margin is not zero, *de minimis*, or based entirely on facts otherwise available, the estimated weighted-average dumping margin calculated for MHTL is the dumping margin assigned to all other producers and exporters, pursuant to section 735(c)(5)(A) of the Act.

Final Determination

The estimated weighted-average dumping margins are as follows:
